Hi-Ho - Come To The Fair!

"The Caledonia Fair"

Haldimand County's Caledonia Fair is just around the corner and will be in full swing for three great days and nights. This is where you will see Ontario's finest livestock and home products arranged for your enjoyment. This is where you will see a truly Agricultural Show which offers its exhibitors well over \$19,000 in cash prizes.

Once again Thursday, October 1st will feature youth with its terrific 4-H Championship Show. Some 30 Judges will place the Hall Entries on Thursday morning with that great exhibit opened to the public by noon. This form of Thursday's program was started last year and is certainly with us to stay. It provided the answer to many problems which simply got worse each year.

Friday, October 2nd is the dairy cattle and sheep. The roadsters, hackney and commercial horses will be shown on the track while the jumpers and Western classes compete in the ring in front of the grandstand.

"The Nation's Number One Action Attraction." Friday night will first present the Dairy Princess Milking Competition followed by the world's greatest thrill spectacular, "Nation Wide Demolition Derby." For thrills and excitement, there is just nothing to top these attractions.

The Bernard Amusement Co. will again bring to the Caledonia Fair their No. 1 collection of shows and rides. Above are listed only a few of the many great features you will see at the 1970 Caledonia Fair.

It has always been the aim of our Directors to present a Show of the highest calibre and we firmly believe that a visit to our Fair on any or all of the first three days of October will readily convince you that we have not failed in our efforts.

Saturday, October 3rd is everybody's day when you see the beef cattle, the pigs, the many types of ponies and all of the various heavy horse hitches. On the track you will see six thrilling heats of harness racing.

In addition to having three full days of livestock showing and races there will be three thrilling Nite Shows and each without admission to the grandstand. Thursday and Saturday nights feature the Trans Canada Hell Drivers.

\$ \$ And Good Sense

by William J. Martin

Mr. Martin serves as special consultant to Aveco Financial Services. All questions should be sent to him at P.O. Box 2820, London, Ontario. Those containing a name and address will be answered in this column or by direct return mail. No names will be used in print.

Dear Mr. Martin:
My husband is going to be transferred to another city soon for about two or three years. We don't want to have to move into an apartment and are wondering if we should buy a home. Is it wise to buy a home when you know you'll be living in it only a short time? Mrs. B.M.K.

Dear Mrs. B.M.K.:
Generally speaking, a home owner stands to lose money if a home is sold after just a year or two - but there are exceptions. With the proper planning you can live in your own home for this two to three year period and be able to sell without taking a loss on the transaction.

When looking for your new temporary home, you must consider many things in a different light than you would for a more permanent home. For instance, avoid buying a new home which requires finishing work, landscaping, carpeting, and so on. Try for a home in an established and settled area where you can move in and not have to spend a lot of money to get settled.

You must always be thinking of a potential home's resale value, of course. You may have to pick an area that is not the most convenient for your particular needs - that is, try to select a house near a major employment locations and near schools and shopping areas. This may not be the best location for you but it will make the home easier to sell when the time comes. Also, buy a house of average value - a house within a medium price range. This will also make it easier to sell.

Be careful about financing, too. Try to put up only a minimum down
