

This concert organ is similar to one that will be constructed for the National Arts Centre in Ottawa. The organ will be a gift from the Dutch-Canadian Company who are operating Operation Thank You Canada for the liberation of Holland by Canadians 25 years ago.

Jarvis Lions Club

The regular meeting of the Jarvis Lions Club held March 23 was well attended. Lion George Walker and Lion Harold Johnson were named to represent the Club at the Community Fund meeting at Wesley United Church in April.

The Spring Rally will be in Waterford on April 7. Lion Neal Hoover named a proposed slate of Officers, Elections will be in May. It was brought to the Clubs attention that they will have to apply to the Village Council for a licence for the Victoria Day Draw.

Lion Ed Stire reported Easter Seal returns were lagging far behind the club's quota, and hoped for a good response this week. Lion Drew Williamson introduced our guest speaker, Zone Chairman Parker Loney, from Port Dover. He spoke of Men's desire to serve their Community through the Lionism, and the meaning of the Lions Crest.

He also said he will run for Deputy District Governor and asked for support. Lion Parker was thanked by Lion Jack Cooke and presented with a token gift.

The Zone Chairman met with the Executive after the meeting for a report on Club activities. The Executive discussed Ladies' Night which is the last meeting in April.

Victoria Day Celebration was also discussed. It was decided all the usual activities will take place. These are a Saturday Night Dance, Sunday Bar B Que, Monday Parade, Ball Games, Draw, Teen Dance, and Amateur Show.

The cows probably won't notice the difference, but the producers will, because on April 1st, 1970, industrial milk pooling begins in Ontario. Centralized marketing of industrial milk through The Ontario Milk Marketing Board will help stabilize the industry and provide higher returns to producers over time.

Automotive Emission Control Device For North America To Be Launched By Wisconsin Mining Subsidiary

Wisconsin Mining Company Limited, a Toronto-based Canadian public company, is conducting the first phase of an extensive sales program to launch the "Gas-O-Miser" in the North American consumer market. The Gas-O-Miser has been tested, proven and accepted in Japan as a certified automotive emission control device.

This is reached when the ratio of air-to-fuel is maintained. Under all conditions at approximately 15 to 1. The main benefits of Gas-O-Miser are: - Greatly reduced automotive pollution through reduction in the amount of carbon monoxide and hydrocarbons emitted into the atmosphere.

A savings in fuel consumption of between 10 - 20 per cent in miles per gallon of fuel. The use of the Gas-O-Miser will not burn out the valves of an internal combustion engine. The device is most effective when engines are either idling or operating on a stop-go basis as encountered in city driving.

New legislation has been recently passed in Japan whereby, effective August 1, 1970, it will be compulsory for all automobiles and trucks to install an approved emission control device. The after-car market in Japan is estimated at between 9,000,000 - 10,000,000 vehicles.

Afternoon Unit Meeting Of Wesley U.C.W.

Mrs. Robert Smuck presided over the afternoon unit meeting of Wesley U.C.W. when 16 members were present at the regular monthly meeting on March 17 in the church parlour.

Mrs. J. Duxbury will preside over the afternoon unit at the Community Chest meeting. Mrs. Pearl Marr will act on the Christian Education Committee.

Mrs. Nellie Stallwood and Mrs. Oldham chose Easter thoughts for their Worship Service. The Easter message was read from the scriptures.

Mrs. Oldham selected interesting and provoking information relating to Inter Church Rivalry and problems concerning the Unity of Churches from the study book. We were reminded that every person plays a part in religious change and also that one of Christ's appeals to his listeners was "That all may be one."
