Statement To Kitchener Meeting Of Pollution Probe

Liberal Pollution Critic Pat Reid today called on the Ontario Government to ignore the Federal Government and unilaterally ban the sale after July 1 of any detergent containing more than 15 percent phosphate.

Mr. Reid, in a statement prepared for a meeting in Kitchener of Pollution Probe, said, "The Federal Government's announcement of a ban on the manufacture and importation of detergents containing more than 20 percent phosphate, does not go far enough.

The Liberal Pollution Critic predicted that the three major detergent companies will work overtime to stock-pile high phosphate detergents, because the Federal amendment to the Canada Water Act does not prohibit the sale of such detergents.

Mr. Reid said, "In 1952 seven leading brands of detergents in Canada contained less than 14 percent phosphate. I see no reason why they cannot cut back to 15 percent now."

The Liberal Pollution Critic pointed out that he and two Liberal MPP's handed out phosphate-free detergent at Toronto City Hall Square to celebrate Earth Day and to alert the public to the fact that several such detergents exist on the market.

He added, "The decision is whether we want glistening shirts or glistening lakes and, if it's cleaner water we want, then we must have tougher provincial legislation."
