

you can heat water electrically

as fast as average use demands with the new concerned—not just today but for future generations. Since Ontario Department of Education Grants play such an important role in school operations any committee working toward a solution would have to work in conjunction with the Department of Education. We would think that, perhaps, a committee of two people, in co-operation with the Department of Education, could submit a recommendation in a relatively

SCOUTS WILL HOLD PAPER COLLECTION

The Jarvis Boy Scouts Association will collect Paper, Refundable Bottles and Usable Baskets on Saturday, September 1982.

There has been much publici ty concerning the controversial school question in North Waipole. We have been hoping that one or more of the elected representatives of the people concerned would demonstrate the wisdom of Solomon to put an end to the petty bickering that must sadden the more serous minded people of the area.

Everyone must agree there is problem to be solved. It would appear to us that neither the School Board, nor the Town ship Council, can solve the prob-lem to the satisfaction of every, one concerned in the immediate future. What do we suggest as an alternative? Well now, we're not much on Royal Comwe're not much on Royal Commissions but it occurs to us that an independent committee of about three persons, mutually agreed upon by the School Board and the Council, might profitably be put to work to analyse the structure of elementary education on a Transport of the council with the council might profitably be put to work to analyse the structure of elementary education on a Transport of the council with th entary education on a Township wide basis.

Obviously there are those who would like to revert to the ngle section administration There are those who want to withdraw from the School Area. There are those who want a central school for the North Walpole Area. Throughout the entire controversy we have never seen figures to justify any move. While we have never heard it suggested we think any investigation. think any investigating com-mittee should also look at the possibility of turning the whole township into a single school

We have grave doubts this question will ever be solved until a positive long range plan is presented and justified by well investigated cost figures to show it is best for the people concerned—not just today but for future generations. ommendation in a relatively

sation with some high officials of the Civil Service they implored us not to beat "our boss"

of the Civil Service they implored us not to beat "our boss" we like him. he has done so much to clean up his department where he is held in the highest esteem by everyone in Queen's Park. They all like Jimmy Allan down there". End of quote.

The above testimonial almost leaves us speechless. However we'll try and carry on. We real telling Sam about these outstanding qualities of Jim Allan back in 1951 when the Hon. James made his first appeal to the Haldimand-Norfolk electors. Even though it has taken San these past twelve years to acknowledge what we knew all the time, the confession is sweet music, indeed, to our eyes and ears.
