increase in the mortgage rates have? Number one and most important is the fact that homes purchased with interest rates at this level will provide an unbearable debt for many families who are now looking for homes. The "baby boom" which preceded the Second World War has now placed many young families in the home ownership far from the average person's means. This new rate will undoubtedly attract more money to the mortgage field in the short run, however, this rate will only increase the overall money market rate as set by industry. As a net result interest rates will spiral upwards. Our question is this point is, what possible benefit in the long run will this in-

on youth problems and an-swers (?); a sing-along, Rev. Cole's third address; a commu-nion lunch, and finally the Council Meeting.
Was it fun? Was it inter-esting? Each of our five youth at all or part of the weekend remarked "We plan to go again next Thanksgiving week end if we can arrange it."
The sisters arranged to have a contest in keeping with the theme "The Queen" and then Mrs. Phillips gave a demonstration, for what we call a "Queen" contest. The meeting closed with the "Queen" and lunch was served.

The Minister of Finance, Mitchell Sharp, has decided that the 11% Sales Tax on building materials should remain because if it is removed it would mean a general in-crease in taxes. He has not gone on to explain that there is more than one alternative. The obvious second choice is reduced government spending.
Governments, in our opinion, should provide the stimulus for our economy when it is weakening and to cut back on spending when the economy is moving ahead. The Federal Government has called to cut back on its spending in this period of rising prices. Public spending has always provided sound investments in com-parison to government spending and has made countries stronger economically. The removal of the 11% Sales Tax would help our economy in

We apologize to Roy Edwards for the typographical error made in the last issue of the Record. While playing for the Buffalo Bisons of the American Hockey League last season he did not have 1899 goals scored against him but only 189. A pretty good record. We extend our apologies and our congratulations in the news that he has been traded to the Detroit Red Wings, and his many friends in the Jarvis area look forward to the day that he will be playing in the National Hockey League. Keep up the good record, Roy.

Following Saturday's banquet everyone picked their favorite of several choices—a bowling party, a theatre party (To Sir With Love) a basketball game or a Euchar party.
Sunday morning's program could be summed up in the title "Worship at the Church of our hosts".
Sunday wound up a full program with an inter-nu-meal (take your choice), English (Fish and Chips), American (Southern Fried Chicken), Chinese (Chop Suey), Italian (Pizza), McNab Church sponsored a three-hour film, MOM's "Ben Hur".
Monday for those who could stay was still the best of any kind of diet: Communication

C.O.F. PLAN BUSY YEAR

The October meeting of the C.O.F. 11727 took place at the home of Marjorie Lindsay on October 5, 1967. There were seven members present. There was a great deal of discussion about a Halloween party, at the November meeting, but it was finally decided to have a card party early in November instead of a Halloween party and meeting.
