

REPORT

Complaints again have been received that motorists are not stopping for school buses which stop with red lights flashing for the purpose of taking on or discharging school children. A recent survey taken on No. 6 Highway revealed that only three out of eight drivers were aware of the law regarding school buses.

Section 94(2) of the Highway Traffic Act states: Where a school bus is stopped on a highway or part of a highway on which the maximum speed limit is greater than 35 miles per hour for the purpose of receiving or discharging school children, the driver of a vehicle,

(a) when overtaking a school bus on which the words "do not pass when signals flashing" are marked and two red signal-lights are illuminated by intermittent flashes; and

(b) when meeting on such a highway, other than a highway with a median strip, a school bus on the front of which two red signal-lights are illuminated with intermittent flashes, shall stop the vehicle before reaching the school bus and shall not proceed until the school bus resumes motion or the signal lights are no longer operating.

As a result of a motor vehicle collision on No. 3 Highway just east of Dunnville on October 4, 1970, which claimed the life of Linda Nymeyer, Allanburg, Ontario, Berend, her husband, age 20, passed away October 11, 1970 in Hamilton General Hospital from injuries sustained in the collision.

A rash of break-ins along Lake Erie in Rainham and Walpole Townships during September resulted in the arrest of two men from Tillsonburg and one from Selkirk. Approximately \$600.00 worth of goods were stolen and \$350.00 recovered. Charges range from Break, Enter and Theft and Possession.

Sixteen motor vehicle collisions occurred resulting in injuries to eight persons.

General occurrences investigated were: Three break and enters, two thefts, two liquor control act charges, one impaired driver, six assault complaints, eleven requests for assistance, and four other criminal code offences.

On October 12, 1970 at 4:30 a.m., Prov. Consts. R.

There'll Be More Oysters In The Stew On Nov. 6

When the local Oyster Lodge, No. 128 has their annual Ham and Oyster Supper this year the supply committee, Edgar Waldbrook and Frank Ford, hope to avoid the embarrassment of 1969 when they ran out of oysters before the public were finished arriving for the usually abundant feed. Members of the Lodge, meeting Thanksgiving Monday evening Oct. 12, authorized the Convener of supply to increase the amount to avoid any recurrence of last year's predicament.

Federation News

by Roy Hagan

Response to the Ontario Federation of Agriculture booth at the Caledonia Fair was very good. A large number of people stopped and made favorable comments.

The Federation wishes to express thanks to the organization who shared the booth. The Caledonia Credit Union gave us good co-operation.

A number of questions were left in the question box. Some of these queried the Federation on the reason for its existence. In answer, the Federation of Agriculture is an organization of farmers, who work for the betterment of the farmers lot in society and society in general. In this respect it has been very successful.

The O.F.A., in effort to bring the organization closer to the individual farmer, offered Individual Service Membership about a year ago. Since then nearly 5,000 such members have joined. More are joining every day.

At the fair booth more farmers indicated they were interested in becoming members. It is a known fact O.F.A. has been making an all out effort to have education tax removed from property and paid out of provincial funds.

Early this month, Provincial Treasurer Charles McNaughton announced there will be a 25 percent rebate on farm taxes. This will cost \$20 million annually.

In view of O.F.A. accomplishments can any farmer afford not being a member?

One of the project problems of this Lodge has become a matter of real concern during the past few years. Traditionally the Orangemen have concentrated their charitable dollars toward the support of the Home for Homeless Children and Orphans (Ontario) at Richmond Hill, Ontario. However, since the policy of the government has been to underwrite more and more of the operational costs of such homes, the Orange Organization has been exploring other channels of need. These were discussed at some length at this

Scholarships for secondary school children who may require financial

assistance at the college level have been a typical interest of Orangism in former years. Here again the government has taken over student loans and made it quite easy for ambitious young folks to finance their way through the costly years of getting an education in a society that has increased its school population at a tremendous ratio each year.

A nominating committee hopes to bring in a slate of officers next meeting November 9, with a considerable number of new executive for 1970-71 in the forthcoming Master Leslie Fess.

Population Pressures

Unemployment is population in the growing even faster than less-developed countries.

Modern development methods don't use much labour, they use capital equipment. If population was growing at 2 percent 20 years ago, the number of people seeking jobs is growing at 2 percent now. However much birth control you have, it is a long time before it reduces the number of people coming into the labour force looking for jobs and not finding them.

A THREAT
MONTREAL (CP) — Today's white-collar criminal, with his mod clothes, briefcase and secret bank account in Switzerland, is more of a threat to society than the old Hollywood-style gangster and muscle-man mobster, a Quebec Provincial Police inspector has warned. Chief Inspector H. F. Patenaude told the annual conference of the Canadian Institute of Chartered Accountants more than \$2 million worth of stolen United States securities were passed through local brokerage houses during the last two years.

Industrial Training

Close to 20,000 persons are currently participating in training programs conducted throughout the province by the Ontario Department of Labour.

The Industrial Training Branch of the department reported that there were 17,954 apprentices in training in 120 registered trades during August. This was 603 more than for the

same month last year. An additional 1,342 persons are currently taking short term training programs in industries in the province, 220 more than for August, 1969.

Births

EASTBURY — George and Nancy (nee Sternaman) are happy to announce the arrival of Julie Lyn, 8 lbs. 3 oz. on Friday, October 9 at the St. Thomas General Hospital.
