We see by last week's issue of the Port Dover Maple Leaf that Jack Roxburgh, M. P. called on the editor a few days ago, poured on his natural charm, and immediately put nearly a half-million back into the works for the Port Dover Harbour. Now Sam is happy again. Why shouldn't he be? He's predicting now the entire $585,000.00 project will be carried out this year (1966) — or at least started. We can hardly wait for the next clash.

- - - - - -

We've got to hand it to Jack Roxburgh not simply because he has the charm to cool off the ire of a gruff old critter like Sam Morris but for his excellent presentation on the controversial question of Capital punishment, recently before the House of Commons While there were several excellent speeches on this matter none, in our opinion, exceeded the effort of the Norfolk M.P. It wasn't something off the cuff to get space in Hansard but a well researched speech and enlightening for his constituents, both Grit and Tory.

- - - - - -

It seems amazing to us that so much space is taken up in the papers these days on the subject of sex. In view of the very frank and outspoken comments by University professors and others in high places we'd naturally suspect an effort is being made to change the Nation's attitude on this subject. The Profumo Affair in England and the Munsinger thing here in Canada only proves one thing and that is the public get terribly excited about sex and love to ponder the involvement of others — especially in high places — in all the gory details. We're happy we're not just starting to raise a family these days.

- - - - - -

Judging by reports a lot of people are pretty steamed up about the decision of the CBC to fire the co-horts of "This Hour Has Seven Days". Apparently the program will be back next fall but not with Pat Watson and Laurier LaPierre as hosts. While we liked the format of the program we didn't particularly find the presentation appealing. The attempt to satirize the subjects, it seemed to us, fell flat about half the time. Consequently we find little to get excited about.

- - - - - -

Building costs are up thirty percent from 1964 and another 10 percent increase is anticipated before the end of the year. It's too bad this situation pertains just at a time when further extensive construction undertakings are in the offing. Not much point in delaying, however, as there is not likely to be any decrease in such costs for a long, long time to come.

J. L. MacGregor - Children's Aid Society

Some years ago the New York State Yovth commission distributed among parents a "Children's Bill of Rights", in which was emphasized every child's right to affection, physical care, material and emotional security, education, religious guidance and opportunities for wholesome community life. The "Bill of Rights" was followed by a "Children's Bill of Responsibilities" containing the following precepts to each individual:

"Grow in character and ability as I grow in size.
Be honest with myself and others in what I say and do.
Learn and practise my religion.
Honor my parents, my elders and my teachers.
Strive for health in body, mind and spirit.
Respect the rights of others
Set a good example so that others may enjoy and profit by my company
Give honest effort to my work.
Regard my education as preparation for the future.
Obey our laws so that we may live more happily together.
Preserve and strengthen our (Canadian) way of life and government."

If such precepts were observed by every young person they would find in such observance the personal happiness that comes from a sense of achievement and fair play and from enrichment of life through unity with one's fellowmen.

Such precepts can be inculcated, however, only as a result of experiencing affection, physical care, material and emotional security, education, religious guidance and opportunities for wholesome community life.

Recretfully, despite our affluent Society, there are many children still denrived of these — the Children's Aid Society of the County of Haldimand is the instrument through which you can assure that every child in Haldimand receives his or her rights.

The Children's Aid Society is YOUR Society It is operated for the purposes of:

(a) investigating allegations or evidence that children may be in need of protection;

(b) protecting children where necessary;

(c) providing guidance, counselling and other services to families for protecting children or for the prevention of circumstances requiring the protection of children;

(d) providing care for children assigned to its care, etc.

Your Children's Aid Society is governed by a Board of Directors composed of four County Council representatives, and sixteen (16) other officers and members elected annually by the registered members of the Society.

Membership in the Children's Aid Society of the County of Haldimand is open to all adult residents of the county on an annual basis.

ONTARIO MEDICAL SERVICES INSURANCE PLAN

- The Plan will help pay the cost of practically all physicians' services wherever they are provided—in the doctors' office, the home or in the hospital.

- Enrolment in OMSIP is voluntary

- A standard medical insurance contract is available to residents of Ontario regardless of their age, state of health, financial means or occupation.

- Coverage will start in two stages. On April 1 and July 1.

On April 1, an estimated 300,000 Ontario residents will be entitled to full OMSIP benefits at no cost to themselves. This figure is made up of persons who are in receipt of social assistance and their dependants.

- On July 1, OMSIP coverage will be extended to all residents of Ontario who apply for enrolment in the Plan during the two-month open enrolment period ending May 1.

-Persons who paid no income tax in 1965, and others in the low-income bracket, will have their OMSIP premiums paid either wholly or in part by the Ontario Government. The number of residents, and their dependants, eligible for premium assistance is estimated at some 1,500,000

- OMSIP premiums for those not eligible for assistance will be $60 a year for a single person, $120 a year for a family of two, and $150 a year for a family of three or more.

- OMSIP is for individuals and their families only Group medical insurance will continue to be provided by private insurance carriers and physician-sponsored Plans.

- OMSIP offers a comprehensive range of medical benefits comparable to any private or public plan of this type in Canada today. The rate of fees to be paid by OMSIP has been set at 90 per cent of the Ontario Medical Association's schedule of fees. This level is the same rate paid by the doctor-sponsored plans in Ontario and in these circumstances it is accepted by the majority of doctors as full payment of the account.

- OMSIP is an additional health program and not a substitute for Ontario Hospital Insurance.

- OMSIP has the advantage of being easily adaptable to any future medical care insurance program that may be proposed on a national basis.

16,896 CRIPPLED CHILDREN IN ONTARIO

The 16,896 crippled children in the province, living on farms, in city homes, in towns or villages or in northern districts know that the 1966 Easter Seal campaign means hope and opportunity Easter Seal funds will bring to them treatment and training and the possibility of independence and relief from the physical handicaps that birth, illness or accident have left with them.

Just about a month ago everyone in Ontario received the Easter Seals, a letter inviting financial support and a pink envelope in which such a gift could be returned. Today more than 230 service clubs who conducted the campaigns in their areas are tallying up their returns and issuing receipts for all contributions that are earmarked for the $1,000,000 needed by Ontario's crippled children for their programme of care and treatment.

The Ontario Society for Crippled Children joins with the service clubs and other community groups to thank the thousands of citizens who have supported the campaign and asks that any that have not yet sent in a contribution do so as soon as possible. Many long hours of planning and development have been given voluntarily to insure that crippled children will receive their needed care and treatment, but this will only be possible if sufficient Easter Seal funds are raised.

If the returned pink envelope has been misplaced a gift addressed to Easter Seals, Jarvis Lions Club will be just as effective — and will be gratefully received

starting a 40-hour week, a larger first-stage wage increase and a shorter term contract.

Canada will try to limit the damage to the NATO alliance caused by the decision of France to withdraw from the collective defence system, External Affairs Minister Paul Martin said Saturday.

It also will seek to develop its bilateral relations with France, he said in an address to the National Newspaper Awards dinner in Toronto.

"I would hope that even if a policy of full withdrawal from military integration is pursued by the French government, means will be found to work out co-operative relationships between France and the organization in the defence field which will mitigate to some extent the effects of that withdrawal."

France has announced it will remove its troops from the NATO command and demanded that the integrated military headquarters and Canadian and United States bases be withdrawn from France by April 1, 1967.

STRIKE THREATENED

The executives of letter carriers' associations in Ontario, Quebec and British Columbia met Sunday in Preston and unanimously adopted a tough approach to wage demands, backed by threats of a strike

Charles Maguire, president of the Hamilton branch of the Federated Association of Letter Carriers (LC), said: "We are going to go on strike. If our demands are not met. This time we are not going to be the victim of uncertainty There will be no claims of inflation to stop us."
