## Swayze-Preston

Mr. and Mrs. Swayze

On Saturday May 9, the Leamington First Baptist Church, with pink and blue gums at the altar was the setting for a very pretty wedding. Joyce Elaine Preston, only daughter of Mr. and Mrs. Leonard H. Preston of Leamington, was united in marriage to Robert Allan Swayze, son of Mr. and Mrs. Ray W. Swayze of Simcoe.

Rev. L. F. O'Neil officiated at the double ring ceremony. Mrs. Luke Robinson, pianist, sang the "Wedding Prayer" before the ceremony and "The Lord's Prayer" during the signing of the register. She was accompanied by Mr. Allanson Brown at the organ.

The bride looked lovely as she entered the church, in the arm of her father who gave her in marriage, wearing a century styled gown of whisper taffeta and Chantilly Lace. The bride wore a scalloped neckline with ruffled tiers. A lace edged train fell from the shoulders. Her tiered veil of French illusion was held by a floral cluster. She carried a cascade of yellow roses, stephanotis and ivy and wore a strand of pearls and matching earrings, a gift of the groom.

Mrs. Sharon Latam, of Woodlee was the matron of honour and wore a gown of candy-pink silk chiffon with an empire bodice, long sheer sleeves, and a ruffled neckline. She wore a matching bow of peau-de-sois with a whisper veil. She carried a nosegay of sea blue carnations and the flowergirl, Michele Clark of Leamington, was identically gowned and carried a basket of sea blue carnations.

Miss Jeanette MacDondal of Ottawa and Miss Carolyn Robinson of St. Catharines, both friends of the bride, were bridesmaids. Miss Sherry Clark of Leamington was a Junior Bridesmaid. Their dresses were styled the same as the matron of honour and flowergirl only in sea blue. They carried nosegays of candy-pink carnations.

Douglas McLaren of Toronto, friend of the groom, acted as best man. The ushers were Larry Latam of Woodlee, Richard Pulley, of Wheatley and Ronald Preston, brother of the bride, of Leamington. Roy McRae, of Leamington, was the ring bearer.

The bride's mother chose for her daughter's wedding a dress and coat ensemble of blue silk with pink and white accessories. She wore a white orchid corsage. The groom's mother wore a dress and coat ensemble of pink silk borcade with beige accessories. She wore a white orchid corsage.

The wedding supper was held at the Rhine Danube Club in Leamington where a telegram was read wishing the bride and groom best wishes for the future from the bride's pen-pal from Christ Church, New Zealand. In the evening a reception was held for 300 guests.

For travelling the bride donned a dress and coat ensemble of navy blue silk with red trim and white accessories. She wore a white orchid corsage. Following a tri-to Miami Beach, Florida, they will reside at 4 Oak Street, Simcoe.

Guests were present from Amherstburg, Canboro, Dresden, Dunnville, Essex, Hagersville, Hamilton, Jarvis, Kingsville, Markham, Simcoe, Stoney Creek, Toronto, Wheatley and Windsor.

Annuals are very often used as fillers in a flower garden because they bloom in midsummer when the perennials are not flowering. Once bought, the seedlings should be planted immediately or watered and stored in a cool shady place until planted. Plant carefully, says Dr. Harney, keeping the ball of earth around the roots intact if possible. Water after planting, and shade if the plants show signs of wilting.

If the flowers are picked and the plants are not allowed to go to seed they will continue flowering until frost. To maintain the annual garden in a vigorous condition, apply a 5-10-15 fertilizer at the rate of 2 1/2 pounds per 100 square feet during the latter part of July.

HOME BUILT HYDRO NAVAIDA LAKE, B.C. (CP) - Texan Harvey Walsh, 41, finally gave up on his "dang-fooled" one-cylinder power plant that supplied minimal electricity to his ranch here 18 miles west of Prince George. Last December, power from B.C. Hydro flowed along a 1.9-mile transmission line built by himself at a cost of over \$2,000, a lot of bloody knees and bruised muscles. It took four years to get permission for the unorthodox project, but Walsh thinks it was all worth it - power will now cost about half the \$45-a-month he used to pay.

Mr. and Mrs. John Mitchell, Ruth, Robert and Danny of Guelph spent Sunday at the Keen Home.

Mr. and Mrs. Thomas Fugler of Hamilton visited on Sunday at the home of Mr. and Mrs. William Campbell. They were all entertained at a dinner at the home of Mr. and Mrs. Floyd Hawke.

Mr. and Mrs. Maxwell Newton of Kitchener spent Wednesday at the home of Mr. and Mrs. Bertley Brown.

Miss Janice Gee of Hamilton spent the weekend with her parents Mr. and Mrs. John Gee.

Mrs. Robert Roth has secured a position at the Hydro Plant at Nanticoke. He commenced work on the 11th of May.

The Mary Edith meeting of the W.M.S. will be held in the Church Hall on Thursday afternoon May 21 with Mrs. Murray Biggar as hostess.

Mrs. William Lint is at present a patient in the West Haldimand Hospital, Hagersville.

Mrs. J. W. McBurney spent some time with Mr. and Mrs. John McBurney in Caledonia.

## Prepare Garden For Annuals - Now

Now is the time to prepare the soil in which annuals are to be planted. The soil, once dug, should have organic matter added in the form of barnyard manure or compost at the rate of 50 to 75 pounds per 100 square feet. Dr. P. M. Harney, Department of Horticultural Science, University of Guelph, says that peat moss is easy to obtain and may often be used instead of manure or compost. Peat should be spread in a layer one to two inches thick, and worked into the soil.

On fine-textured clay soils a 50-20-10 analysis fertilizer may be applied at the rate of 2 1/2 pounds per 100 square feet. For coarse-textured sandy soils, a 50-20-20 analysis fertilizer applied at the same rate is recommended.

Although some enthusiasts grow their own annuals from seeds, says Dr. Harney, many people buy them as seedlings from the local florist or nurseryman. These seedlings will be a couple of months old with well-developed root systems and will often be in bloom or almost ready to bloom.

Annuals are very often used as fillers in a flower garden because they bloom in midsummer when the perennials are not flowering. Once bought, the seedlings should be planted immediately or watered and stored in a cool shady place until planted. Plant carefully, says Dr. Harney, keeping the ball of earth around the roots intact if possible. Water after planting, and shade if the plants show signs of wilting.

If the flowers are picked and the plants are not allowed to go to seed they will continue flowering until frost. To maintain the annual garden in a vigorous condition, apply a 5-10-15 fertilizer at the rate of 2 1/2 pounds per 100 square feet during the latter part of July.
