THOUGHT—Men do not ordinarily reject the Bible because it contradicts itself, but because it contradicts them.

The striking International Broadcasting Centre at Expo '67 is a first in the history of international exhibitions. The Centre may be used by broadcast organizations from any of the more than 70 participating nations to prepare radio and television programs about events at Expo The building's modern TV and radio facilities already are booked for 35 per cent of the six-month run of Expo '67.
