

Frank Dykstra is trying out new stretcher. Onlookers (left to right) Mrs. E. Parsons, R.N., Mr. Pierroz and Mrs. E. Webb, Director of Nursing.

Present Cheque For New Stretcher

Frank Dykstra and Anthony Pierroz presented on behalf of the Knights of Columbus, Council 609, a cheque for \$690 to the West Haldimand General Hospital for the purchase of a Surgilift stretcher.

The Surgilift stretcher is a complete patient handling system. It is "the muscle that does the work, lifting the patient from an emergency stretcher, placing him over an X-Ray table, moving him into surgery and recovery by only one staff member. This would otherwise require three or four.

The patient is never pulled or jostled. The Surgilift is certified at test weights of 1100 lbs.

LOW COUMARIN SWEET CLOVER
The Canada Department of Agriculture has developed and licensed a new variety of sweet clover which has a low coumarin content. Named Polara, the new sweet clover variety will not cause "sweet clover disease" in cattle.

GRANTS AWARDED VANCOUVER (CP)
Twenty-eight graduate students and teachers at Simon Fraser University in suburban Burnaby have received Canada Council grants totalling \$115,250 to assist them in studies towards PhD degrees. The grants are awarded annually to students in the social sciences and humanities.

Friends N' Neighbors

Mrs. Earl Marr of Jarvis Women's Institute and Mrs. Wm. Lamb of Lamb's Corner's W.I. attended the Provincial Women's Institute Conference at the University of Guelph for three days last week.

Dr. and Mrs. Don Milne and family of Kincardine were guests of Mrs. Richard Telford recently.

Mrs. Harry Preston, Mrs. Ross Dossier and Mrs. R. A. Miller attended the Annual Daffodil Tea sponsored by the Norfolk Unit Cancer Society, at the home of Mrs. Harry Brook, Simcoe on Wednesday last.

Friends of Mrs. Rose Taylor are pleased to know that she has returned from Hospital.

Mrs. Edith Hudson who has been a patient in West Haldimand for some time has gone to Pushtich to convalesce at the home of her daughter and son-in-law Mr. and Mrs. Wm. Reynolds. Miss Dorothy Atkinson of Toronto spent Saturday at the home of her Aunt Mrs. J. J. Mitchell.

Mrs. Rusty More who has been visiting in Guelph, has gone with her daughter Kathy, a student at McMaster to spend a few days in Montreal. Laird More is home from the University of Windsor and Rusty was home for the weekend.

Word has been received of the death of Palmer Thompson a native of Jarvis and one of her famous sons. Mr. Thompson was a Professor and former president of the University of Saskatchewan. He passed away in Sunnybrook Hospital, Toronto and his body was taken to Saskatoon for interment. The late Mr. Thompson was well known here in earlier years and was the brother of the late Mrs. Marshall Roberts.

Mr. and Mrs. Harold Porritt of Simcoe with Traci Guiler spent Sunday with Mrs. A. L. Belbeck. Traci is Mrs. Belbeck's great grandson who lives in Port Dover.

Mr. Harvey Evans is a patient in Hagersville Hospital.

The Community Chest Fund Drive got away to a good start on Monday May 4.

Rev. Taylor-Munro was the officiating clergyman at the funeral of Mrs. Musclove's brother William who passes away in Kitchener on May 4. Sympathy is extended to Mrs. Musclove (Mrs. Taylor-Munro's Mother) who suffered the loss of an Aunt during the last month, and whose sister-in-law also of Kitchener is very ill.

SAP TO SYRUP
ANTIGONISH, N.S. (CP) - The Nova Scotia lands and forests department tapped about 500 trees at the nearby Giant's Lake Sugar Bush this year. The 250-acre stand of sugar of rock maple may yield as much as 450 gallons of sap but when it's boiled down it will yield about 10 gallons of maple syrup.

COLLEGE TO OPEN
KAMLOOPS, B.C. (CP) - Cariboo College is scheduled to begin classes in September in two buildings at Kamloops residential school and in yet-to-be-built prefabricated science laboratory, principal Jack Harris says. It will operate on a day-time basis with a few classes.

Notes On Corn

There will probably be a considerable increase in the acreage of corn grown for both grain and silage in Ontario during 1970.

Mr. Archie McLaren, Crops Division, Ridgetown College of Agricultural Technology, says that planting usually begins by May 1 if the soil is fit, and that growers consider May 10 as the target date for having most of the crop planted.

Research results at Ridgetown and other Ontario locations indicate that yields of grain begin to decrease when planting is delayed after May 10, and the maturity date in the fall is also delayed.

Row widths of 38 inches or less have been found to be useful for good corn production and most farmers should continue to use this row width. The best number of plants per acre depends on the moisture and fertility available to the plants during their growing season.

Based on past performance, a final stand of 18,000 to 20,000 plants per acre usually give maximum yields. This means that plants are set eight to nine inches apart in 38-inch rows.

Planters should be carefully checked before going into the fields, says Mr. McLaren, and farmers should be particularly careful that the right seed plates are available for the seed being used. Various seed lots may have been graded to different sizes, so the importance of having seed plates with cells to fit the seeds must be emphasized.

The planter should be set to drop about 10 percent more seed than the plant stand desired. Seeds seven to nine inches apart in a

38-inch row would mean a seeding of 21,000 seeds per acre. On the assumption that 10 percent of these will be lost, a farmer should expect to end up with about 19,000 plants.

As a final point, Mr. McLaren says that corn seed, when purchased, is only treated against fungal diseases and the grower should add diazinon and lindane to protect the corn against worms and seed maggots. If corn rootworm protection is necessary, a band application of one of the recommended insecticides must be made.

Sandusk News

Mr. and Mrs. Jack Nixon and Mr. and Mrs. Wm. Bray attended the Jarvis Lions Ladies Night in Jarvis Community Hall Monday evening.

Mr. Bill and Dale Werner attended the Carousel at Cayuga High School on Tuesday evening.

Mr. and Mrs. Craig Werner attended the Carousel at Cayuga High School on Thursday evening.

Mr. and Mrs. Harold Bray and Daryl, Mr. and Mrs. Melvin Waldbrook and Robert spent Saturday evening with Mr. and Mrs. Wm. Bray.

Wayne Jacobs of Hagersville visited his friend Alan Werner on the weekend.

Mr. and Mrs. Geo. Marshall visited their daughter and family Mr. and Mrs. Ralph Biggar in honour of their wedding anniversary last week.

The residents of the Community will be getting a visit from a member of Sandusk Womens Institute who will be canvassing for Community Chest. Please have your contribution ready.

Federation News

by ROY HAGAN

On April 15, over 40 Individual Service Members of the Ontario Federation of Agriculture in Haldimand County, including a number of the Reeves, Clerks and Council Men of the Townships of the county attended a meeting in Kohler. Mr. Kenneth Best, agricultural representative of Haldimand and Mr. D. Majtenyi of the Air Management Branch Welland, discussed with those in attendance "The Suggested Code of Practice" for the establishment of new livestock buildings, renovation or expansion of existing building, and disposal of animal wastes.

Following the discussion it was the unanimous decision of the meeting that this was an extremely urgent matter and that there should be another meeting held possibly in mid May, following the gathering of more information, when Ken Best along with the other Agricultural Representatives in the area would have attended an information session on this matter.

Those attending the meeting also requested a column Federation Facts be written for the local papers to help bring some of the

Junior Farmers Hold Hard Time Dance

On Friday April 24, approximately 50 people clad themselves in their oldest rags and attended the Sadie Hawkins Hard Time dance at Fisherville Community Centre.

At the dance, Linda Nie was crowned our 1970 Junior Farmer Queen, and Pat Doyle was chosen as her princess.

Herb Martindale provided the music, and Dean and Bob Glenney acted as callers for the square dances.

A ragged time was enjoyed by all. The next meeting will take the form of a car rally at the end of May. Please plan to participate.

possible implication of this suggested Code of Practice to the attention of Haldimand Farmers.

Such as the Air Pollution Control Act of 1967 which was passed to provide a substantial measure of protection against all forms of air pollution, including offensive odours. This of course is designed to protect the non farm home owner and the urban people who decide to buy or build a home in the country, who would find the odour of farm animals and animal waste offensive.

However there seems to be little protection for the farmer from the urban people who buy or build a home near his livestock building. Those complaints could according to the Air Pollution Control Act hold the farmer liable, and as a result cause him a great deal of expense and possibly even put him out of business, unless Section 30 of the Land use-by-law were to be properly implemented to keep specific areas of land restricted to agriculture. This of course involves the Municipal Affairs department with zoning, because without proper zoning the farmer will have no protection. Even with zoning it is extremely important that the farmer have a certificate of approval from the Air Management Branch before building or renovating a hog or poultry barn especially at the present time. However, noting how other things seem to develop this is probably just the beginning. So on behalf of the farmers attending the meeting of April 15, I once again express the extreme importance of this matter and strongly recommend that you the Haldimand farmers be prepared to attend the meeting planned for mid May, which will be advertised in this paper.
