Theme with the roll call respon
ded to by members naming
their Mother's favourite hymn.

How come we "quiet Canadians" are the world's talking-est telephone users?

> Could be that Canadians have an eye for a bargain.

For the 14th year in succession, Canadians have led the world in telephone calls per person. Why? One reason could be this: your telephone company makes conversation inexpensive . . . and easy. In Canada, a flat residential rate covers all local calls. In most other countries, each call over a monthly maximum is charged separately. And the number of "work hours" it takes to pay for a residence telephone for one month is lower in Canada than anywhere else in the world. (In Bell Canada territory, a man employed in the manufacturing industry works an average of 2.1 "work hours" to pay for monthly telephone service as against 2.5 in the U.S.A.; 4.5 in London; 15.8 in Paris.)
