## The Weeklies Say

### HELP WANTED

(In) all youth organizations... there is a small, indicated nucleus of parents who are willing, even eager to participate in these most important activities for young people, but there are nowhere near enough of them... It's simply a matter of "help wanted" - apply everywhere that children's activities are held and don't wait for an invitation. - Vancouver Hastings News.

### DEMAND CHANGE

Until mankind reaches a stage of social enlightenment where each individual considers the fact that "bad" news should be happening at all is a personal failure on his part, editors will headline negative events. When a reader himself demands that papers print the good news, will change occur. - West Vancouver (C.) Lions Gate Times.

### MONEY VS DISASTER

The North Okanagan health unit needs about \$100,000 to avert a major German measles epidemic... cannot afford an impending disaster to occur for the sake of a few thousand dollars. In some instances, it is worth considering the cost when much more is lost by delay or needless penny-pinching. - Vernon (B.C.) News.

### THREW IT AWAY

Women are raising a lot of hell these days for liberation. We'd like to know what more liberation could get them when women have let everything slip through their hands and don't seem to know it. If women were smart, talked less, thought more, they'd get liberation. Liberation must come from women themselves; for themselves first. - Bridge River - Looet (B.C.) News.

### TIRED OF LONINESS

The lonely voice of youth cries: What is Truth? So in the words of a popular song...

Our democracy is far from perfect. A free enterprise system is bound to have loopholes and we've certainly had our share.

But we're also getting pretty tired of this "lonely voice of youth."

Maybe this voice wouldn't be so lonely if it were tempered with a goodly portion of old fashioned, additional common sense. - Quesnel (B.C.) Cariboo Review.

### ROMANTICS CHANGE SLOWLY

If we are ever to reduce the shocking toll of highway accidents, we must kill the idea that an automobile is anything but a very prosaic means of transportation. We must destroy the illusion that there is anything glamorous about reckless driving. Only by changing society's basic view of the automobile can we change its driving habits. The present romantic view of the car as a piece of sporting equipment has deep roots. It will be hard to change. - Salmon Arm (B.C.) Observer.

## School's Open - Drive Carefully

and is subject to the Highway Traffic Act, Provincial Rules of the Road and local By-laws.

To meet the standards of the law, a bicycle must have a bell or horn in good working condition. If it is used between dusk and dawn, it must have a white light in front, and red light or reflector at the rear. Reflective tape must also be applied - white on the front forks and red on the rear fender.
