
The report on ticket sales at the regular meeting of the Jarvis Lions Club, on Monday night, indicates that the Community Hall will be filled again for three nights as the Lions Club present their annual Minstrel Show. The Minstrel Show must be accepted as having played a significant role in the life of this community. For the past twelve years approximately twelve hundred people each year have patronized the production and we suspect that in the years ahead we, as well as many other grandparents, will be relating to our grandchildren the merits of this home town production.

In this age, when a growing number of people are content to be entertained by the mass media of TV, radio theatre, professional sports, cocktail lounges, beer emporiums and such like, it is refreshing to see individuals lend themselves to participation in a production such as The Minstrel Show. It occurs to us that many people go through life without ever exhibiting themselves and their possible, latent talents to their fellow men. The result is a suppression of personality development which could mean much to mankind in general.

We spent a few hours in the great metropolis of Toronto last week end and again witnessed the peculiarities of the cavedwellers. We ruralites can only view with compassion the narrow limits of their interests. Almost anyone of them, if they ever became involved in a Minstrel Show—such as the Jarvis Lions Club Minstrel Show—would find the world an entirely new place to live in. They would find a warmth in human relationships that they now appear to be entirely devoid of.

IN THE ORBIT OF OUR EYE !

By C. D. CLARKE

A SENSE OF URGENCY !

Prime Minister Pearson's Viet Nam proposal is good! It is timely. It should receive immediate attention and, we hope, action.

Those of us who lived through the period before the last war know too well the price of inaction. Coming events do indeed cast their shadows before and if we desire to solicit comparisons we can recall that Machiavelli, comparing the ills of affairs of state to those of the human body, noted that when a developing disease is in a curable stage its symptoms are readily discernable only to those skilled in diagnosis. But when those symptoms have developed to the point where any one can see and recognize them, there is no longer need for treatment—it's too late.

It does seem unfair to us that the United States—similar to the position of Great Britain against Germany in the last war—should be facing the disease of Communism and fighting alone in this case. When are we going to wake up to the fact that it's our fight too?

Here to-day we have a concrete proposition from Mr. Pearson, not to spread the war but to confine it. There are many who may claim this is too little and too late and, conversely, many who will claim we should stay out of it, but the writer feels that we should explore Mr. Pearson's plan and, if it is not acceptable, then deal Morris came out of his shell and explained to us, not only about the poverty of Norfolkites, but just exactly what that Government he crows so much about in Ottawa is really doing. Now that he has his new flag we would think he would be proud to wave it in the breeze

If we survive the Minist Show we'll see you next week

void of.

On the other hand the involvements of rural living can, at times, become a bit of too much. This week, for example, we find ourself not only involved in an amateur entertainment production but in such other things as Butter, Milk Powder, Hospitals, Politics, Reporting and even this column which has a regularity similar to that of milking cows. Notwithstanding the frustrations arising from time limitations we wouldn't trade it for the Bank of Commerce Building or any of the other high rise establishments in the metropolitan areas.

Sitting before us right now is a beautiful Chrysanthemum plant grown by Ken Painter of Port Dover. The plant has twenty blooms growing from a single stem. This beautiful plant is the result of experimentation by a local gardener. We can't imagine that Toronto ite we sat beside in a cocktail bar the other night ever interesting himself in the beautiful things of nature such as are exemplified by the Plant we are talking about.

directly with our enemy—as the United States is doing—for, and make no mistake about it, they are our enemy.

To-day the symptoms are there to be seen by all of us who experienced them during the days before the last war. To have our affairs reach such a pass as cited by Machiavelli is but to lower the curtain on our own civilization.

There is no problem of politics here. These are symptoms of danger, of destruction, a threat to life itself!

Mr. Pearson, we are behind you. If your plan is not accepted, then let us align Canada alongside the United States and commence to meet this disease head-on with surgery!

The time for planning and action is now! Tomorrow the patient may be beyond help and we too, down with the disease.

RECIPE OF THE MONTH

By the Ontario Tender Fruit Institute "Buy Canada Choice Canned Fruit"

MARDI GRAS FRUIT PIE

1 ready baked 9" pie shell (use pie crust mix)
1 tin Canada Choice canned peaches
1 tin Canada Choice canned fruit cocktail
1 tin Canada Choice canned cherries
1 tin Canada Choice canned pears
1 pkg. instant vanilla pudding
Whipped cream from aerosol can

Make pie shell and cool. Make instant vanilla pudding. Cool slightly and pour enough to cover bottom of pie shell. Cool in refrigerator but do not chill. Lay four strips of string across top of pie to divide pie into equal sections. Arrange drained fruit in sections, carefully place cherries in halves (hollow down) over the one wedge. Using spoon fruit cocktail and pears — in the other two wedges. Remove string and pour the other half of pudding over fruit, up to strings. Chill in refrigerator. Cut pie in wedges. Serve with a different fruit in each section. Just before serving garnish each serving with whipped cream.

THE JARVIS RECORD

Economy was never this luxurious or luxury so economical

Chevrolet interiors invite you to discover just how luxurious a car can be. Chevrolet has what it takes to make you comfortable... loads of footroom, hip-room, shoulder and headroom. There's deep-twist carpeting, foam-cushioned seats finished with pattern cloth or long-wearing vinyl. And more ... crank-operated ventipanes, cigarette lighter, rear armrests with ashtrays. Check luxury — first item in the Chevrolet list of plus values!

Chevrolet's famous Turbo-Thrift Six warms up quickly. Puts 140 horsepower at your toe to give you spunk and savings. A full complement of maintenance savers, too. Chevrolet power—with V8's up to 400 hp — plus value!

Frameless curved side glass and curved side pillars add to shoulder room, give a lithe, light look. And the new bonded-in windshield and rear window give more positive sealing, a smoother overall appearance.

Chevrolet's built-in "extras" give you lower maintenance costs, a higher price at trade-in. Like the rust protection from Chevrolet's flush-and-dry rocker panels: water entering the cowl inlet ventilation system, flushes out dirt and dust. Incoming air follows, dries the panel interiors. Like the inner front and rear fenders which do a great job of protecting outer panels. Add up all the pluses and you'll discover why Chevrolet is the most economically luxurious buy you can make.

NEWS FROM THE BELL TELEPHONE COMPANY

During 1964, The Bell Telephone Company of Canada added 292,475 telephones to those in service, a total exceeded only in two other years (1955-56) of its history, according to the company's annual report issued this week.

This expansion was reflected in Jarvis, where 7 telephones were added. D. A. McArthur, Bell manager for the district, revealed that 714 telephones were in service here as of December 31.

Net income of Bell for the year ended December 31, 1964 was $77.7 million, equivalent to a return of 6.3 per cent on total capital, or $2.72 per share. This compares with a rate of return of 6.1 per cent and earnings per share of $2.58 in 1963.

After payment of $2.20 per share in dividends to the company's 207,000 shareholders, the balance of 51 cents per share was added to earnings retained and invested in the business, according to the report. Of Bell's shareholders, 97.4 per cent live in Canada and own 93.6 per cent of the stock.

Contracts negotiated late in 1963 with three unions representing 28,700 employees increased payroll expense by about three per cent on an annual basis As of December 31, Bell employed 35,890 men and women. The company's payroll in 1964 totalled $187,061,096.

Construction of facilities to extend and improve services amounted to $253.5 million in 1964 Altogether, 52 new buildings were completed during the year, and extensions built on 23 others. Thirty-one new exchanges were put into service, many of them in remote, northern communities which had been without telephone service. Thirty-nine other exchanges were converted from manual to dial operation. At year end, 99.1 per cent of the telephones served by Bell in Ontario, Quebec, Labrador and the Northwest Territories were dial operated.

With regard to the announcement by the Board of Transport Commissioners for Canada on September 22, 1964, that it would hold public hearings in 1965 to review the permissive level of earnings of Bell, and the basis on which such level of earnings should be established, the report says: "The Board stated that in these hearings it does not intend to inquire into existing rates. As indicated in our submission to the Board we committed to continue to improve earnings through prudent management and efficient operation under the present rate structure."

NEWS OF THE COUNTRYSIDE

★ From the Record's Correspondents ★

SANDUSK

Mrs. Craig Werner, Mrs. Wm. Gray and Mrs. Wm Nicol attended the dessert course at the home of Mrs Bruce Riley last week.

Miss Mabel Heaslip and Miss Margaret Reid of Hamilton Teachers College were student teachers at Sandusk School last week.

Mrs. Lillie Lofthouse, who has been ill is recuperating at the home of Mr and M rs. Ivan Lofthouse at Hagersville.

Mr. and Mrs. Bert Ionson attended the wedding of their friend and daughter, Miss Laurie Sidlow on Friday evening.

Mr. and Mrs. Craig Werner and family spent Saturday in Toronto.

Mr. and Mrs. Wm. Bray were supper guests on Sunday evening of Mr. and Mrs. Dennis Barnaide, Hamilton.

The Sandusk W. I. met at the home of Mrs. Geo. Marshall on Wednesday afternoon.

ERIE

Mr. and Mrs. Jack Biggar spent Sunday afternoon with Mr. and Mrs. Blake Moorsch-adle.

Mrs Mary Jepson accompanied Mrs. Robert Jepson of the Mountain Pleasant on Sunday afternoon when they visited with Mr. and Mrs. James Jepson.

Mr. and Mrs. Ivan Bretzler, Hamilton spent Tuesday with Mr. and Mrs. Walter Willis and family.

Mrs. Wesley Carpenter is one from West Haldimand Hospital, Hagersville where she received treatment on a dislocated shoulder due from a fall.

Mrs. William Laidlaw spent Monday with her sister Mrs. Clifford Schweyer, Cheapside.

Mrs. Betty Ann Wren of Sronda Rutherford were among the number of High School students who went to Toronto on Friday evening to see a play, The H.M.S. Pinafore.

Mr. and Mrs. Harvey Fehrman spent Sunday at the home of Mr. and Mrs. Wm. Fehrman.

A shower for Mr. and Mrs. Gary Wardell was held in the Hall on Saturday evening.

Mr. Gordon Bartlett is a patient in the West Haldimand General Hospital.

Mr. and Mrs. Kenneth Wing visited on Sunday with Mr. and Mrs. Edgar Wilson in Fresh-ton.

Mrs. Doris Parsons spent Sunday and Monday at home here.

Mrs. Raymond McKenzie, Cindy and Lesa, spent Thursday with Mrs. Maude Stewart, on her birthday.

Mr. and Mrs. Norman Stever had dinner on Sunday with Mrs. Stewart.

The World Day of Prayer was observed on Friday, this year held in St. John's Anglican Church.

CHEAPSIDE

Mr. and Mrs. Maurice Sherk called on Mr. and Mrs. Arthur Marshall on Tuesday evening.

Mr and Mrs. Vernice Bartlett were the Friday evening visitors of Mr. and Mrs. Roy McKeen.

Mr. and Mrs. Grant Comfort visited on Saturday evening with Mr. and Mrs. Melvin Bartlett.

Congratulations to Mr. and Mrs. Stan Shepperd on the birth of a baby daughter on Sunday.

Mr. and Mrs. Morris Hoover and Dale had Sunday supper with Mr and Mrs. George Fehrman.

4-H NOTES

LAMB'S CORNERS 4-H CLUB

The first meeting of the Lamb's Corners 4-H Homemaking Club was held on Saturday morning, March 6 at the home of Mrs. A. Shepherd with 10 members present.

The leaders, Mrs. Albert Shepherd and Mrs. Russell Here briefly outlined the course "Club Girl Entertains" to the members. Thefollowing officers were elected: President—Wendy Cox; Vice President—Betty Bastindale; Secretary—Patricia Schweyer; Assist Secretary—Darlene Marshall; Press Reporters—Kathryn Field and Darlene Marshall; Secret Service Agents—Mary Ann Wight, Kathryn Field.

The discussion topics were: "Hospitality in the Home" and "Flower Arrangements".

On the Farm Front

It is only March, but many of our farm people are purchasing fertilizer.

And rightly so. This is one sure way of knowing that the fertilizer will be on hand, the day you need it.

The bulk of purchased fertilizer is placed on the highest revenue crops, such as wheat, corn for cereals and pasture. All of these crops respond to fertilizer treatment. With many of our dairymen now seeding down growing another field or two of corn, it is common to see corn growing on land that has not had an application of manure for several years. Such being the case, one big increase in commercial fertilizer purchases has been for the corn crop in Haldimand County.

Prof. Tom Lane of the Soils Department at the O.A.C. has some useful hints to corn growers who are purchasing fertilizer, and we are listing some of them below.

1. The fertilizer required for corn depends to some extent on the plant population and the normal yield levels on your farm. The optimum plant population varies with variety and locality. The general recommendation is 16,000 - 18,000 plants per acre.

2. The fertilizer requirement is indicated on soil test reports for a yield level of 100 - 125 bu. per acre. If you are in the yield range of 150 bu. per acre one should **use 50 per cent more fertilizer than that indicated in your soil test form.**

3. Apply at least 10 lb. but not over 50 lb. of nitrogen per acre with the planter. The remainder of the nitrogen required may be applied as a side-dressing, spring plowdown, fall plowdown or preplant application. If side-dressing apply before the corn is 12 inches high.

4. Most or all of the potash should be plowed down or applied with the planter.

5. Most of the phosphate should be applied with the planter, or plowed down.

6. A planter with a separate shoes for fertilizer placement whereby the fertilizer is placed 2 inches to the side and 2 inches below the level of the seed is the best equipment for fertilizing corn at planting time. Up to 600 lbs. of mixed fertilizer can be applied safely with this type of planter. DO NOT USE UREA as the nitrogen source if fertilizer is to be applied in this way.

7. A split-boot planter that places the fertilizer in two bands close to the seed may be used but do not apply more than 200 lbs. of mixed fertilizer per acre with this equipment. If more fertilizer is required it may be plowed down before planting or drilled in deeply with a grain drill before planting. If a grain drill is used to plant corn, all of the fertilizer should be plowed down or drilled in deeply with a grain drill before planting.

8. Manure and legumes are valuable sources of nitrogen for corn.

Fertilizer needs of the corn crop should be determined from a soil test. The following general fertilizer recommendations should be followed only when a soil test report is not available.

Where corn does not follow a well-manured sod or a legume sod the addition of large amounts of nitrogen will give a marked increase in yield. Apply 200 to 300 pounds of ammonium nitrate or its equivalent either as a spring plowdown or as a spring pre-planting application or as a side-dressing before the corn is 12 inches high.

Where corn follows a well-manured sod or a legume sod, additional nitrogen, as a plowdown or as a pre-planting application or as a side-dressing may not be required.

At planting time, 5-20-10 on clay soils at 300 pounds per acre could be used. This rate of fertilizer applied at planting must not be placed in contact with the seed.

BLOOD DONORS RECEIVE CERTIFICATES

—Dunnville Chronicle Photo

18 Dunnville people were presented with blood donor certificates at the annual meeting of the Dunnville Branch of the Canadian Red Cross Society, held in the cafeteria of the Dunnville and District High School recently. The above people have given at least 20 pints of blood to the local blood donor clinics. BACK ROW, left to right, are James Cossar, Edgar Mayne, E. J. Mellyer, A. L. Thompson, Harold Fleming and Al Fessard Fleming. Lloyd Hare, Orward Jeffs, Mary Wiles. Howard Fleming, Lloyd Hare, Orter. Two other donors were presented certificates, they being Dorothy Dickhout and Clarence King, absent when the photo was taken.

Federation Facts - - -

By Allan Murray

The Poultry Industry has requested the Ontario Food Council to co-operate and provide assistance under a Plentiful Foods Programme for eggs. The Council has accepted and as a first step, a meeting was held of top-level retail officials. The situation was outlined and all agreed to co-operate.

The Ontario Egg and Fowl Producers Marketing Board will provide 131 outdoor billboards (117 lighted) in areas of Toronto (60), Ottawa (20), Hamilton (22), London (12), and Windsor (12).

The Poultry Products Institute of Canada Inc., 120 Eglinton East, Toronto, is providing point of sale material, booklets, etc.- (free upon request). Other pamphlets on Food Value are available from the Canada and Ontario Departments of Agriculture, Ottawa and Toronto. Two general slogans for the campaign are being used, namely "Add an Egg - Prices Were Never Lower" — and "Eggs Never Better Value Than Now".

Egg consumption has already increased with lower price levels. The objective should be to avoid low and high extremes. It may take 4 to 8 months to make an adjustment. A further 5 per cent increase in demand would put more stability into the business.

"In undertaking to promote an increase in the use of eggs, under the "Plentiful Foods Programme", the Ontario Food Council is fulfilling another responsibility of its original objective, this time by co-operating in a promotional campaign to market eggs now in plentiful supply", Hon. W. A. Stewart Minister of Agriculture for Ontario said recently.

Everyone has a stake in the basic industry of agriculture according to Mr. Stewart and producers and consumers alike, must recognize that any recession, even of temporary nature in any phase of the agricultural economy, cannot help but be reflected adversely in every phase of the Provincial economy.

"While it may be true that present egg prices do not provide egg producers with any margin of profit, they do enable consumers to take full advantage of very attractive prices", said the Minister. "Eggs are acknowledged as being an almost perfect food - a food high in protein and a food which should constitute a very import ant part of our daily diet. Consumers now have a splendid opportunity to make the housekeeping dollar go further through this very attractive opportunity to purchase eggs at present prices. Eggs will never be better value and can be used in a wide variety of ways".

The women of the Federation are planning their highlight of the year, the Daffodil Luncheon to be held on Friday, April 2. Speaker this year will be the Hon. Ellen Fairclough.
