

We feel inclined to report that, over the week end, we enjoyed our semi-annual tour to Lake Ontario...

speed and comfort. The trees have just nicely started to turn colour but some of the varieties are already beautiful beyond description...

LETTER TO THE EDITOR

The Canada Pension Plan and its benefits

Here is what the Canada Pension Plan will do for people like Robert Martin, a 55-year-old skilled tradesman who earns \$100 a week (\$5,200 a year).

If Robert works full time until age 65 he can look forward to a monthly retirement income of \$104.17 from the Canada Pension Plan and \$75 from Old Age Security - a total of \$179.17 a month.

If Robert becomes disabled at age 60, having contributed for five years, he will get a disability pension of \$103.13 a month until he reaches 65 when his retirement and Old Age Security pensions begin.

All benefits under the Plan will maintain their value. The actual benefits payable will probably be higher than those given here since benefits will be adjusted to meet changes in living costs and in wage levels before they are paid and changes in living costs after they become payable.

This advertisement is one of a series which relates some of the important benefits of the Canada Pension Plan to individual circumstances.
