How many Canadians have really explored the beauty of Vancouver Island and met the interesting personalities who live around the island ports and towns?

I imagine I could pick anyone at random on the main street of Toronto, Ontario and find that he had not explored Vancouver Island or the spectacular mountain country and old Loyalist communities along Lake Erie's north shore, the old German Canadian settlements in the Kitchener area and studied the Huronia museum on Georgian Bay. If I were an Albertan I would want to see those Japanese Gardens, Lethbridge's own Centennial project, and perhaps meet some of the enthusiastic Japanese Canadians who were right behind that community effort.

Lots of people in La Belle Province have neither yet roam ed the narrow streets of the old town of Quebec nor taken a motor trip through the wild country around the end of the Gaspe.

Let's make Centennial Year the time for a real Canadian holiday with a purpose — to know more about our country and our countrymen.

WATER TOWER READY TO FEED WATERWORKS SYSTEM

The 50,000 gallon Water Tower that will provide the pressure to service the Jarvis Waterworks System is filled to capacity and ready to feed the lines when they are completed.

Two Fire Hydrants, east of the tower have been tested by the firemen and were found to be functioning well. The water lines are almost completed in the south end of the Village and it is suggested the lines in the north side of No. 3 Highway can be completed in a couple of weeks.

Programming calls for a start on the re-building of No. 3 and No. 6 Highways through the Village early in September and citizens are anxious that no delay will occur to prevent this. The dust and dirt of the past several months leaves the sorry mess and until these arteries are repaved it is almost impossible for any cleaning up to be done.

The Council indicated at their meeting on Tuesday night that every pressure will be applied to have the contractor complete the work of installing the water lines at the earliest possible date in order that the road building contractors can get started.

"THE OLD OWL"

UNDERSTANDING RED CHINA

In the current issue of 'Saturday Night" magazine is an article with the above heading written by Mr. Jolan Chang. He is now a Canadian Chang, but has family connnections in China. His father was a general in Chiang Kai-Sek's Nationalist army and himself was active in that government.

One uncle was a Communist and another is an independent who leads a political party (in Red China) of industrialists and intellectuals. It is allied with the ruling Communist Party. Beside this party there are two other semi-independent parties in China. In this article he compares the popular idea with the facts regarding conditions in Red China.

He says there is no real shortage of food. The supply is not so good as in Canada, but it is better than in India or Japan. Mismovernment under war lords in the past created famines and today local famines or shortages are due to lack of communication more than anything else. That is, it is difficult to help where there is a shortage because of lack of means of transportation. Steps are being taken to remedy this. In ten years the railroad mileage has been doubled and highway mileage increased five times. The rress on why China has to buy wheat in Canada. is that the wheat growing areas are a thousand miles inland and it is easier and quicker to buy abroad for the coastal areas than to move it down from Szechuan. To control over their 750 million people. Surely a dangerous customer, and it is hoped that never come face to face except in a peaceful manner.

"Saturday Night" is a bright and readable Canadian magazine edited by Arnold Edinborough and Kildare Dobbs. It is on sale at bookstores and if you want to read exactly what was in the original article get the August issue.

O.P.P. WEEKLY REPORT

During the past week (July 24-30), the Cayuga Detachment of the Ontario Provincial Police issued 12 warnings and checked 39 vehicles during patrols of a total of 1035 miles on roads in the County of Haldimad, by our Traffic Division. In addition to this they laid 11 Highway Traffic charges and

1 impaired Driving Charge
Other Officers investigated a total of 18 motor vehicle accidents, in which 13 had property damage only, and 5 had personal injury (8 persons injured) — no fatal accidents

In Court Date—Thursday, July 28th, 1966, 18 convictions were registered for this Detachment, including two young persons from the Dunnville area who were charged with "Careless" and were each fined $75.00 costs of $14.00 and their Driver's License suspended for 6 months. Recent complaints have been received at this Office regarding drag racing on paved County Roads. In addition to this, anyone operating in the 16-25 year age group, will probably have their driver's license raised considerably or their insurance cancelled if they are convicted of an offence of a similar nature.

On July 27th, 1966, assistance was given to a cottager from Nida Beach in Rainham Twp., who was suffering from severe burns, after attempting to light a gas stove which exploded, spilling gas onto his arm. He was transported to the Hagersville Hospital for treatment and returned.

Three juvenile girls, missing in the County, were located and returned.
