

that could well cause us to reflect on chagrin on our part. We regret very much any impression that may be abroad that the analyses of water in Jarvis has been done with a view of scaring people into a waterworks and sewage disposal plant. This simply isn't so. But it is one of the reasons why we should be giving careful and serious consideration to this important facility.

The best possible education for the children should, obviously, be the objective of the school Board. We think there is evidence to indicate that this purpose is interpreted to be in the minds of the taxpayers. If this is so it is certainly time the elements of cost are thoroughly investigated. We believe the only hope of reducing educational costs in North Walpole is by a program of moderation. We also believe this is what the people of North Walpole want and we believe it is the Board's responsibility to move in that direction. Surely the people of North Walpole do not want a continuation of the particularly during the past year.

If there is righteousness in the heart, there will be beauty in the character. If there is beauty in the character, there will be harmony in the family home. If there is harmony in the family home, there will be order in the nation. If there is order in the nation, there will be peace in the world.

A recent announcement by Miss Judy LaMarsh, Minister of National Health and Welfare (or, in Scott Young's words, Minister of wealth and hellfire) that we are going to spend \$600,000 of public money to discourage smoking, will do little to enhance her reputation as a responsible Minister of the Crown. The program, it seems to us, might more properly be described as a subsidy to the Advertising Agencies and information media carrying the advertising. We imagine with anticipation the appearance of the first ads in this campaign. We imagine the Ad boys will come up with some dillies.

LOVE FOR THE NATIVE  
A professor has said that the only Canadians who love Canada, their country, are Canadians who were born elsewhere. Sixty or more years ago Canada's population consisted mainly of immigrants.

## How flameless electric heating makes all other heating systems out of date!

- It's the world's safest heating system—completely flameless.
- It's cleaner than any other heating system—cannot create dust, smoke, soot or dirt of any kind.
- You get custom-comfort in every room—electric heating offers you a separate thermostat in each room.
- Easy to install—no furnace or fuel tank.
- No annual maintenance costs—nothing to clean, no filters to replace, electric heating is truly a carefree system.

Reduced operating costs—in many municipalities the rate for electric heating has been reduced as much as 30% during the last 2 years.

WITH THE SCOUTS  
(intended for last issue)  
On Saturday, November 23,

We left the Scout Hall for an overnight hike, seventeen boys being ready to rough it for one night. Camp set up and the evening meal over we decided to have some outdoor fun. It was a bit game called "Kick the Can", that we had the strange experience of seeing a "Flash" run into a tree. On Sunday morning a Scouts Open Service was held with all leaders and some boys taking part. We think this was a good camp with many things accomplished.  
On Monday evening, November 25 the regular Scout meeting was held with Scouters Jim Miller taking charge for the first part of the meeting. This meeting was spent on Scout tests. A short Court of Honor was held after this meeting. Next meeting Monday, December 2nd at 7:30 P.M. Be on Time. Be Prepared.
