## Haldimand Scores Provincial Attitude

On Monday the \$225,000 Oshweken Water Works Plant was officially opened. Taking part in the ceremony was Liberal M.P. James Brown of Brantford. (Photo by Jim Mercer).

Very few of the members concerned with Haldimand at Council meeting in Cayuga County. He said his major concern was Mr. McKeough's second bid by Jarvis to allow provincial attitude toward the present planning committees they the Ontario government committee. This was thrown right out the window," he said.

Twenty-two councillors Council was criticized for Craddock criticize the provincial attitude toward the status of Seneca, Oneida and Caledonia in regard to the Hamilton, Wentworth, Municipal Affairs Minister Burlington area.

The 32 member study committee proposed by Darcy McKeough on May 7 was said to give tremendous voice to the future form of regional government of the area to the residents of Haldimand and Norfolk. The meeting was called for the purpose of determining might be a contradiction in Mr. McKeough's attitude as to the feasibility of a joint planning board. Warden Craddock said Haldimand setting up the Haldimand-Norfolk study when the "Haldimand representatives in favor of Norfolk's Minister said the province went in to the time we went out," he said. "All I could gather was that they were not."

## Teen Center Hurt By Booze Rumours

The Victoria Day Weekend weekend. Last year they were brought many unpleasant run out of town when they happened to the Jarvis area blocked the main street of this year, namely hundreds of Jarvis to run their own races motorcyclists from several along the business section of different clubs throughout town.

At times over the weekend started again and for an hour it seemed like there was a about twenty members of the black leather jacket for every Queensmen blocked the rain drop that fell in the business section. During this steady downpour.

Every year these gangs demonstration of "Wheels" congregate around Jarvis for and "drag race" between the championship races that stop lights and 'eel Street. are held at Harewood all Later that night about

forty-five members of the "Lobos" and "Devil's Disciples" Clubs invaded the Jarvis Hotel and after several out what kind of people spread false rumors that will be injurious to others. Or why they would do it!

The latest topic on the tongues of the town gossipers is the Teens Drop-In Centre held in the C. E. Wing of Wesley United Church.

The purpose of the centre was to provide the young people of the area with the recreational facilities that are so severely lacking in this village.

What derogatory rumors could come out of a church hall where young people get together to play ping pong, darts, cards, and shuffle board? What kind of derogatory rumors could come out of a church hall where a Young Peoples Group supplies music for singing and dancing as well as all kinds of refreshments?

The worst possible rumor from the standpoint of the young people, the minister and the chaperones present, is that there is a problem with alcohol at the Drop-In!

Why would people start such a rumor when it was completely unfounded? Are these disappointed because alcohol is strictly forbidden on the premises or are they kids either too young or too old to be admitted? Do they have a grudge against the operation or are they sadists and pessimists by nature?

We will probably never know what kind of person started these disparaging rumors. We only hope they will discontinue the malicious practice so that the young people may attend the Drop-In without their parents being concerned about their conduct.

These young people are at an amazing 90% of occupancy. Warden Craddock cut the ribbon on each door of the \$20,000 ambulance station and said, "God luck, and may God be with the ambulance crew, and all who be rather dubious about permitting their teen-agers to attend. There is no way this and printed signs pointing out should be allowed to happen. The ambulance is staffed How does one go about twenty four hours a day and stopping these rumors? seven days a week and ready Perhaps by refuting the at all times for any person spreading them or emergency. There was also perhaps by telling him the old display table with the adage "if you have nothing numerous items carried by good to say about it, don't mod. modern ambulance such as say anything at all."

The ambulance station was decorated with the red cross attend. There is no way this and printed signs pointing out should be allowed to happen. The West Haldimand General Hospital \$20,000 ambulance garage was officially opened on Saturday. Here Mr. and Mrs. Robert Lymburner, Hagersville, wait for their 14 month old daughter Donna, who's getting a ride on a stretcher converted to a wheel chair. Pushing the chair was supervisor William Addison. (Photo by Jim Mercer).
