> You save tires with a Visualiner check-op! You're working expensive rubber in every mile you drive with wheels that are out of alignment. Our Visualiner, because it magnifies alignment faults 8 or more times, permits us to moke corrections that are occurate to a heir's breadth. Best of all, you can see a grophic picture of your alignment condition before, during and ofter correction... you KNOW that it's right. Some rabber and add to your safety and comfort by spending a few minutes in our shop for a Visualiner check.

When your sows talk,

because they'll tell you the best way to get bigger, strong litters

Well conditioned sows give you more live, healthy pigs at farrowing time. In tests at Purina Research Farm, we found that an extra 25 lbs. of dry sow condition meant 1 extra pig per litter.

Purina Sow Chow mixed with your own grain, helps build body condition in sows and gilts so you get those extra profit-making pigs. For those important few days at farrowing time, feed Purina D & F Chow. a cooling laxative ration designed to help keep your sows healthy PURINA

and on feed, while the pigs get off to a good start. Try feeding your sows on the Purina Program. Let the results show you how it pays off in strong healthy litters.
