

### Revision Of Gospels Stir Controversy

Why was Jesus killed? According to the Gospels, he was killed for religious reasons when Jewish authorities denounced his claim to be the Son of God. According to a new study, "The Death of Jesus," a book just published, he was killed because he led an armed insurrection against the Romans.

This unorthodox view is advanced by Joel Carmichael, an American historian, linguist, and journalist, whose work ranges from translating the diaries of a Russian revolutionist to a new collection of essays about Zionist Chaim Weizmann. Carmichael's reconstruction of history continues a quest for the historical Jesus which has long been under way. Many scholars who have been involved may not agree with his theory. And much of the popular audience — for which "The Death of Jesus" is written — is not going to like what he says one bit.

Carmichael starts with the premise that the Gospel writers' perspective "was that of the resurrection of a dead Jesus." He recalls that prior to his trial, the Gospels indicate that Jesus occupied the Temple in Jerusalem for a while. How, Carmichael wonders, could Jesus possibly have occupied the Temple? An enormous edifice, the Temple had a staff of up to 20,000 men of the Roman garrison. In view of this, Carmichael, "Jesus could hardly have been in the Temple, handled a few sour remarks with the Temple police and priests . . . and purely as a result of his personal, spiritual authority, actually held the Temple for any length of time whatever."

Instead, Carmichael suggests, Jesus must have had a force powerful enough to seize armed forces. Jesus' followers must have been armed.

Jesus, then, was a national leader, "one of the many who sprang up among the Jews during their long drawn-out subjugation by Rome." From the Roman point of view, describing Jesus as "King of the Jews" was "a simple statement of fact: there was nothing otherworldly about them about it at all — it referred to a basic act of insurrection, which was punished as such." However, when the portrait of Jesus was "piously reworked," it smoothed away "those aspects of Jesus' enterprise that were to prove incalculable to later Christian thought — the violence that attended Jesus' movement . . . and, above all, perhaps, its material failure."

Just as Carmichael cannot swallow much that he finds in the Gospels, so many readers will not be able to swallow much of Carmichael, Dr. Krister Stendahl of Harvard Divinity School, says: "He has seen that the ministry of Jesus had clearly political overtones, and it's good to have this said for that's not the way it comes out in Sunday school. But then the book is contradicted with this whole military theory." Nonetheless, as a piece of historical detective work pursued with relentless logic, "The Death of Jesus" remains engrossing.

The carp, a native of Asia, was introduced in the United States in 1872.

## THE FARM FRONT

by John Russell

Last spring the Essex County Associated Growers requested the Research Station to implement research on the production of small potatoes for canning whole. This request was the result of much publicity being given to the installation and stocking of fall-out shelters. The sale of potatoes in cans appeared to be another outlet for potatoes, especially for emergency supplies. Some growers were considering growing potatoes specifically for canning.

Several treatments were carried out in 1962, using the Irish Cobbler variety. Planting at 8, 9, 10 and 11 inch spacings required 75, 38 and 25 bags of seed per acre, respectively while the best yields were 65, 53 and 44 bags per acre for the various spacings. Normal and double fertilizer application rates gave respective yields of 64 and 38 bags. Four irrigations between May 16 and June 20 (approximately one inch per application) resulted in 59 bags of small potatoes (1 1/2 to 1 3/4 inches) per acre whereas the unirrigated plots produced only 43 bags. A 75 pound bag holds 200 No. 1 potatoes but requires 1168 small potatoes to fill it.

It is not an economically sound practice to plant more seed than is returned in crop. Therefore, it is concluded that growing potatoes, which was published as such. However, when the portrait of Jesus was "piously reworked," it smoothed away "those aspects of Jesus' enterprise that were to prove incalculable to later Christian thought — the violence that attended Jesus' movement . . . and, above all, perhaps, its material failure."

The Ontario Department of Agriculture has announced the introduction of Viscount, a mid-season tomato variety. This is a productive variety with deep, very smooth fruit and small core. Viscount was developed for processing but is excellent as a table variety. It is promising for fresh market and home garden.

Viscount was bred from the cross Ace X Rideau by Dr. E. A. Kerr, Horticultural Experiment Station, Vineland Station. Like its parents, Viscount has the bush habit of growth. Leaf protection has been good. This, combined with the uniform-ripening characteristic, makes it resistant to leather top.

Internally, Viscount is thick-walled and has deep red color. In canning trials at the Horticultural Products Laboratory, Vineland, Dr. Walsh reviewed agriculture as he found it in Britain, France, West Germany, Belgium, Norway, Sweden, Denmark and Italy. "These countries," he said, "are on the march agriculturally. They are working to plan with justly West Germany lagging behind the others in the plan mainly because when the old Germany was divided the part to the West of the Iron Curtain was the Germany of steel, iron and secondary industry and the part to the East of the Curtain the real agricultural area."

Dr. Walsh was lost in his praise of agricultural policy in Holland where the co-operatives and marketing boards rule the roost to the point where they are better prepared to trade worldwide than matter what the conditions. He pointed the picture of an expanding agriculture in France, where mechanization is changing the whole concept of farming, where government planning and policy are making France a great producer of food.

France, he found, was also moving forward at a rapid pace as the sheets of statistical information he passed out amply testified.

### Gardening Itch Hard To Cure

There is something of the gardener in all men, as benefits descendents of Adam, and wherever they go, however green the land, they try to make barren things grow.

It was this instinctive challenge which led scientists at the South Pole station in Antarctica to plant seeds. And there, under the glow of fluorescent lamps and a tungen bulb, a garden blooms, bright with marigolds and green with ivy.

The Polar garden has become an important part of the lonely life at the station. As one scientist says, "It's like home, an earthly green smell—you know what I mean."

Anyone who has been long without greenery knows exactly what he means. Doubtless, when man reaches the moon, one of the first things he'll do is plant a garden.—San Mateo (Calif.) Times.

Repeatedly the speaker kept referring to Holland and Denmark, to the educational facilities for young farmers, to the Upside-down to Prevent Peeking.

### SNOWED IN—National Guardsmen uncover an auto buried in a 10-foot snowdrift near Holland, Mich.

### FRAGILE CASTLE

There isn't a single nail in this dwelling. Using some 5,000 pieces of scrap lumber from a nearby mill, these four boys erected a fragile wooden castle. It has three rooms so far, but there will be more.

### SUNDAY SCHOOL LESSON

By Rev. H. Harvey Warren, B.A., B.D.  
Is Your Religion Real?  
Mark 7

Memory Scripture: This people honoureth me with their lips, but their heart is far from me. Howbeit he left no doubt, by his constant teaching of doctrines, the common religion of men. Mark 7:7-8

Religion is often styled by the worship of tradition. Jesus certainly did his best to show us the error of trusting in tradition and ceremonialism. The Pharisees were more concerned about the washing of the pots and pans than about worshiping the Lord in the beauty of holiness. In his reference to Corban He showed us how they actually made the law of God void through their tradition. By voting a portion of their earnings to God (a vow which there was no necessity to keep) they could renounce all responsibility for honouring their parents. Let us ask ourselves if we are truly following the Lord as revealed in the Scriptures or are we slaves of tradition.

Jesus goes on to show that what a person is, depends not so much upon what goes into his mouth and stomach as what comes forth from his heart. As we see that the essence of real religion is inner rather than external observances.

The lesson also records a healing by Jesus which proves that real religion makes no racial distinctions. He speaks ironically to the Syrophenician woman simply to show the thought of the time and to test her faith. The Jews looked upon other races as Gentile dogs. But Jesus had pity on the woman and healed her. Do we love people of other races as well as we love those of our own?

Man looketh on the outward appearance, but the LORD looketh on the heart. The final judgment will be passed, not to how we appeared to man, but on what God sees in us. Our only hope is to know that we have confessed and forsaken our sins and are walking daily in the light of the Word so that we know the blood of Jesus Christ cleanse us from all sin.

DRIVE CAREFULLY - The life you save may be yours own.

success of the farm co-operatives and the marketing boards, to centralized selling. Without any constant references to the Dutch, that felt the salvation of the Canadian fruit and vegetable industry rested upon the industry's ability to think, work, and operate collectively in a world where state planning is accepted as the only course for the farmer with the farmers' co-operative main cog in the machine.

Dr. Walsh declared that Canada had reason to be concerned, especially the Canadian apple industry. What will emerge was beyond prediction at the moment for the picture changes day-by-day, but Canadians and Americans too, could find it painful in the inevitable period of adjustment, especially with "Uncle Charlie" thinking of France and France, under De Gaulle, aimed to be master in the E.C.C. House of Nations; that France was planning to be the bread basket; that France was aimed to protect and develop her agriculture so that the French "peasant" as he has been termed for centuries, because the financial value of all those engaged in secondary industry would be on the terms and conditions established by France who was determined that the British farmer, presently enjoying real prosperity under a system of subsidies totalling in the neighborhood of a billion dollars, would have to forego subsidies as the price of Britain's admission to the select circle. "This," said Dr. Walsh, "coming from a nation exporting about a billion dollars or more in subsidies to French agriculture, is difficult to digest but it is "Uncle Charlie" who decries and "Uncle Charlie" doesn't intend to be "Uncle" to the British."

Dr. Walsh reviewed agriculture as he found it in Britain, France, West Germany, Belgium, Norway, Sweden, Denmark and Italy. "These countries," he said, "are on the march agriculturally. They are working to plan with justly West Germany lagging behind the others in the plan mainly because when the old Germany was divided the part to the West of the Iron Curtain was the Germany of steel, iron and secondary industry and the part to the East of the Curtain the real agricultural area."

In almost every case, the se critics have no knowledge of the content of the curriculum or of its one great aim of communicating the Gospel of Jesus Christ to this generation. Typical of the attacks on the New Curriculum was the sermon by the Rev. John Koulouras, a priest of the Greek Orthodox Church, in an interview in the Toronto Evening Telegram declared that the Bible, that the United Church and that we are teaching that Christ was a fraud. Yet in conversation with him personally, Mr. Koulouras admitted that he had not seen the New Curriculum nor read one word of the books thus far published. He said he had read one Statement of Faith or the Catechism. His interview was based on comments by people who themselves had no knowledge of the curriculum. Nothing was said about the propriety or ethics of giving such an ultra-fundamentalist persuasion that are struggling for existence their own position by attacking ours.
