

WALPOLE MUNICIPAL COUNCIL MINUTES

Walpole Municipal Council, March 6, 1964. The Municipal Council met on this date with all members present. Reeve Montague presided. The minutes of the February 19th meeting were read and correspondence brought before the Council.

Now that we have become a grandfather we're going to do our best not to get grumpy like Sam Morris. He's going to be beating the drums for the Pearson Government now that he has persuaded them to place \$150,000 in the estimates for expenditure in Port Dover.

It may not mean much to the majority but the next couple of weeks are going to be pretty rough for about thirty members of the local Lions Club. Yes it's the annual Minster Show.

Federation Facts

In reviewing the agricultural situation in a speech to the recent Annual Meeting of the Ontario Soil and Crop Improvement Association, Mr. M. Biggs, Deputy Minister of Agriculture, made the following observations:

"All those in agriculture, whether in production or in farm or in secondary agriculture have a responsibility to the public."

"The consuming public should have some appreciation of what it is getting for its money. At the present rate of demand, Canadian farmers will have to increase livestock numbers by about 60 percent in a meeting a 70 per cent increase in effect will mean they will also have to double their output of food grains."

"As our province shifts from a rural to an urban footing, the percentage of population involved in farming drops to some 8 percent of the total, there is greater need today than ever before for farmers to organize their basic thinking in agriculture. There is need to hammer out a new agricultural code which will represent the best and most informed and the most responsible thinking."
