St. John The Divine

St. John's September 20, there was a Baptismal service when Jennifer Catherine, daughter of Mr. and Mrs. Bruce Nevelle (nee. Linda Taylor) of Hamilton was christened. Her God-parents were Mr. and Mrs. Joseph Armstrong R.R. 3, CaCayuga. Her grandparents, Mr. and Mrs. Neville from Hamilton were also present.

There was a family dinner later at the home of Joe and Pat Armstrong.

Mr. Pocock in his address charge of a parish. spoke of the two holy services of dedication in our little parish hall at St. Hundred and Thirty-Ninth Psalm for continued soul refreshment.

and Mrs. Pocock, in the parish hall downstairs. Dr. David Marshall gave a short address voicing our gratitude to the Pococks for their sojourn in our midst and wishing them all the best in their retirement years ahead. Howard Mehlenbacher made the presentation which took the form of a purse. In his "Thank You" remarks Mr. Pocock said he left himself available for church services but would not be taking full

church, Baptism and John's, in his second but Confirmation. We were last Sunday as priest-indirected to read the One charge what marvellous recollections he could have conjured up in his over four decades of service in the After the regular morning ministry, of the many City service, there was a Edifices in which he had preached and the many people he had reached with his messages. He didn't talk about that, instead he told us the little story of the char lady over in England JARVIS LIONS during the war years who used to come to her job in the morning haggared and bemoaning the fact she had not slept the previous night due to the air raid sirens and having to go down into the shelter whereupon a littly typist spoke up brightly and said "we had no trouble at all, we went into the shelter, said our prayers, laid down

and went to sleep. - WE HAD FAITH." He is like that, we could say of Mr. Pocock in the words of Kipling: "He could

Blue Flame goes for land speed record

A NATURAL gas-fueled rocket motor is expected to whip a needle-like automobile past the speed traps at Bonneville Salt Flats at speeds approaching Mach I this summer.

The Blue Flame, piloted by Gary Gabelich, ex-

Natural gas-peroxide-fired rocket motor has the muscle to propel this uper dragster to 1,000 mph, according to its developers. It needs it two-thirds of this power to establish a new land speed record. ink what you could do with it at the stoplights

pects to use 13,000 lb of thrust out of an available 22,000 lb to enable him to sail past Craig Breedove's present record of 600.62 mph set in '65. If he were to floor it, the 38-ft tricycle should hit

,000 mph—providing it stays down on the ground. The 58,000 hp rocket motor is fuelled by liquid natural gas at 500 psi pressure. The LNG is fed into a heat exchanger where it vaporizes and is brought to combustion temp. Hydrogen peroxide is added as an oxidant and the mixture is ignited. LNG fed in under pressure provides the thrust. Helium is used to pressurize the fuel and nitrogen to pressurize the \$1

Snap-tite, quick-disconnect couplings are used hroughout in the braking and fuel system.
