

We had a sort of had weekend... First we spent considerable time Friday and Saturday trying to collect a fishing debt for John Martin from Doc Austin. It seems Doc spent the Dominion Day weekend fishing up around Weavertown with John and Bob Fitch. They, naturally, had bets on the first fish, the biggest fish, the most according to John. Doc moved out without acknowledging his betting obligations. John, therefore, sent us a complete statement of the amount due and offered as a 75% commission if we could collect. This is a pretty good commission rate so we put our heart and soul into the task of collecting. No one prolonging the story here didn't collect Doc claims that John fouled his line. Otherwise he would have had the first and certainly the biggest fish—the one that got away.

That wasn't the only association we had with Doc over the weekend. On Sunday we had to call him to attend to "man's best friend". It was due to a heart attack and our dear friend, for the past ten hours, passed away a few hours later. We called him "zipper" and for the past decade he has contributed to the satisfactions of our household. All he ever asked for was a soft place to sleep, plenty to eat and the occasional romp around the yard. We'd like to think, now that he is gone, that he reflected on his associations as a

Will the Government of Canada authorize colour television by Canadian stations before October 1st of this year? I think they will and the legal date will be the week of September 11th.

"CFTO-TV in Toronto produced a short 'live' formal opening and then four full length motion pictures with a break in the middle for the news, weather and sports 'live' in colour. The movies finished a round 8 in time for regular daytime black and white programming.

Thousands of words have been written about the now-famous "White Paper" on broadcasting. Here are some excerpts from some metropolitan editors.

In an editorial the Toronto Telegram states that the main recommendations of the Fowler Commission are to be implemented by the end of the year.

What I want to know is—in your opinion—what is the best kind of farm not to raise? I would prefer not to raise razorbacks, but if that is not a good breed to raise, I will gladly not raise any Berkshires or Durocs either.

forthcoming if government hopes would abolish the 15 per cent excise tax and the 11 per cent sales tax. These present laws force Canadians to pay 26 percent more for television sets than U.S. citizens. The 15 percent was a substitute for the former radio licence tax, which was wiped out years ago.
