

LETTER TO PARENTS

(continued from page one) is a member of the Group Committee, has been doing a tremendous job on this project but he must have more help. The mothers can be put to work as active leaders or members of the Ladies' Auxiliary which also assists in fund raising.

While you are still standing there in his bedroom take another look at that little fellow and ask yourself if it isn't really worth it to keep the last star on his face when he is mastered a new knot, won't you be a game or drive six straight nails? When was the last time you saw the camp-fire light dancing in his sleepy eyes as he sang B.P. Spirit or O Canada? You can have this wonderful opportunity and the rewards are all too obvious.

LOCAL ITEMS OF INTEREST

(continued from page one) As we prepare this copy we are sitting in a Motel that charges altogether too much to keep us overnight. While they give us Broadloom from Wall to wall, single beds, Television, Radio, etc. we are finding it hard to get to sleep because of the roar of the traffic passing by on Highway 11, through the city of Port William. It's almost as bad as the noise of the heavy trucks going past our hacienda on Highway No. 3 in Jarvis.

Last Saturday we travelled North to Timmins and on Sunday spent the day at a beautiful resort on Ice Chest Lake, not far from that City. Today (Monday, Sept. 5th) we travelled to Cochrane and across No. 11 Highway through such places as Kapuskasing, Smooth Rock Falls, Hearst, Geraldton, Beardmore and Nipigon and finally arrived at Port Arthur and Port William where the lake freighters are tied up at the numerous piers taking on the west-prairie produce.

At first glance, the carving seems the more typically Canadian. But if you look a little deeper, you'll find that the phone, too, is astonishingly Canadian. It's not just that Canadians are the 'greatest' telephone users in the world. (We've had that distinction a number of years now, and we at Bell could take it as a tribute to the quality and low cost of our service.) No - the Canadianism of the phone is in the fact that over 95% of all telephone equipment is made in Canada; that Bell Canada is owned right here - over 93% of our shares are held by Canadian residents; that Northern Electric, Bell's manufacturing subsidiary, is developing new and unique instruments and services to meet specific Canadian needs. That's why our advertisements often say - built, managed and owned by Canadians.
