FIRST HOSPITAL PATIENT
 A LONG LOOK NEEDED AT EDUCATIONAL NEEDS OF WALPOLE TOWNSHIP

THE DEATH KNELL for Ontario's one-room rural schools was sounded again this year when the North Walpole School Board announced plans to build two four-room schools to serve the North Walpole area. These plans will now have to be discarded as they will not provide for the minimum accommodation of 200 pupils per school. Furthermore the administration of education in both North and South Walpole will now, likely, come under one Board.

The whole situation calls for a long, hard look at the educational needs of the Township. There will be no point in the continuing fight to preserve the antiquated one-room school system presently in use. The long range interests of the Township, both educationally and economically call for one central school for the whole Township. Let us hope that those who give leadership in the cause of education will work toward that end.
