HSS Sports Report
Victories on the sports scene at Hagersville were harder to come by in the past week. The football team lost to Dunnville but the cross-country team upheld their image with a victory at their recent meet and remained undefeated. The volleyball team travelled to Sprucedale last Wednesday for a game with the Caledonia team. The boys emerged as the winners of the two out of three series in the end but only after a very hard fought and closely contested three games.

The dependable cross-country team is again the bright spot amidst last week's gloom. On Wednesday they travelled to Ball's Falls for a local meet. Again it was in the same order as in past occasions, when the senior and junior teams placed first in their respective divisions while the midget team placed second. The boys were a run-away first amongst the rest of the competition and let's hope they keep up their perfect record.

The Hagersville Hurricane football team seems to have met more than its match when they came up against the powerful Dunnville last Friday (Oct. 16). Everything seemed to be going well in the first quarter when Hagersville scored the first two times their offense got the ball. Both majors were long touchdowns by Leo VanEyk. One on a reverse and the other on a deep pass and run. Randy Hill scored on a short plunge in the second quarter, as well as Kirk Brown converted the score. Warren Howe also kicked a single in the second quarter. The score at half time was Hagersville 20, Dunnville 15.

The second half was all Dunnville's as they ran up 25 more points by going over, around and through the Hagersville defense. The offense couldn't produce a single point in the second half and the final score was Dunnville 40, Hagersville 20. Leo VanEyk was the individual star as far as Hagersville was concerned with his two touchdowns as well as playing both ways for most of the game.

The Hurricanes seem to have their work cut out for them with playoffs approaching. Their next game is Friday, October 23 in Caledonia.

Make sure you child has an accident-free Halloween.

(1) See that the mask allow proper vision.

(2) Make sure the costume has some light or white coloured cloth. Reflective tape is recommended.

(3) Avoid loose fitting hoods.

(4) Allow freedom of movement by avoiding costumes that are too tight or too long.

(5) If the children are young, parents should accompany them.

Drive carefully Mr. Motorist, as the tiny tots "Trick or Treat."

When children wear dark costumes, it is especially difficult for motorists to spot them. Also a poorly fitted mask may obscure the youngsters vision thus making it difficult to see the approaching traffic.

Individual Timetables At HSS

For the first time at H.S.S. all students are on completely individual timetables. This means that a student can take almost any subject at a level where he should succeed. Most subjects have at least two levels of difficulty and some have three. Also no subject is compulsory unless a student needs a certain group of subjects for Grade 13 or some other post-secondary education.

There are advantages as well as disadvantages of this system. The most important advantage as already mentioned above is that a student should be able to pick and choose a timetable of subjects that he should succeed at if he does a reasonable amount of work. If a student is weak in a certain subject he can study that subject at a lower level. On the other hand if a student is average in all but one subject and does very well in that subject he can take the average subject at the general level and his better subject at the advanced level. Another advantage is that the class for any one subject should consist of students at a more uniform level of ability. The system also allows students to move up to a higher level of difficulty if he is doing very well or move down if he can't handle the upper level. Also during the year a student will meet more students instead of being with the same group all year.

However, as with any system there are disadvantages; the biggest is one of administration. A tremendous amount of time must be spent to do the timetables themselves. Of the 950 students at H.S.S. approximately 800 have completely different timetables. This means that each and every student must
