The Jarvis Record

Vol. 91 No. 5 Jarvis, Ontario, Thursday, February 6, 1969 10c a copy

This Main St. picture of Jarvis may become a collector's item after the predicted expansion of industry in the area. We promise to run a comparison in 10 years. (Photo by Jim Mercer)

Report Criticizes McKeough

Municipal officers of Jarvis and Walpole are waiting for a reply from Municipal Affairs Minister McKeough on criticism of his proposed regional governments.

A report was drafted and sent to the minister sharply denouncing the "whittling away of municipal government power."

The report was drafted by Walpole Clerk David Wilson after a meeting Dec. 19 attended by officials of the two municipalities.

The report asked for fast service from the community planning branch of Mr. McKeough's department for "emergency sites requiring immediate attention for new workers coming into the area."

Reeves of Walpole and Jarvis said that although they opposed regional government, they did not agree with all statements in the report.

The report makes these points:

. . . "The honorable minister W. Darcy McKeough has proceeded far beyond the mandate given by the people to this provincial assembly when elected to office."

"This whittling away of municipal government power must stop or due to overzealousness in various ministerial departments, municipalities, the people will be faced with an ever-growing number of unwanted and unmanageable dictators."

"The members have no faith in the minister's imtimation that all municipal planning areas will be reimbursed for expenses on planning undertaken by the individual municipalities. . . ."

Mr. Wilson prefaced the report as the "general opinion of the meeting."

Walpole Reeve Hugh Greenfield said the report was drafted from the minutes of the meeting. He said he did not approve of some portions and wanted to refer it to the township planning consultants but "it was more or less agreed that it would go in."

Reeve Ernest Craddock of Jarvis, said the meeting was called to discuss mutual planning problems, not regional government.

Jarvis councillors were at the meeting, he said, but some parts of the report were not mentioned at the meeting.

The report said "a number of members present at this discussion" wished to record their complete disagreement with Mr. McKeough's approach to regional government "in which you are apparently to dedicated as to force this matter through the house without referendum to municipal councils or the people."

The report mentions the United States, United Kingdom and New Zealand as countries where attempts at regional government "fail most miserably."

Municipalities given the right to govern themselves under "the parish and town officers act" of 1782 have created their own growth and should continue to do so, it says.

Funds should be made available immediately from the province to enable the area to acquire water and sewage facilities to meet projected growth because of new industrial plants, the report says.

(An Ontario Hydro generating station is now under construction on Walpole Township's Lake Erie shoreline and the Steel Company of Canada has announced plans for a steel complex and industrial park to the west of the hydro installation.)

The report said Walpole is being held up because the province is waiting for a decision from Brantford on a proposed Lake Erie pipeline to provide that city and other centres with water.

Walpole clerk Wilson said Friday there is land hunger in the township but Walpole's water comes from wells and its sewage is handled through individual septic tanks.

"You can only get so far with that," Mr. Wilson said. "We've got to get a water outlet and we've got to get a sewage outlet somewhere."

Will it be a sign of spring when the Jarvis Fire Department removes this Christmas decoration or is that the department wants to be early for the next one? (Photo by Mercer)

Sales Pickup

Many Land Deals

Jarvis - Development companies and speculators have been busy tieing up land deals from area people during the last six weeks.

A reliable source told The Record that real estate people are engaged in negotiations for some 1,000 acres from about 12 farmers south of Highway 3 to Con 6 of Walpole and from east of Highway 6 to the Nanticoke sideroad.

"Most of the deals that are pending depend on whether the development plans will fit in the planning of the Ontario Department of Municipal Affairs and the Ontario Water Resources Commission.

"The OWRC is working on a plan for a water pipe line that will go through to Brantford and will service the proposed developments in the area," the spokesman said.

The Ontario Municipal Board has refused an application by a development company backed by Jarvis Council for the annexation of part of Walpole in part of proposed development plans but officials say this is because of the Ontario government's proposal to setup regional governments, which would end the necessity of annexation.

He said: "Whole regions would be open for development under one governing body."

The spokesman said plans under the proposals call for development of residential as well as commercial and industrial areas.

Provincial Police Report

During the week of January 26-February 1, 1969, officers of Cayuga detachment investigated a total of 15 motor vehicle accidents. Of these accidents, there was an injury accident with 3 persons injured. Total accidents were an increase of four over the previous week.

General occurences investigated during the past week were 1 Break & Enter, 1 theft and officers answered 9 requests for assistance. Two cars and a pickup truck were stolen in Haldomand County during the past week. One of the cars has been recovered. In all of these cases, the owners had left the keys in the ignition.

Officers patrolled a total of 6,325 miles, issued 20 charges and 27 warnings for violations of the Highway Traffic Act. Three motorists were charged with Impaired Driving and two with Dangerous Driving. In Provincial Judge's Court on January 29, 1969, 14 convictions were registered for this detachment.

Drivers! Winter driving need not be hazardous if you always adjust to winter conditions as they occur. The most common are . . . uncertain weather, poor visibility, slippery roads and longer hours of darkness. Extra care in driving is vital during the winter months. Winterize your driving! Avoid excessive speed . .Be alert for the driver who is not alert for you . . .Keep wipers and defrosters in tip-top condition . . .And allow greater stopping distances on slippery surfaces.

On The Farm Front

"PEAS ARE PLENTIFUL", as a matter of fact they are 13.5 million pounds too plentiful. The Ontario Department of Agriculture and Food through its staff and in particular the Ontario Food Council has been asked to make Ontario people aware of the "BEST BUY" situation with this product at the present time. If every Canadian would double consumption for the next three months the surpluses would be cleared. Rural people will understand how important this is to parts of the agricultural economy.

The following jingle is offered for your consideration: –

I eat peas with my honey,
I have done it all my life,
It makes the peas taste funny,
But it keeps them on my knife.

If you have a better one we would like to hear from you.

oOo

Gordon Miller, Jarvis, was elected Chairman of the Haldimand Milk Committee by the directors following the recent Annual Meeting. Vice-Chairman is Melvin Elgersma, Cayuga, and Secretary-Treasurer – Ross Gee, Fisherville.

The five directors elected for a 3-year term are: – Arthur Bradford, William Oster, Stan Sheppard, Clarence Harvey and Victor Otterman. Robert Anderson continues with a 2-year term required to fill a vacancy. Almost 200 were in attendance for this meeting.

oOo

Extension Branch Personnel of the Niagara Region are drafting a plan for a concerted effort to enrol more herds on D. H. I. A. and on R. O. P. These programs are a must for the modern dairyman. Details of the plan will be available shortly. All who can will be asked to assist in the program. We were pleased to note that the Haldimand Milk Committee included an item of $100.00 in its 1969 budget to assist this type of program.

The Swine Conference to be held at the University of Guelph on Friday, February 7th, is a must for all hog producers. During the morning program, discussion will centre on the revised grading program and the revised R.O.P. Program for Swine. Several other panels of experts will be on hand in the afternoon for five question and answer periods. Guest speaker of the event is Dr. L. L. Christian of Iowa State University who will speak on "Trends in United States Swine Production and Possible Implications for Canada."

This sign at a first glance by the photographer was thought to be a spelling mistake but investigation revealed it is the sir name of the proprietor. (Photo by Mercer)
