**BACK TO SCHOOL**  
September means back-to-school for our elementary and secondary school children. The beginning of a new school year is a time when we should take a look at our children's study area. It is large enough? Is it airy and bright? Is it free from clutter or potential distractions? Is it bright, cheery and uncluttered? The lighting is particularly important, or inadequate lighting will result in a subsequent loss of efficiency and interest. Remember that ceiling lights alone are not enough; there should be a non-glare light close to the reading subject.
