The President opened the meeting, a hymn was sung and a gift was presented to Mrs. Walker as they are leaving this field of the work Mrs. Walker replied in a few well-chosen words.

Mrs. Wm. Person, Mrs. Dick Person and Mrs. S. Walker led in prayer.

On the Farm Front

The Weed Control in Corn Competition this competition was instituted to encourage economical and effective weed control in silage or grain corn fields. Fields will be scored on the basis of freedom from weeds, grasses, chemical damage, cultivation damage, and condition of the crop.

Controlled experiments during the past three years have shown conclusively that if competition from weeds in the corn crop is reduced, the yields of corn will be increased significantly.

For example, over a 3 year period and several experiments each year, plots with no weed competition averaged 5600 lbs. of ear corn per acre. At the same time, when 6 weeds per foot of row were allowed to grow, in the corn rows, the yield was reduced to 4600 lbs. of ear corn per acre. With the same number of weeds per foot, in the rows of corn, the yield was reduced to 3900 lbs per acre.

When the weed population was 12 weeds per foot of row, the yield of corn was reduced to 3900 lbs. per acre, but when the same number of weeds grew between the row, the yield was 3100 lbs. of corn.

The Weed Control Competition focuses attention on reducing weeds and farm people are invited to enrol.

Fifteen ladies met last Thursday evening at the home of Mrs. Roy Smith for the regular U.C.W. meeting. The President, Mrs. M. Phillips, welcomed guests, namely Mrs. H. Pond and Mrs. F. Preilipp of Simcoe, Mrs. G. Curnow of Hagersville and Mrs. H. Smith of Hamilton and then read a poem "O.K. as Directed to You" The roll call was answered by "A Thought on Missions" Mrs. W. Harrop, program convenor, began by reading a verse on "Faith". Mrs. W. North read the Scripture from I Timothy and all joined in reading hymn 428 The devotional part was then concluded by the meditation and prayer given by Mrs. W. Murchy. The Rim of E. Asia," the final chapter of the study book was taken by Mrs. W. Harrop who told us of the varied problems of the people there and how our curch is trying to help. Mrs. R. Phibbs then read a most interesting letter from Mr. Baker who is doing missionary work in Korea.

We were grateful to Mrs. Harold Pond who is president of Haldimand-Norfolk Presbytery for bringing a fine tape recording of an interview with Miss Beulah Burns, serving as a missionary nurse in S. Korea. This impressed us with the great poverty in that area. The President then continued to send more help from our church in Canada. The President then continued in prayer. Mrs. Curnow also gave some fine thoughts on Missionary Work. The business included a report on the autographed quilt which was displayed and sold recently at the Pie and Ice Cream Social and netted $66.25. The next meeting in July will be a picnic in the Hagersville Park, also a Bake Sale was announced for June 26. The courtesy was extended by Mrs. C. Harrop and then Mrs. W. Harrop conducted two short contests while the lunch was being prepared

CARD OF THANKS

We wish to thank friends and relatives, the Lodge and all those who participated in making our Twenty-fifth Wedding Anniversary such a very happy event.

HEREFORDS SUFFER FIRST DEFEAT

Jarvis Hereford fans went home disappointed on Saturday night when the Dunnville Legionnaires toppled their favorites in their first defeat of the scheduled season in the Haldimand-Norfolk Floodlight League.

Dunnville opened the scoring in the first inning with a home run by Keith Worrall and added three more in the second frame to give them an advantage that held throughout the nine frames.

Johnny Edwards came into the game to relieve starting pitcher, Bob Hazlett, and although he struck out 16 batters he seemed to lack his usual speed and control.

Little turned in a superlative effort for the Legionnaires. He allowed eight scattered hits, was never in serious trouble and had twelve strikeouts.

For Jarvis Edwards had two singles while Ron Firmi belted a long ground-rule double. Charlie Winger and Harold Nix on led the 8-hit attack.

BOARD OF TRADE DELEGATION PRESENT VIEWS TO COUNCIL

A committee from the Jarvis Board of Trade appeared before Council on Tuesday night to present some views following a recent meeting of that organization. Two subjects were discussed. These were the matter of Main Street parking and a Water and Sewage plan for the Village.

The spokesman for the Board of Trade delegation first of all pointed out to council that a parking sign on Main Street near Peel, indicates that parking is prohibited in this area. The sign, apparently, had been placed there in error and a request was made to have it removed.

The suggestion was also made of the possible desirability of restricting parking to two hours on Main Street. It was pointed out that people from out of town and commuting to work in other areas sometimes left their cars parked on Main Street all day, adding to the unavailability of day-time shoppers to find parking space adjacent to local stores. It was also pointed out that the limited parking space available in the business area was often taken up by merchants themselves who parked in front of their premises and made it impossible for shoppers to find parking space.

Reeve Craddock suggested that the Board of Trade might well overcome this problem through their own organization. He did indicate, however, that if the desired results could not be achieved in this way that the council would be favourable to giving consideration to a two-hour parking limit.

With respect to the matter of Waterworks and Sewage, the spokesman for the Board of Trade stated that ninety-nine percent of the Board of Trade members were fully behind the council in any move to bring these facilities to Jarvis. The Reeve said he appreciated this expression of support for an undertaking he felt was imperative to the future progress of the municipality. He then informed the delegation that initial steps had been taken to determine an adequate source of water supply which was imperative to the successful development of such a project. He said that two possible sources gave hope for such a supply and these were the quarry, three miles west of the Village and a well that had been originally drilled for gas. These two sources, he said, were presently being investigated by the Ontario Water Resources Commission and it was the hope of the Council that one or the other would prove adequate.

Providing an adequate water supply can be found, said the Reeve, we also have the advantage of efforts in this direction in the past. The Engineering Firm engaged by the Village back in 1932 and which revised their drawings in 1947 can adjust the changes to 1963 with little effort and cost.

The matter at present would indicate that if a water supply can be found a decision will be made in this matter in the not too distant future.
