Subdivision Shelved Standstill Until '72

The Ontario Government has shelved an application by the Village of Hagersville to annex 61 acres of Oneida Township for a subdivision site.

A spokesman for the Ontario Municipal Board said the application will be deferred until the Haldimand-Norfolk study is completed in 1972 and subsequently accepted.

Six Injured In 11 Crashes

August 17-23, 1969 - officers of the Cayuga Detachment investigated a total of 11 motor vehicle accidents. Four injury accidents resulting in six persons being injured.

Officers patrolled a total of 5,175 miles during which 55 warnings and 46 charges were issued for infractions of the Highway Traffic Act. One motorist was charged with Impaired Driving and one was charged with No Insurance. In Provincial Judges Court on August 20, 1969, 15 convictions were registered for this Detachment.

General occurrences investigated were 7 thefts, 9 break and enters, 7 assaults, 10 other Criminal Code offences and 16 requests for assistance were answered. Prov. Const. P. R. WOOD is investigating the theft of an auto from Oneida Township. As a result of 3 Liquor Control Act investigations, 3 persons have been charged.

Municipal reaction is that the decision could seriously limit immediate physical expansion of each municipality in the Haldimand-Norfolk area.

Reeve Lyle Furry said he was not surprised at the denial because of a report in June made by the Ontario Water Resources Commission.

The report states the village's present sewage disposal system will accommodate only fifty more housing units, in addition to the proposed westend services and vacant lots now in the village.

The subdivision could add 1300 persons to the present population of 2222, but only about 500 in the first stage of development.

However, the sewage problems do not seem to be the only reason for turning down the annexation bid, he said.

He contended that when the Haldimand-Norfolk study was established earlier this year, Municipal Affairs Minister Darcy McKeough said he would discourage annexation bids during the study period, particularly if they were opposed by one of the municipalities involved.

Hagersville's application had the support of Oneida Township Council, Village Council, the Planning Board and Pearce Construction Ltd. of Hagersville, which owns the 61 acres located east of the Hagersville arena, he said.

The province is already holding up plans for two separate 50-acre subdivisions in Jarvis, pending results of an overall study of the area.

Reeve Furry said it appears that Hagersville's growth has now stopped, at least until new sewage treatment plans are drawn. He said there is evidently nothing they can do until the Haldimand-Norfolk study is completed in 1972.
