Kenneth E. Best, Returning Officer

Mr. and Mrs. Newton Marshall of Guelph; Mr. and Mrs. Russell R. More of Toronto; Mrs. Robt. Bourne and daughter and Mrs. John Hodgson of Grimsby; Mr. and Mrs. James Leathong of Delhi. Mr. and Mrs. Peter Atherton of Port Dover; Messrs Malcolm and Bert Peacock of Ridgeway.

Dr. and Mrs. A.R. Colman of Grimsby were weekend guests at the home of Mrs. A.A. Miller.

Mrs. Belle Gardiner of Simcoe visited her sister Mrs. Wallace Mitchell over the weekend.

Mrs. Nellie Topp of Cayuga and Mrs. Agnes Geisel of Hamilton spent the weekend at the home of Mr.

Gas Workers

A meeting held in Chatham, Ontario, by department of labour conciliation officer H.D. Howells, failed to produce a settlement affecting 1200 employees of the Union Gas Company of Canada, and United Gas Company.

The employees are represented by the Oil, Chemical, and Atomic Workers, International Union and the International Chemical Workers Union.

The Unions are negotiating for the renewal of an agreement which expired on December 31st, 1968.

The Gas workers have virtually lost all wage gains under the former agreement to the eroding affects of inflation as well as experiencing a deterioration of their wage position relative to other workers in industry who negotiated bigger wage increases in the high inflationary years of 1966, 1967, 1968.

In addition to wages other items such as vacations, fringe benefits, premium pay and other matters remain unresolved.

Editorial Comment Deaths Unnecessary

Statistics rarely are exciting but those we received from the Canadian Red Cross Society recently make rather sad reading.

Last year, 1,186 Canadians died because of drowning accidents. This is a horrifying number when we know that many of these deaths were unnecessary — quite unnecessary — because they were caused by carelessness.

Lack of adult supervision was responsible for the death of 212 children, of which 159 were under 6 years old. Their deaths could have been avoided if someone had cared more. As you know, it takes very little time for a toddler to drown if he falls face down into a few inches of water and no one is there to pick him up.

Last year, 361 people died in boating accidents, and again, many of these deaths could have been avoided. It is the stated law for all power boats and sailboats to carry one government-approved life jacket for each passenger on board.

However, the law can't compel a person to wear the life jacket when he is in the boat. Many times it has been reported that a life might have been saved if the person involved in the boating accident had been wearing a life jacket.

June 1 to 7 is Water Safety Week. And this week, as well as year-round, the Red Cross is telling people how to enjoy safe water activities. Through a broad programme ranging from beginners' swimming courses to instructor training, the Red Cross teaches the basic rules of safe swimming, boating and skating as well as artificial respiration and simple rescue techniques for emergency situations.

What is your life worth to you — or the life of a member of your family? Only you can answer this question. All we ask is that you make sure that no one in your family becomes a drowning statistic this summer through carelessness. As the Red Cross puts it so aptly — be water wise! Think! Don't sink!

and I must take what I am given. This has always seemed tremendously wrong. Only since Farmers' Union has come to Elgin county have I finally had hope that this can be changed.

I now have a dream that can become reality in my near future when my fellow farmers see the light. Through one strong farm organization controlled only by farmers I can obtain a just price for my products. Controlling the farm industry for farmers by farmers is the only answer. Research and planning by capable hired management under direction of able elected farmer directors can result in supplying the farm produce market at a guaranteed price. This guaranteed price must be at a level to ensure farmers' cost of production plus a reasonable profit, the same as any other business.

The Farmers' Union of Ontario will soon be a part of a Canadian Farmers' Union, come GFO or high water and realization by all Canadian farmers, that a Canadian union of farmers is a must as soon as possible. The farmers in the country who are waiting now to see what will happen must soon get off the fence and take part. The fences are coming down. They can no longer be neutral. Those who are not was always sure of as I am o, I must pay what is asked

COUNTER CLOCKWISE

30 Years Ago
Mr. Johnathon Porter, one of the Village's oldest residents passed away on Saturday night in his 86th year.

The Compulsory Pasteurization of all milk sold in the Village of Jarvis will become effective according to the laws of the Province of Ontario on June 30th next. Until this year only municipalities of more than 1000 population were affected.

Rev. W. J. Holley, who for several years was the minister at Wesley United Church, Jarvis, and who last year accepted a charge in Wales, will return to this country. Rev. Mr. Holley will be the minister of the Townsend circuit.

Prime Minister Louis St. Laurent is scheduled to make a brief stop at Jarvis on Friday morning at 11.50 A.M. while enroute to Simcoe where he will address a political gathering.

Following a heavy agenda of business at the regular Lions Club meeting on Monday night the following officers were installed:
President - Geo. W. Walker;
1st Vice President - Dave Banks; 2nd Vice President - Albert Pond; 3rd Vice President - Glenn C. Reichel;
Secretary - L.G. Holmes;
Treasurer - S. J. Mitchell;
Lion Tamer - Edward Stire;
Tail Twister - William Addison; Directors - (2 Year) Wray Hagerman and Robert Frith.

Charlie Bier Jr. had a dip in the waters of Black Creek on Friday Afternoon much against his will and under slightly different circumstances the accident might easily have ended in tragedy. Along with other members of the Department of Highway maintenance crew he was on a floating platform under the Lift Bridge at Port-Dover, painting the structure. The float capsized throwing him into the water which was 14 ft. deep at that point. Unable to swim, it was only by a stroke of fortune that he was able to catch hold of the capsized float when he came up the second time.

"OUR BUSY BARBRA"

How to keep the traffic moving when rush hour hits the hot water.

Rush hour. Every family has one. When there are dishes to be washed, kids to be tubbed, Dad scrubbing up. Then Sis decides she has to have a shower. It takes a lot of hot water to keep the traffic moving.

That's why you need the Cascade electric water heater—the big producer. It's got the capacity a busy family needs, and it's economical, too. Cascade keeps you in hot water for only pennies a day. Ask your Hydro about the quiet, clean, electric Cascade water heater.

Quality Ornamental Iron Railing

For added Beauty and Safety

Beautify your home with ornamental iron railing in the design of your choice. Prevent broken legs and other injuries to your family with safe, sturdy, iron railings. Available to fit Unit Steps and any wooden or concrete porch step.

BEAUTY, SAFETY

ECONOMY, STRENGTH AND ADAPTABILITY

Be modern, enhance the beauty of your home with safe, handsome Unit Steps.

Installation is quick and simple. Railings in a variety of designs are optional. Unit Steps add many times their cost to the actual value of your home.

The marble-like finish on the steps and the clean cut design enhance the beauty of any home. The safety of you and your family is insured by the permanent sharp treads and uniformly sized risers. Quick installation without damage to lawn and shrubbery from piles of sand, cement and gravel add up to economy-plus for the home-owner. High grade materials, steel reinforcing and skilled workmanship make a rugged, durable one piece unit with no sections to be forced apart by frost or settling.

Steps are available in 102 different sizes — unlimited variations to suit every need.
