Twelve Duke Stree HAMILTON, Ontari

TENDERS

Advancing age must be a problem. We have the problem and old age is the only thing we can attribute it to We have read the 19 or 20 pages of the 1966 TI General Tax Guide and, while we're glad Mr. Benson (as he said) amade the calculation of income taxes simpler this year, we're convinced he must have been doing it for someone else. Certainly not for us There is a fellow in Markham who, apparently, is just as dense as we are writing to the Editor of the Globe & Mail this morning had this to say:

I do not think section 30 is any more understandable this year than it was last year. There is that same old stump bling block, when an asset is sold, the amount of the class to which the asset bounded will be reduced by the proceeds of disposal, up to the capital cost of the asset. To understand this sentence, which is a tough enough nut to crack in any circumstance, it is absond the amount of class? How can there be such a thing as an amount of a class? How can there be such a thing as an amount of a class? How can there be such a thing as an amount of a class? How can there be such a thing as an amount of a class? How can there be such a thing as an amount of a class? How can there be such a thing as an amount of a class? How can there be such a thing as an amount of a class? How can there be such a thing as an amount of a class? How can there be such a thing as an amount of a class? How can there be such a thing as an amount of a class? How can there be such a thing as an amount of a class? How can there be such a thing as an amount of a class? It was a startling departure from the notion that children are worth seeing and had opinions and ideas had a hard, he were the opinions that they were trying to say what they thought their parents and teachers wanted the progress on the West Hall read the progress on the West Hall read to the progress on the West Hall read the progress o
