

THE EDITOR'S COLUMN

A recent trip to the summer resort capital of Ontario, namely Port Dover, proved once again that they are receiving their fair share of the general Government of Ontario. The recently completed main street of Port Dover is the envy of all the residents of Ontario. The added width of the road, the new curbs and sidewalks and the landscaped boulevard make every member of the lakeside resort proud to be a member of that community. It will be difficult for Sam to find fault in a job well done.

Ken Painter, who operates the market garden on the west side of Port Dover on Highway 24, is once again growing some Province. Two or three cobs of his corn per meal is a true delight.

The summer holidays are rapidly drawing to a close this ending the two month school break for the children and teachers. It seems that the summer pass by more rapidly as

one becomes older. The reason may be that the weather has not been particularly pleasant this year which gives us the impression that summer has been shorter, however, is the fact that when you are a child the summer time is yours to play and to do those things which are carefree and gay. As you grow older it becomes your responsibility to work for a living and when you are working there is not that much difference between summer and winter. The 24 hours a day, seven days a week, having a two month period to do the things that you would so dearly like to do. The expression that youth is wasted on the young, a better expression might be far away hills look greener.

Sound can be important in traffic safety, says the Ontario Safety Council. Car horns and train whistles give direct warnings. Sometimes an overtaking vehicle in the "blind spot" is heard before it is seen.

Experiments are going on with "rumble strips" and "singing surfaces" on highways to prevent accidents on which tires reverberate and warn tentative drivers when they are approaching a hazardous intersection, or veering too close to the road shoulder.

It is even taken into account when landscaping the modern expressways, on which driver drowsiness, and "highway hypnosis" Ties planes, highway not only help to break the visual monotony of the journey, but vary the sound of passing vehicles to help keep drivers alert.

An unusual item in the Ontario Safety League's files is a report of a driver who was saved from drowning by a seat belt. A man who would otherwise have been knocked unconscious when his car rolled over and pitched into a lake, was able to get out of the submerged vehicle. This is hardly typical, but it does illustrate the use of the little-realized safety device which has been used by many drivers. The black, black risks the insurance companies are most concerned about are drivers who have run up four or more traffic violations in a criminal

The monthly meeting of the Community Baptist Balmora Ladies Auxiliary was held at the home of Mrs. Gerald Hoo-ver and was in the form of a family social.

Games were played for adults and children. They were greatly enjoyed.

Mrs. G. Marshall opened the latter part of the evening with all singing "Count Your Blessings" followed by prayer. She welcomed all.

Mrs. D. Stuart led in some verses, followed by prayer. Mrs. and Mrs. W. Irwin sang "My Sam and I".

Mrs. W. Nauman read Zach. 4:10-12, also Psalm 16.

Mrs. D. Stuart and Mrs. A. Lee led in prayer.

Mrs. E. Lamber of Detroit had charge of the devotions. It was an informal talk regarding family life.

She mentioned that God had given her three children to love. In the time of her youth she should spend in teaching them Bible verses, poems and Biblical stories.

Overseas thank you letters were received from David Bartley, Bill Hoskin and Gur Bartley.
