

Judging by recent newspaper photographs, Canadian Mothers who believe in the economy and neatness of short haircuts will be wondering why Prince Charles, must have their hair as long as that of an English sheepdog. We rather liked the comment of a southerner, who when asked what he thought of the Beatles, said: "Well, now where I was raised we stepped on them."

The criterion by which the average person will judge the New West Haldimand General Hospital will be by the reaction of the patients admitted there. Any concern we may have felt

in this respect has been completely obliterated by the statement of patients presently being treated there. We have learned that, without exception, the patients are pleased with the food and with the service. This is the goal that everyone concerned with the future of the Hospital should be aiming at.

We had a call last week from Grouchy Grampa Sam Morris and by the sound of his voice he must have lost a couple more teeth since the last time we conversed with him. Of course he was gloating over the appreciation in the current year's estimates for the Town of Port Dover by the board of directors at Ot-tawa and likewise, trying to convince us that the voice of Norfolk is heard in the higher echelons of Government. He doesn't know this but we know Jack Roxburgh long before Sam became a Grandfather and that we are aware of every one of Jack's virtues. As proof of this we can tell Sam that Jack sold us an Insurance Policy thirty years ago and we're still paying premiums on it.

The Grant system with respect to education is illustrated very clearly by a proposal of the School Board of Port Erie to the Town Council. The school Board proposes that a new school be built at a cost of \$412,000. The Town Council, under Ontario rules, would issue debentures therefor. What attracts attention to this is that the Town's share of the cost of this four-hundred-thousand-dollar school would be \$20,000, or only about 5 per cent of the total cost. The balance of the capital sum would come from grants from or through other levels of Government—County, Provincial and perhaps the Municipal Loan Fund of the Federal Government. The Port Erie School argues, and logically, that the alternative to the huge capital outlay would be to spend large sums on repairing present school buildings which costs are not recoverable by way of grants.

Gentlemen:

For years I have used Chevrolet trucks for my city and country deliveries. I have always had really good service from them, with very little trouble. I recently traded a 1954 cab-over-engine model which had cost only \$200.00 in repairs since new. A 1967 truck which I bought new is still running well with original parts throughout. From engine to rear axle, everything is original.

This kind of long service has convinced me that I buy the right truck when I buy Chevrolet. Gas mileage is better than on any other make of truck I have owned, and my drivers tell me that there's lots of power there for their heaviest loads.

A multi-stop operation such as mine is hard on all parts of a truck but from my previous experience, I know my new Chevrolet will stand up to the job.

Yours very truly,

Mel Hill

President
