

## THE EDITOR'S COLUMN

It alarms us to see and read of students on strike. "Students Revolt", and "Students Lock Out Administration". These are captions headlining recent news events in Quebec and in Mexico. We ask ourselves why are students in revolt? Why are they attempting to take over the administration of our schools? To these questions we have no answer.

The schools that we attended were well organized and equipped with the latest teaching devices. The programs were varied to give everyone an equal opportunity and for the most part the teachers were competent and willing to impart their knowledge and their experience to the student body. On occasion we did have disagreements with a teacher's opinion but this was all part of the learning experience. The meals in the cafeteria may not have been the fare that they serve at the Royal York but they were adequate. As we look back we had very little to complain about and certainly appreciate the time that we spent in school.
