

Changes in Tax Reduction System

Technical changes in week in reminders issued by Ontario's tax reduction the Department of Municipal system were emphasized this Affairs.

THE JARVIS RECORD, JARVIS, ONTARIO

The system paid more than \$120 million to homeowners and tenants last year to ease the burden of local taxes, and payments are under way for 1969.

New informational leaflets, available at Department offices and municipal offices, remind householders that the system in 1969 is much the same as last year— but with these main changes:

1. If a tenant moves out during the first eleven months of 1969, the landlord or his agent must pay him within 30 days the tax reduction to which he is entitled. The amount will be one-twelfth of

the rebate for each month of tenancy. (Except for those cases, the deadline for payment of the reduction is the same as last year— that is, December 31.)

2. A maximum of 50 per cent of municipal and school taxes may be excused through tax reduction. In other words, a cottage or other low-assessment dwelling will not have all its taxes covered; the amount of reduction shall never be more than 50 per cent of the total taxes.

The Municipal Affairs Department is again inviting anyone with questions to check with its special information group. These officers handled a heavy volume of enquiries toward the end of 1968 and in the first weeks of this year.

Most of the tenants with complaints, however, turned out to be ineligible. (Roomers, for example, are not eligible for the tax reduction.) Of the 2,200,000 households which were eligible in 1968, only a few hundred had disputes that were not readily resolved.

Under the tax reduction system, municipalities reduce the taxes payable on residential property. The amount, based on assessment and the local mill rate, is between \$30 and \$70 in most cases. For home-owners, the reductions are allowed on their tax bills; for rented units, the landlords are allowed the reduction and are required by law to pass it on to the tenants.

The Province reimburses municipalities for the total of reductions.

"Recreation Tips"

One of the traditions on Ontario waters during the summer of 1968 was the number of drownings which occurred from canoes. Most of the victims were young men in their teens who had attempted to paddle a canoe, little or no experience as paddlers; most of them were passengers unless they were wearing a lifejacket. The only good which came from such unnecessary lifejackets.

* Learn to swim. The League would like to make these safety rules clear: * Do not take other passengers unless they are expert swimmers or wearing lifejackets. * Work with an Ontario Safety League, is that experienced and competent every incident points up and canoeist before taking off on observing the time-honoured rules of safe canoeing. * Be aware of the limitations of a canoe to contend with wind, waves and fast water. * Be honest in evaluating your own ability to handle a canoe.
