

Chalmers W.M.S. Mary Edith Group Meet

On Thursday afternoon Taylor-Munro, presided and the Chalmers Women's Missionary Society met at the home of Mrs. George Swing, with 11 members and two children present. The president, Mrs. G. Roy

Jepson and Mrs. Murray Biggar, were appointed to have the slate of officers for 1970 at the November meeting, which will be at the home of Mrs. Nelson Nopper. Packed boxes of clothing were delivered to Hamilton and Evangel Hall, Toronto.

Thanks was extended to Rev. G. Taylor-Munro for delivering these boxes. A letter of thanks from Evangel Hall was read. It stated how the clothing was needed and appreciated.

It was learned old postage stamps should be handed in at the church so they can be sent away.

Treasurer's reports were given by Mrs. E. Keen and Mrs. Wm. Lint.

Roll call was answered on the theme of something we were thankful for.

For the devotional, Mrs. Roy Jepson read the scripture, Mrs. George Swing gave the prayer. Mrs. Taylor-Munro gave an interesting talk on Thanks and Thanksgiving.

New School For Jarvis?

The school on Monson Street reminds the people of Jarvis and vicinity of their Public school as well as continuation school days. The building was renovated in 1936 and became available for a larger public school population.

A few years ago a basement room was remodelled to provide Kindergarten space for the Village five-year-olds.

However, the building is old and quite costly to heat. In 1941 to 1948 he served with the Canadian Red Cross. During that time he often met Chou En-lai and Mao Tse-tung.

After leaving China, he practiced medicine in Toronto for one year, but decided to return to overseas work. So, from 1950 until 1954 he served in a Palestine hospital.

In 1954 Dr. McClure went to India to serve as Medical Superintendent at the Ratlam Mission Hospital. It is estimated that he performed more than one thousand operations annually.

Through the help of mission givings, he was able to vaccinate over two hundred thousand children while he was in Central India.

In 1968, Dr. McClure was elected the Moderator of the United Church of Canada. He became the first layman ever to hold this office in the Church.

Since becoming Moderator, he has been heard over many radio stations. He has also been seen on many T.V. networks.

Throughout his career, he has been honored many times. In 1923 he was awarded the F.R.C.S. from Edinburgh University and later his F.I.C.S.

He has also been honored twice with the degree of D.D. and once with the degree of L.L.D.

Even with his busy life as a missionary, he has been able to write two books, Tales From Free China and Tales From The Burma Road.

Along with his many talents, Dr. McClure is considered one of the wittiest and most effective speakers in Canada today.

part of the county, this could also serve Jarvis. The present Jarvis Public School could then serve Kindergarten to Grade Six for some time. Eventually an addition, doubling the present school is expected. At that time, inclusion of a library resource centre as well as a general purpose room will be considered.

The school program at present is average - equal to the other areas of the county. Since enrolment per grade are small, adequate specialties for Grades Seven and Eight are hard to provide.

As the first wave of population increase arrives in Jarvis, it might be best to remove the Grades Seven and Eight. If the old high school in Hagersville were renovated to provide a senior school home for Grades Seven and Eight of the southwestern

Dr. McClure Guest

(Continued From Page One) variety of posts until 1948 when he and his family had to flee from the Communists.

Editorial Comment Breakdown In Law And Order

The unrest of young people in Canada and throughout the world may be because of a disrespect for their fellow man and even more possibly a break down in law and order.

The 'in' thing to do seems to be to flaunt the laws of the land and to damage property of others.

This was apparent in the recent outbreak in Montreal and again in Brantford where a member of a motorcycle gang was shot to death.

The debate in the Ontario Legislature recently ranged on the concern of governments on what to do about these gangs that roam the countryside and terrorize people.

Even Jarvis had a taste of this last summer when a motorcycle gang closed off a street for a drag strip.

Legislation has been passed that is meant to protect the majority of citizens against such acts of violence. There are also safe guards in most law that guarantee the rights of an individual.

We cannot legislate young people into respecting the law and the rights of others.

It would seem to be a better way to put an end to this by educating them from infants that part of being alive and the right to have unlimited opportunities in a country such as Canada, is to learn to respect the law and the rights and property of other citizens of the country.

This should be a priority course in all schools. It could be taught from the day a child enters Grade 1.

Hunting Tips

Self-inflicted injuries are high on the list of hunting accidents in Ontario. Loading and unloading firearms, improper crossing of fences and other obstacles, and trigger catching on branches or other objects are some of the causes.

However, by far and away the chief cause is stumbling and falling while carrying a loaded weapon.

The Ontario Safety League claims there are a number of reasons for these falls which end in tragedy. High on the list is just plain carelessness; running while carrying a loaded gun and not sufficient attention to conditions underfoot.

A close second is poor physical condition. This can be the result of poor health, lack of good muscle tone, impaired ability or a hangover, or just plain fatigue. Fatigue is certainly a cause to be reckoned with as evidenced by the sharp rise in the number of accidents just before noon hour and late in the afternoon.

The Ontario Safety League reminds hunters that there is a second line of defense against these hazards, keep that safety "on" at all times until you are actually ready to pull the trigger.

Tight Money Slows Economy

Tight money policy of the federal government has certainly slowed the economy of the country but has it made any progress in ending inflation?

Prices seem to be continuing to climb despite the hard fast rules of obtaining money for capitol use. Is it worthwhile to slow the economy to a point that the jobless in Canada has risen to five percent?

Interest rates for loans are still climbing and there doesn't seem to be any stop or ceiling to them. How long can small businesses survive, which are the backbone of the country, so long as working capital is their largest expense?

It also seems pretty silly to lengthen the payment periods for housing only to find that because of the high interest rates the payments are even higher on the longer plan than they were a year ago on the shorter plan.

This newspaper would like to see a ceiling put back on the interest rate. If the only argument is that if this was done that foreign borrowers would use up our excess money than set a special rate for money borrowed to be exported.

COUNTER CLOCKWISE 20 YEARS

On Monday evening, Oct. 24th, Mr. and Mrs. Wray Craddock opened their home to their friends and neighbours for the purpose of organizing a Radio Farm Forum in this community.

Reeve George Walker announced on Monday that A. B. Blight had been appointed local chairman of the Haldimand Centennial Committee.

It is expected a public meeting will be called in the near future when chairman Blight will take steps to set up an organization to carry out plans for the success of the celebration from a local standpoint.

The Junior Choir of Knox Church will be wearing their new Choir Robes for the first time at the Anniversary Services next Sunday. The robes have been provided by the Ladies Aid and the making of them was in charge of Mrs. Cora McKenzie.

30 YEARS AGO

Starting out on their first cookie day since the Guide Movement was started here several months ago, the girls met with unexpected success on Saturday.

Orders for well over two hundred dozen were taken in Jarvis and surrounding district in a well organized drive.

The Jarvis Athletic Association reported a good crowd at their first dance in the Arena last Friday evening.

The following were the winners at the sugar draw held in the Town Hall on Saturday night: Newton Marshall, Robert D. Miller, M. F. Roberts, Leslie Mitchell, Shirley Reichel, Loren Spring.

Obviously this control of quackgrass is only recommended where corn is to be grown for two or more years. Where only one year in corn is possible, make this fall's application amino triazol (Amitrol T).

Further detail is available in the O.D.A.F. publication No. 75 - Chemical Weed Control.

A release just received advises that the Federal Feed Freight Assistance Program will be reduced effective November 1st.

The poorer Ontario grain crop this year has already increased demand for Western feed grains creating an unexpectedly heavy drain on the budget of the Canadian Livestock Feed Board.

Ontario 1968 Statistics show that of some 267,000 Haldimand acres in farm land, 149,000 produce hay, pasture and oats. Value of these crops range from \$38.00 to \$40.30 per acre.

A total of 44,700 acres produced mixed grain, barley, corn, corn silage, soybeans and wheat. These crops had farm values ranging from \$46.50 per acre up to \$83.40.

One conclusion to be drawn at first impression is that if we are to continue producing as much hay, pasture and oats, a better job must be done to be competitive.

Rain will total a quarter of an inch occurring in rain showers or snowflurries during the weekend or early next week.

On The Farm Front

Only seven percent of In 1936 an Ontario farmer produced enough food for himself and 11 other people. In 1960 it was 25 people, and in 1968, 41 people.

It's last call for control of quackgrass this year. An effective procedure involves applying 2 lbs. active atrazine per acre now, waiting for at least a week and then plowing. This would be followed with the normal application of atrazine and oil, post emergence, next spring.

Obviously this control of quackgrass is only recommended where corn is to be grown for two or more years. Where only one year in corn is possible, make this fall's application amino triazol (Amitrol T).

Further detail is available in the O.D.A.F. publication No. 75 - Chemical Weed Control.
