

Haldimand Association For Mentally Retarded

The 1970 Annual meeting of the Association was held in the Eastern Star room in Caledonia with a good attendance of members and friends.

The President, Mr. Wm. Hoskin, was in charge of the business meeting and received reports from the standing committee convenors: Mrs. Wm. Harrison, Religious Education; Mr. Lynn Brown, Recreation and the Youth Group; Mrs. Lynn Brown, the Nursery School; Mrs. Grace Baldwin, The School for the Mentally Retarded; Mrs. Jennie Deagle, Craft Instructor for the Adult Workshop; Mr. Brock Gains, Supervisor for the Adult Workshop; Mrs. Edwin Parnons, Public Relation.

Each report showed the amount of work that had been covered and the many goals that had been achieved in the field of mental retardation.

Attention was drawn to the group present that our very capable secretary for many years, Mr. John Mellish, had accepted the position of President of Region three which covers the Niagara Peninsula. This is indeed a great honour for our Association, since Haldimand is the smallest in the Region.

Election of officers for the fiscal year was conducted by Mr. Ed. Langley of Hagersville: President for 1970-71, Mr.

Wm. Hoskin; First Vice-Pres., Mr. Mervie Sweet (Mervie); Second Vice-Pres., Mrs. Grace Baldwin; Secretary, John Mellish; Treas., Mrs. Jennie Deagle.

The following delegates were appointed to attend the Seventeenth Annual Conference to be held in Hamilton from April 29 to May 2: Mrs. Victor McCall, Mr. Keith deBorde, John Mellish, and Mrs. Ed. Parsons. The theme of this year's conference is "Working Together" when the Hon. Thos. Wells, Minister of Health, will be the keynote speaker.

The programme feature of the evening was the presentation of slides by Mrs. Jennie Deagle. A running commentary told the very interesting and colourful story from "Nursery School to the Adult Workshop."

NEVER ON SUNDAYS

Calves can be fed milk replacer once - rather than twice - a day without incurring any bad side effects, says Dr. A. D. L. Gorrill, an animal nutrition expert at the Canada Agriculture Research Station at Fredericton, N. B. In England, researchers have tried skipping the Sunday feeding for calves and have found they not only gained just as much weight, but also ate less feed.

THE JARVIS RECORD, JARVIS, ONTARIO Federation News

The rollover provision of the Benson White Paper on Taxation could be an incentive to commit murder.

This was one amusing illustration as the Ontario Federation of Agriculture explained its suggested changes to the White Paper during a day-long workshop conference at Toronto.

The O.F.A. is pressing for the provision to allow an orderly transfer of the family farm between generations without waiting for the death of the parent. The White Paper stipulates waiting until after death before transferring the farm.

John Roberts, M.P., a member of the Taxation Committee, told the conference that very few farmers have written to the government to suggest changes in the White Paper proposals.

Malcolm Davidson, a member of the O.F.A. Executive, warned that farmers must abandon their role as a "silent minority" if they wish to gain any changes in the tax proposals. He stated that deliberate moves must continue to bring alternative proposals to the attention of the government.

The O.F.A. has circulated over 2,000 copies of their suggested changes to the White Paper across all of Ontario. The Federation wants all farmers to write to their M.P.'s about the White Paper.

Mr. Davidson stressed that farmers must become involved in the change of the tax system without

getting caught up in the hysteria which has gripped many segments of society concerning the taxation proposals.

He pointed out that the O.F.A. supports the objectives of the White Paper, the establishment of a new system, but disagrees with a number of proposals put forth to build the new system.

Other speakers at the meeting included Don Cox of Co-Operators' Insurance Association of Guelph and David Davis, a tax specialist from Toronto.

The Federation warns that a capital gains tax on top of estates tax, succession duties and rising inflation will make it impossible to continue the family farm.

It is stressed that farmers must make a stand concerning the White Paper to protect themselves and their industry.

MEMBER NAMED

HALIFAX (CP) - Brian Flemming, Halifax lawyer and lecturer in international institutions with Dalhousie University's faculty of law, has been appointed to the newly-formed commission for strategic and international studies. The commission is to plan a series of academic projects or programs to be carried out by members of academic communities across Canada. Flemming is the only member from the Atlantic Provinces.

OPP Report

On Wednesday, April 1, 1970, Prov. Const. Q. J. Boon investigated a car-train collision on County Road No. 31, north of Highway No. 3 which claimed the life of Lawrence Marlatt, Willowdale, Ontario. Marlatt was an employee of the Ontario Hygro.

On April 2, 1970, Prov. Const. Q. J. Boon arrested a local Jarvis youth as a result of a break, enter and theft at the Barber Shop in Jarvis.

Officers investigated a total of six motor vehicle collisions resulting in one person being fatally injured. Officers patrolled a total of 8,415 miles, issued 37 warnings and 29 charges to motorists.

On April 1, 1970 in Provincial Judges Court, Cayuga, Ontario, 15 convictions were registered.

General occurrences investigated were: three break, enter and thefts from cottages, four thefts (tools,

cottage utensils and cheque), one Liquor Control Act investigation resulting in one charge supplying minors, one assault (pistol), three reports of indiscriminate shooting resulting in minor damage.

One cottage at Featherston Point was destroyed by fire and a shed in Moulton Township also destroyed. Twenty-five requests for assistance were all received.

Prov. Const. H. J. B. Safety Officer, visited schools and presented to children, a bicycle safety program (383 children from grades one to eight).

Again this spring, a bicycle rodeo will be held in the Cayuga Detachment area schools with the top riders representing this area in the grand finals to be held in St. Catharines, Ontario.

OPEN HOUSE

HAGERSVILLE SECONDARY SCHOOL

Wednesday April 15

7.30 until 10 P.M.

Students in charge of displays, projects, demonstrations etc.

No Admission

Everyone Welcome.

Employment Standards

An information bulletin explaining the minimum requirements that an employer must provide to his employees is being distributed to 140,000 employers throughout the province.

M. E. Howard, Director of Employment Standards Branch of the Ontario Department of Labour, said the bulletin was prepared to supply information to the employers on the Employment Standards Act.

He said he hoped that it would answer many questions posed by employers and employees about the Act.

The bulletin provides general information on:

hours of work, vacation with pay, equal pay for equal work to male and female employees doing the same work, wage protection, overtime and premium rates of pay and minimum wages.

Currently, approximately 3,000 calls are received each week by the branch from employers and employees seeking this information.

The director said one of the reasons for issuing the bulletin was to acquaint employers with the requirements of the Act. He said many complaints investigated by his inspectors are caused by employers who are unaware of the regulations.

Collective Bargaining Report For Ontario

There were 17 per cent fewer strikes and lockouts in Ontario during 1969 involving a smaller number of employees than the year previous although total man-days lost increased, the Research Branch of the Ontario Department of Labour reported today.

In a report on collective bargaining in Ontario, the branch stated there were 237 strikes and lockouts involving 134,373 employees for a total of 5,838,692 man-days lost during 1969. The time lost amounted to less than one per cent of the estimated total man-days worked.

In 1968, there were 286 strikes involving 136,407 employees for a total of 2,922,000 man-days lost or about one half of one per cent of the estimated total man-days worked.

The report stated the record time loss due to strikes and lockouts arose largely from a few long ones involving very large numbers of workers in three industries - mining, primary metals and construction. These industries accounted for

more than 87 per cent of all man-days lost in the province during 1969 because of industrial conflict.

The 47 stoppages in the construction industry attributed just over one third of all time lost and nine tenths of this (1,800,000 man-days) resulted from strikes and lockouts in Cities of Toronto, Hamilton and Ottawa.

The report stated there were fewer contracts negotiated in the province's non-construction industries in 1969 than in 1968. The Department of Labour recorded 2,400 settlements in these industries compared to 2,600 in the previous year. In terms of employees affected the difference was even more marked - 265,000 compared to 358,000.

The report stated that despite restrictive fiscal and monetary policies and the record number of man-days lost due to strikes and lockouts, Ontario's gross provincial product grew in real terms by an estimated 5.3 per cent in 1969

compared to 5.2 per cent during 1968.

The high level of economic activity was sufficient to maintain generally tight labour markets as evidenced by an unemployment rate of 3.1 per cent during 1969 compared to 3.5 per cent in the preceding year.

SILVER SOUGHT

VICTORIA (CP) - Peter Thornton-Trump is going after "an El Dorado of silver" in an unusual manner. With three friends this spring, he plans to skin-dive for a missing trailload of silver ore which plunged into Kootenay Lake in southeastern British Columbia in 1921 from the CPR tracks.

RESEARCH FOR THE SEVENTIES

Research efforts will have to be intensified to reinstate agriculture to a profitable position, says Dr. J. E. Andrews, director of the Canada Agriculture Research Station at Lethbridge, Alta.

Appoint New Director

James J. Durand has been named director of Public Relations for Ontario Hydro. He succeeds James A. Blay who is retiring after 31 years' service.

Mr. Durand, who joined Ontario Hydro in 1949, has been operations engineer in Northwestern Region since 1967.

Born in Toronto, he received his early education in Windsor and graduated from the University of Toronto with a B.A.Sc. the same year he joined Hydro.

He brings a variety of management experience to the directorship. During his 21-year Hydro career Mr. Durand has worked in a number of Ontario communities, including Thunder Bay, Toronto, Hamilton and Essex.

Full-time electrical help depends on up-to-date wiring

Mom...we're home!

Exuberant...noisy...hungry...demanding...children. You'd better believe it. And be prepared.

It pays, for instance, to have the full-time help of electricity on your side. A well-stocked, frost-free refrigerator-freezer. A modern electric range with time and temper-saving self-cleaning oven. Small electrical helpers for quick mixing, beating, frying, percolating, opening of cans. And with a dishwasher, there goes another big chore.

As for the laundry...you can forget it. An automatic washer and electric clothes dryer will take loads off your hands, anytime.

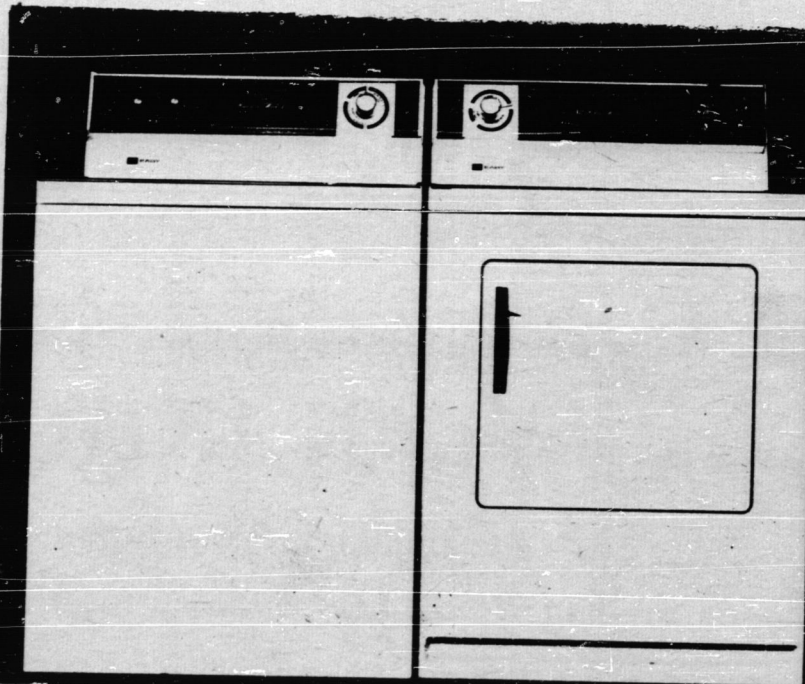

It pays, too, to have lots and lots of hot water always at the ready. (You can count on a Cascade electric water heater for that one.)

In fact, electrical help need never end - as long as your home has ample wiring, outlets and switches. If it hasn't, speak to a qualified contractor about Electrical Modernization. (And the Hydro Finance Plan.) Make it soon. You'll be so much happier when you hear that shout, "Mom...we're home!"
