

LETTER TO THE EDITOR

MEDICARE

During the course of 1966 a Medicare Insurance bill will have some significance but until we get a Turkish dictionary we will have to ponder.

It is gratifying for a grandfather to have his first two grandchildren born on March 4th because this is the birth date of Murray Laidlaw, Walpole native, now residing in Vancouver, B.C. We are, naturally, hoping that our grandchildren will grow up with the same sincere and happy personality that Murray always exemplifies in his public relationships.

The Ontario government on the other hand has indicated, through legislation, that it intends a government approved plan available to anyone wanting to pay into the plan and receive grants to offset the cost of the plan.

Some Ontario residents mistakenly believe they will no longer require Hospital Insurance coverage when they enroll in the new Ontario Medical Services Insurance Plan.

Why? Because research has shown that motorists do not drive by speedometers or signs, but by the "feel" of the street, in order for a speed limit to be observed, it must be "natural" rate of the street.

Why? Because research has shown that motorists do not drive by speedometers or signs, but by the "feel" of the street, in order for a speed limit to be observed, it must be "natural" rate of the street.

Who's on first?

Obviously, when Expo 67 opens, there'll be radio and TV, teletypewriters, picture transmission machines - and phones. And the microwave and cable equipment for almost all of them will be supplied by Bell.

Because, without communications (and that means much more than merely phones) there's practically nothing that can happen these days.

based on the premise that the long-term objectives of Medicare - the right of the citizen to care for his medical needs - is the agency of his choice, and the right of the doctor to his patient's care - is the agency of his choice.
