THE EDITOR'S COLUMN

A couple of weeks ago we made some comment with respect to the Pierre Burton Show "Under Attack", shown weekly on the Idiot Box. We suggested naively, that the moderator was primarily seeking to incite the interrogators to a degree of superciliousness to which they were not entitled during the term of their years of learning in the establishments of instruction, paid for with some sacrifice, by the taxpayers of this Country.

- - - - -

This comment has brought a letter to The Editor Whether we agree with it or not, it is one of the satisfying returns from publishing a newspaper. This letter, which will be found in our next issue came from a student. We think it deserves careful consideration. It reflects the thinking, we believe, of the products of our present School system. We're not going to suggest this is bad or good It may, however, be a fact.

- - - - -

It is obvious, nevertheless, that the writer of the letter to the Editor is not impressed with the qualifications he brings to that office. He says "you are suffering from delusions of Grandeur and a superiority complex. Well now, these thoughts have never entered our mind. We'd hop, they are thoughts not generally considered by those with whom we have lived and worked to this point in our life. The letter further suggests we'd better climb down off our pedestal before we fall off or are pushed. Our answer to that is: if we are on a pedestal which we sincerely doubt, we await an adversary who might like to start doing some pushing. We're not afraid of the fall as our pedestal is not too high.

We would like to extend our congratulations to Edward H. Montague, a former Reeve of Walpole, on his appointmens as Manager of Grandview Lodge at Dunnville. It is a most responsible position and one that he has demonstrated he is eminently qualified to fill.

It is gratifying to know that he intends to continue to reside in this area where his talents may continue to be utilized to the benefit of this community

- - - - -

We're not sure what is going on in the optioned land department of Walpole Township. We're only sure that all of the optioned land was not taken up at the end of March The options, in some instances at least, have been renewed. What that means is anyone's guess.

ONTARIO HOSPITAL SERVICES COMMISSION

NEW HOSPITAL INSURANCE PREMIUMS

HOSPITALS AND HOSPITAL SERVICES ARE BETTER THAN EVER, BUT THEIR COSTS ARE RISING STEADILY...AND SO ARE OURS.

BETTER CARE—BETTER PROTECTION

Modern scientific hospital care is putting thousands of patients on the road to health every day. This care is the best that has ever been available—but it is becoming more and more costly to provide. Steadily rising hospital costs have, for many years, affected all hospitals across Canada and in other countries. Nevertheless, the quality of hospital care cannot be sacrificed—facilities and service must constantly attain increasingly higher standards. In 1959, however, Ontario Hospital Insurance *ended* the worry of hospital expense for patients who need such care. Over 7 million Ontario residents, 99% of the people, have peace of mind in knowing that their hospital bills are "prepaid" through their Government-insurance plan.

WHY COSTS CONTINUE TO RISE

PRICES ARE UP
Hospitals, like everyone else, are paying more for salaries, wages and fringe benefits, and more for food, drugs, equipment, supplies and services.

SERVICE IS BETTER
Medical science now provides many new, costly types of treatment which require admission to hospital. While these procedures prolong life and improve health, they also increase the use of hospitals and require more skilled staff, more facilities, more drugs and other expensive supplies.

HOSPITALS ARE USED MORE
Greater use is also being made of hospitals because there is no longer a financial barrier to necessary care, more hospital beds are available and there are increasing numbers of elderly citizens, many of whom require prolonged treatment in hospital. In 1947, Ontario had only 17,473 active treatment, chronic and convalescent hospital beds; in 1958 there were 31,000. Today there are over 46,800 such beds available to insured persons. More beds mean more *patients*, more *cost*.

PAY ENVELOPES TAKE MOST
About 75¢ out of every $1.00 in insured hospital services represents salaries, wages and fringe benefits for hospital employees. Hospital staffs now enjoy employment conditions which are comparable in rates and hours of work and fringe benefits to other similar occupations in the community. This means that hospitals, today, have *more* and *better paid* employees to provide their essential round-the-clock service for the sick and injured.

NEW PREMIUM RATES
There has been no change in Ontario Hospital Insurance premiums since 1964, and this has been made possible through increased Provincial Government contributions from general revenues to maintain the premium rates established at that time. In the years 1965, 1966, and 1967, the Provincial Government contributed $176.5 million in support of the plan, plus some $334 million for mental and tuberculosis care, and for special and capital hospital grants, to a total of $510.5 million.

The Government has now found it necessary, however, to introduce new premiums to help meet the sharp increase in the cost of the Ontario Hospital Insurance Plan. The Provincial Government will continue to contribute substantially to the cost of hospital care, and the Federal Government's contribution will also keep pace with the rising plan costs.

The new premiums effective with regular advance payments for the benefit month of July, 1968, are:

BASIC STANDARD WARD INSURANCE
Single (no eligible dependants) - - - - - - - - $ 5.50 a month
Family (one or more eligible dependants) - - - $11.00 a month

The above new rates will be payable on all regular group and pay-direct billings due in April, 1968, to cover the benefit month(s) beginning with July, 1968.

NEW BENEFITS

Consistent with its policy through the years of adding wherever possible to the benefits of Ontario Hospital Insurance, the following new benefits will be available to insured persons *on* and *after* **July 1, 1968.**

OUT-PATIENT HOSPITAL SERVICES
Coverage for hospital out-patient services prescribed by a physician when associated with necessary medical treatment—but *not* drugs taken home, or diagnostic x-ray examinations or laboratory tests which are listed as benefits of the Ontario Medical Services Insurance Plan (OMSIP). Such x-rays and laboratory tests, however, will continue to be covered under present "emergency" benefits and in follow-up treatment of fractures.
These added benefits will include the use of a substantial list of care facilities at hospitals which are necessary to modern medical care and will close the gap between present insured services and those services normally covered by OMSIP.

ESSENTIAL AMBULANCE SERVICE
Also, benefits will be provided for ambulance service which is essential for the transportation of a patient. The patient will be required to pay a small portion of the cost to the ambulance operator at the time the service is provided. Details of the benefit will be announced at a later date.

NOTE: The above summary is for your convenience only. For detailed information please refer to the Provincial and Federal acts and regulations regarding these matters, or write to the address below.

HEALTH INSURANCE REGISTRATION BOARD*

Good driving should always be non-competitive, but the Ontario Safety League recommends one ambitious-sounding practice to all drivers—"Aim high in steering!" Beginning drivers, in particular, should remember that to steer correctly you should "aim "200 feet or more ahead, at the centre of your driving lane.

EASTER SEAL CAMPAIGN HELPS DEVELOP NEW TREATMENTS

Several newly developed treatment techniques employed by The Ontario Society for Crippled Children resulted in the permanent discharge of 968 cases during the past year. And what is more encouraging their rightful place in the community among people who helped.

Today, early diagnosis of a physical condition by special travelling clinic teams can mean the difference between temporary or permanent disability. Age holds no barrier among this younger set when the fitting of more functional limbs on a baby for a first time, or the replacement on near obsolete units on a juvenile. At this point the Society's highly skilled district to mould the new being in preparation for a brighter tomorrow.

The treatment and care factors are naturally important, but equally so is the participation by countless thousands of Ontario residents who donate annually to the Easter Seal Campaign Without their help no measurement of success would be possible

Support your local Easter Seal service club in its all out drive for much needed funds by promptly returning the pink envelope with a generous gift

IN MEMORIAM

WALKER—In loving memory of a dear husband and father, John Walker, who passed away March 26th, 1965.

Always a smile, instead of a frown,
Always a hand, when one was down,
Always so thoughtful, true and kind,
What a wonderful memory he left behind.

Lovingly remembered by wife Hettie and family.

PEPPER— In loving memory of Wallace Pepper who passed away three years ago, March 31, 1965

To know I never said goodbye
Will always bring regret.
But the heart that loved you
