MAYTAG PORTA-DRYER

Move where you want it—plug it in—and it's ready to dry.

Use it... store it anywhere. Plugs into any adequately wired 115 volt circuit. Half the size of a regular dryer yet has all the features. No venting or installation problems.

MAYTAG Food Waste DISPOSER

• Dependable
• Quiet
• Fast
Grind all types of food waste from the toughest bone to the stringiest fibers—all to tiny uniform size for quick and efficient draining. Positive Pressure Water Seal protects against water leakage into motor area.

Stone Church Evening Auxiliary

The Stone Church Evening Auxiliary met at the home of Mrs. Hubert Lint for the November meeting.

The president, Mrs. Lloyd Rutherford, presided and opened with a verse of scripture. Mrs. Wilfred Roth read the scripture which was read at the late John Kennedy's funeral, Nov. 25, 1963. Mrs. Lawson Campbell followed with prayer. For the program, Mrs. Rutherford read from the study "Faith and Doubt". Roll call was a thought provoking session.

Garnet U. C. W.

The November meeting of Garnet U.C.W. was held in the Sunday School room of Garnet Church on November 6.

Mrs. Walter North, President, was in the chair. She gave highlights from the Erie Presbyterial Executive meeting held in Burford. A Playlet "Three Good Women" was enacted by Mrs. Gordon Cherry, Mrs. C. Hamp and Mrs. Glen Cherry, whose conversation was both amusing and enlightening.

A report of work to be done in the month was given by Mrs. L. Bilson and Mrs. C. Hamp gave the treasurer's report on the successful bazaar.

The program was in the direction of Mr. Phibbs. A reading on work's and life of Dr. Ralph Phibbs. The study on the "Reconciliation in a broken world" concerning so-called generation gap, opened with the children "Dare to Reconcile," presented by Miss Doris Roulston.

Mrs. North closed the program with a few words thanks to all who took part and an enjoyable social followed.

What these investigators find, Jaspas says, is that a trusted employee can do more damage to his firm with a pencil than a worker can by bringing a truck to the back porch once a week. But management comes in for its own share of the blame.

He says firms should broaden their lines of communication with their staffs, and the higher levels should also provide a good example to the employees. He claims that "dishonesty is as contagious as measles, despite religion, education or financial background."

Some of the dishonest ones tend to rationalize their actions by claiming that all companies extort inflated profits from the consumer and thus are fair game. But, as Jaspas points out, if \$15 out of every \$100 spent goes to pay for someone's dishonesty, the loss is bound to be made up by the consumer eventually.

Dishonesty has existed in human life from time immemorial. Perhaps like every other unpleasant feature of the modern world it may be on the increase.

This at least raises the prospect for a new line of endeavor: Setting up a firm to keep an eye on the honesty of the employees of the private investigators.

Editorial Comment

Climate Of Dishonesty

The honesty of the general public—or, more to the point, the lack of it—is creating a climate for a new type of big business in both Canada and the United States. Consider these examples:

In a large New York department store, one of every 10 customers under secret observation stole something.

An appliance repair firm discovered that its main competitors were its own employees, who were in business for themselves stealing customers, tools and parts and falsifying inventories to hide their thefts.

These are by no means unusual or excessive examples of what is going on today in the North American business and commercial world. As a result, the business and commercial firms are seeking counter-measures.

This has led to a boom in the field of the private investigating firm. More and more are coming into the market with some of the larger ones rivaling the RCMP and the FBI in the intricacies of their operating facilities.

The head of one of these groups was in Toronto recently to address the Canadian Wholesale Drug Association. And while he admittedly had a vested interest in making his point, he aroused little surprise in his audience when he claimed that Canadians steal more than \$1,000,000 every day from their employers in both cash and merchandise.

The speaker was Norman Jaspas, who heads a firm known as Investigations, Inc., which also has a Canadian subsidiary. His companies combine detection procedures with "consulting functions"—which mean in effect that the investigators are planted into the client companies.

What these investigators find, Jaspas says, is that a trusted employee can do more damage to his firm with a pencil than a worker can by bringing a truck to the back porch once a week. But management comes in for its own share of the blame.

He says firms should broaden their lines of communication with their staffs, and the higher levels should also provide a good example to the employees. He claims that "dishonesty is as contagious as measles, despite religion, education or financial background."

Some of the dishonest ones tend to rationalize their actions by claiming that all companies extort inflated profits from the consumer and thus are fair game. But, as Jaspas points out, if \$15 out of every \$100 spent goes to pay for someone's dishonesty, the loss is bound to be made up by the consumer eventually.

Dishonesty has existed in human life from time immemorial. Perhaps like every other unpleasant feature of the modern world it may be on the increase.

This at least raises the prospect for a new line of endeavor: Setting up a firm to keep an eye on the honesty of the employees of the private investigators.

COUNTER CLOCKWISE

20 YEARS AGO
Mrs. Gordon North presided at the Rockford Womens Association held on November 17. An all day quilting session and a Pot Luck lunch were enjoyed by all present.

During the past couple of weeks the Rural Hydro crew from Cayuga, under the direction of Fred Matthews, have been working in Jarvis.

Mrs. Ralph Gowen opened her home to the Fireside Club of Wesley United Church on Thursday evening for the November meeting. Mrs. George Walker occupied the President's Chair and Mrs. Leonard Church, secretary.

Mrs. Glenn Reichald conducted the worship service assisted by Mrs. Kenneth Fess and Mrs. Bryce Linklater.

30 YEARS AGO
A good crowd was present at the Merchant's Euchre and Dance last Friday night. The Euchre prizes went to Mrs. Richard Shaver, Mr. Chris Montigue, Mrs. Margaret Powell, and Robert Phillips.

The average minimum price of tobacco was set at Simcoe yesterday at 19 1/2 cents after nearly two days of negotiation.

"The ability to play is necessary for a democratic form of society" was a theory advanced by Marguerite Kehr, dean of women at State Teacher's College, Bloomsburg, Pa. She said, "There is not much real recreation in the totalitarian countries. Recreation in our country is a means of self-expression which is free, not regimented. We believe in dog catchers who, at the present time, are selling animals to laboratories for personal profit."

Dr. Sinclair does himself well attended. Several Lions were at Langton for the Zone Rally.

The Catholic Ladies started their Catering period, and the meal provided was excellent.

Due to Nominations in the Village The Speaker was introduced right after dinner. Lion Bud Elliott, will resent the implication introduced Mr. Jacob and as a result, reject Dr. Fransen, Director of Education for Haldimand County. His Topic was Read Bill 194, copies of this Education as it affects our children. He told us of the Society. Our address is 696 various Programs available, so Yonge Street, Toronto.

Lion Art Blight thanked Mr. Fransen and presented him with a gift on behalf of the Club.

Lions and friends are reminded of the Dance this Sat. Nov. 29th and Turkey Raffle Dec. 13th. There are still Draw tickets available from any Lions Member.

Bill 194 in its present form does not provide a moral, equitable, workable solution to the problem of how animals are to be obtained for research, and how these animals are to be protected.

Letters To The Editor

To The Editor,
The Record,
Jarvis, Ontario

I must reply to the letter from Dr. D. G. Sinclair, D.V.M., of Queen's University, entitled "Pets protected by proposed legislation."

I regret very much indeed that Dr. Sinclair should have chosen to so mislead the general public by making statements which are completely incorrect.

Currently before the Ontario Legislature, will require all public pounds in Ontario to provide animals for uncontrolled, wide open research, over which there is no control of any kind.

Research in many peoples' minds consists of some glamorous thing, such as the cure of heart disease, cancer or the transplant of a human organ. But, of course, there is a great deal more to research than these areas of vital medical enquiry. Research can mean anything from testing cosmetics, football helmets, or even assisting drug companies to make ever increasing profits at the expense of the taxpayer.

Dr. Sinclair states that a theory dealers who buy dogs and cats for resale to laboratories would be eliminated by the Bill. This, of course, is completely untrue. A rose is a rose by whatever name it is called, and whether you call a man a dealer or a dog catcher or a pound operator, Bill 194 perpetuates rather than eliminates the numerous dog catchers who, at the present time, are selling animals to laboratories for personal profit.

Dr. Sinclair does himself well attended. Several Lions were at Langton for the Zone Rally.

The Catholic Ladies started their Catering period, and the meal provided was excellent.

Due to Nominations in the Village The Speaker was introduced right after dinner.
