

**FISH - DOUGHTY**  
Wesley United Church, Jarvis, was the setting of the recent marriage of Helen Doughty and Paul Fish. Rev. E. Ramratten and Rev. Logan officiated.

Mr. and Mrs. S. Doughty, Jarvis are the parents of the bride. The groom is the son of Mr. and Mrs. Fred Fish, 28 Alston Court, Brampton.

Given in marriage by her father the bride chose a gown of white crepe trimmed with white daisies. A pleat in the back fell into a train which was accented by a bow at the top.

White carnations and stephanotis formed the brides bouquet.

Bridal attendants were over taffeta. Wm. Porteous, Brantford was matron of honour. Mrs. Robert Fish were also bridal attendants. Flower girl was Linda Arthur, cousin of the groom.

Robert Fish, London, brother of the groom was best man. Ushers were Gregg Atkin and Jack Doughty, Allan Doughty was the ring bearer.

Mrs. Bruce Miller, was organist and Mrs. Jack Marr, soloist.

After a wedding trip to northern Ontario and Montreal, the couple will live in Jarvis.

Previous to the wedding the bride was entertained at several bridal showers.

Mrs. Wm. Henning, Toronto entertained at a luncheon followed by a cup and saucer shower. Pots and pans were presented at a shower given by Mrs. A. Lunday and Mrs. J. Stallwood.

A tupperware party was arranged by Mrs. Jack Doughty and Karen Doughty. Mrs. Wm. Porteous and Mrs. D. Pritchard, Brantford entertained at a miscellaneous shower. Mrs. H. Dennis, Naticoke hosted a family shower. Gifts were presented by Abstainer's Insurance where the groom is employed and Grandview School staff were the bride taught.

The bride's mother entertained at a tea for her daughter. The rehearsal party was held at the home of Mrs. Wm. Cooke, Simcoe.

**Sandusk News**

Mr. and Mrs. Robert Marshall returned home on Saturday evening from a weeks vacation up north.

We are happy to report Mr. George Marshall is improved in health to return to his home from Norfolk General Hospital.

Mr. Bill Werner spent the long weekend with his parents.

We are sorry to hear that Mr. Elvin Pond of Simcoe, who lived in the community for quite a number of years is a patient in Norfolk Hospital and also his brother LeRoy. We hope for a speedy recovery for both of them.

Mr. and Mrs. James Hewitt and girls visited Mr. and Mrs. Wm. Bray Sunday evening.

Mr. and Mrs. Wm. Booth attended the Golden Horse Shoe Antique Show at Caledonia Fair Grounds on Monday.

Mr. and Mrs. George Sternamen attended the Golden Horse Shoe Show on Monday afternoon.

Mr. and Mrs. Wm. Bray accompanied Mr. and Mrs. Harold Bray and Daryl to Caledonia on Monday afternoon to the Golden Horse Shoe City.

**Erie Personals**

Mrs. Clayton Fess has returned to her home after spending several weeks in the Hagersville Hospital. She is much improved in health.

Mrs. George Waterhouse, Mr. and Mrs. Michael Shaboluk and Gregory and Mr. and Mrs. Stanley Koster and family held a family gathering at the Keen home on Sunday.

Carol Ann and Linda Nagel of Fisherville are spending their vacation with the best sister's at the home of Mr. and Mrs. Lloyd Best.

Mr. and Mrs. Leonard Pridmore and Jim spent a few days last week at Owen Sound.

Mr. and Mrs. Albert Morash and Debbie of Calgary are visiting relatives in the area. Mrs. Morash is the former Adeline Swing daughter of Mrs. Kenneth Swing.

Mr. and Mrs. Harold Rayson and Mrs. Harvey Schotz were Sunday visitors at the home of Mrs. Horace Mullin.

Mr. and Mrs. Murray Laidlaw of Bramalea and Mr. and Mrs. Bernard Brunning and children of Vancouver, B.C. were weekend guests at the home of Mrs. William Laidlaw.

Mrs. Edna Rennie and Mr. Glenn Albers of Niagara Falls visited on Sunday with Mr. and Mrs. William Lint.

Mr. Tom V. Abbott of Toronto spent a few days visiting with the McBurney and Lint families. He also visited Mr. Malen Wilkins of Jarvis. About 38 years ago Tom left this community after spending several years of his young life with various families in the area. Some 21 years of his life were spent in the army.

Mr. and Mrs. Roy Jepson and Donna and Mr. and Mrs. Fred Jepson and Ruby have returned from a pleasant vacation spent in northern Ontario.

Mrs. Don Wilcox of Simcoe spent Sunday with her parents Mr. and Mrs. Charles McBurney.

**Arena Commission Is Formed**

A meeting was held in the Cayuga Council Chambers on Wednesday evening, July 22, 1970 for the purpose of forming an Arena Commission. The Commission will be responsible for the operation of the Memorial Arena in Cayuga upon completion of the artificial ice plant, which is now in the process of being constructed. It is composed of four members each from the village and the township of North Cayuga, with Oneida, Rainham and Seneca Townships each having one representative.

The following persons were elected for a one year term: Hugh Shipway, chairman; Ed. Coate, vice chairman; Mrs. Fay Moodie secretary; Don Horvath, treasurer; Peter Baird, Ross Gee, Art Gibson, Doug Kohler, Ken Martindale, William McSorley and Phil Neary are directors.

It was decided that the arena would be operated for an approximate seven-month season and that a full time manager would be appointed.

**Adoption**

BARTLETT Mr. and Mrs. George Bartlett of Beamsville are pleased to announce the final adoption of their chosen daughter Gail Susan, a sister for Bill, Tom, Andy and Lynn.

Floats and Other entries welcome to the

**Batawa Important Force In Drive For Exports**

BATAWA, Ont. - Skilled brains in this small community perched near the banks of the Trent River have made Batawa an important force in Canada's drive for exports.

This week saw the first shipment of a unique injection molding machine (registered name - SOLPAK), designed and built here. It is en route to an American manufacturing firm in Maine and it is just one of a growing series of Canadian successes in the fiercely competitive industrial machinery field.

Precision jet-aircraft components, patented production machinery and commercial hydraulic assemblies are among recent orders filled by a tightly knit group of engineers, technicians and experienced production people working for Bata Engineering, a division of Bata Industries Limited.

Even more startling to the visitor, especially one with a technical eye, is the fact that Bata Engineering probably operates more Numerical Control machinery than any other plant of a comparable size in the country.

"We can compete for contracts anywhere in the world calling for extreme accuracy", Alec Lawrence, general manager, says. "Much of the contract work stemming from the U.S. today stipulates precision to critical tolerances as close as one ten-thousandth of an inch - and I refer particularly to the aerospace and atomic energy industries."

"We are doing this kind of work regularly and, frankly, Bata Engineering is now enjoying the fruits of years of insistence on very high quality with no compromise. Our best salesmen are satisfied customers in the U.S. who tell business men about us and what we can do."

Most people automatically link the name Bata with footwear.

Bata does more than design, make and sell shoes.

Its footwear experts have created some of the truly outstanding designs in post-war shoe machinery. Naturally, a good deal of it has gone to Bata companies around the world - but an impressive number of sales has been made to other footwear manufacturers who simply couldn't find machinery elsewhere to compete with the Bata machines.

"In recent years, the majority of our shoe-production machinery has been exported", Frank Rabel, assistant general manager, says. "To be honest, Bata Engineering would not exist today were it not for export sales. There's simply isn't a big enough market in Canada."

Example: Bata's patented SIMPAK machine - a four-station, two-color, injection molding device for

"We booked better than \$500,000 for just two orders", Rabel says. "Our die-cutting machines are sold through appointed dealers right across the U.S. - several hundred thousand dollars worth a year, - and this is only a part of the story."

Lawrence points out that the Contract Division of Bata Engineering has grown apace in the last five years. A year or so ago, you might walk into his office and see several enormous aluminum-alloy castings leaning against the wall.

They were part of the undercarriage assembly for a big U.S. jet passenger aircraft and Bata Engineering got the contract because of its reputation for fine workmanship and ability to handle relatively short production runs which, normally, the major U.S. companies are reluctant to tackle.

"About 75 percent of our contract work goes to the U.S.", Lawrence says. "We have gained a great deal of expertise in hydraulic assemblies, for example, due to our American contracts and this has enabled us recently to move into commercial hydraulics for Canadian companies such as Clarke Equipment of St. Thomas, Ont. They need them for their off-road machines."

Formerly, many of the commercial hydraulic needs in this country were met by imported assemblies thus, by providing a "Made in Canada" product, Bata again helps maintain our national balance of payments.

"One example", Lawrence says, "is GM Diesel. Their hydraulics came from Britain and the U.S. Now, we are supplying them with a considerable number of commercial hydraulic assemblies for their forestry machines."

Bata Industries Limited (BIL) is the largest employer in the Quinte area of Ontario. It has a labor force of about 1,100 and is considered to be a major asset to the Town of Trenton just a few miles away.

Lee Kursewicz, Vice President of BIL, says the company has an annual payroll of about \$5,000,000 - "and most of this, I am told, is pumped into the Trenton economy. Some of it, of course, goes to Belleville and other surrounding municipalities. In sales taxes alone, we pay about \$2,000,000 into the economies of Canada in general and Ontario in particular."

"Our labor force draws on people from a radius of 20 to 25 miles around us and remember! Just 30 years ago, this town of Batawa was hills and fields and a beautiful river."

Example: Bata's patented SIMPAK machine - a four-station, two-color, injection molding device for

making a plastic, one-piece sole and heel for canvas footwear - has sold well in the U.S.
