**Hurry down to your Chevy dealer for the \$30,000 Moneymiles Sweepstakes!**  
(And a chance to drive the big new Impala.)

Make a move that could make you a winner two ways.

For a start, drive the '71 Impala and see how the changes we made give you more of what you want in a car.

Always a smooth ride, Impala is even better this year. Thanks to its longer 121.5" wheelbase, improved suspension, wider stance and wider wheels.

And a car that moves as well as the Impala also needs to be able to stop very surely. So power front disc brakes are standard equipment.

Some of the equipment illustrated is optional at extra cost.

There's also a dual master cylinder, warning light and corrosion-resistant brake lines.

We made 15 meaningful improvements to the '71 Impala. Most of them, just for you.

But one of them is for everyone's benefit. A new control system helps cut down fuel evaporation into the atmosphere. And to further fight air pollution, all 1971 Chevrolet engines have been designed

to operate efficiently, and with lower exhaust emissions, on low-lead, no-lead or regular fuels.

Inside and outside, Impala has the look of leadership. Gives you a very good feeling when you're behind the wheel.

**What about the \$30,000 Sweepstakes?** Look for this Moneymiles Sweepstakes sign at participating Chevy dealers. You could win up to \$30,000. The dealer has all the details. Hurry on down!

**You're always a winner with Impala. See your Chevrolet dealer today.**

**REPORT**

At 8.15 a.m. April 18, Prov. Const. R. Porpora investigated a one car collision on the Concession, Ontario Township, 400 feet east of Highway No. 6, Jan. 21, 1971. The driver, age 41, of 907 Norfolk St., Simcoe, Ont., was fatally injured. Damage was estimated at \$2,000. The scene was pronounced dead-end by Coroner, Dr. D. Marshall, Cayuga, Ont.

From January 1 to the present date six accidents have been investigated by the Detachment, resulting in seven persons being killed compared to four collisions with four persons killed, during the period in 1970.

A one car collision on the Cresswell Road, Ontario Township, April 18, 3:15 p.m. resulted in injuries sustained to Dorothy Hanson, age 18, RR 3, Hagersville, Ont. She was admitted to the West Haldimand Memorial Hospital, with abrasions and internal injuries. Prov. Const. D. C. Ryan investigated and estimated damage at \$400 to the vehicle operated by Elizabeth Smith, age 17, RR 3, Hagersville, Ont.

A number of general occurrences were answered by members of the Detachment, which consisted of family disputes, complaints of drag racing, lost and stolen articles, and other minor complaints.

Prov. Const. W. L. Egan arrested two male persons from Walpole Township warrants held by Hagersville Police, on charges of break and enter and theft, at Hagersville, in that town. The two subjects were found hiding in the attic of a house owned by the mother of one of the subjects arrested. They were lodged in the provincial jail, Cayuga.

A Reminder to Motorists: The Grand River Bridge, Cayuga has been re-opened to the public, with a limit of three tons. This includes weight of vehicle and contents. Members of the Department of Highways are stationed at each end of the bridge and will refuse the crossing of any vehicle with a gross weight than three tons. Keep in mind that the speed limit is 10 m.p.h.

Trevor the OPP Traffic says - Don't learn the right way by accident. Today Trevor chose a brand new car, a shiny black and red. The driver's a cool collected man, but in a jam he lost his head. Wait, slow down, you can't do that, passing on the right's against the law. But the truck that turned the corner was the last thing that the driver saw. Too bad, so sad, so Trevor, he could have changed his ways. He would have enjoyed annual leave in the next few days.

**Newsletter From Bill Knowles**

awa, Ont., March, 1971.

Friends:

March has been a particularly busy month for my member of parliament. In addition to my routine work here in Ottawa, I have been called on to speak on five or six different occasions in the riding. This involved some emergency trips to and from Ottawa. However, I am pleased to meet the needs of groups and organizations who desire the presence of their member of parliament. I particularly enjoyed a "Meet Your Member Night" arranged for the Norfolk Federation of Agriculture.

The Prime Minister Takes

a Bride - Mr. Trudeau has been taken out of circulation by the 22 year old Margaret Sinclair of Vancouver. Only the night before his secret wedding, the Prime Minister had delivered a major speech at a fund raising dinner in Toronto endorsing the role of women in the following words: "Society cannot become mature without the full participation of women." Now that there is a lady at 24 Sussex Street, the Prime Ministerial style will likely change drastically. To ensure a happy marriage he will have to develop the art of compromise.

I have just received an invitation for Vera and myself to attend a reception for the Prime Minister and Madame Trudeau to be held in the Confederation Room. Vera and I plan to attend and have our first opportunity of meeting the new bride.

Visitors Who Called On Their Member - I was pleased to assist in making arrangements for a group and several individuals who were in Ottawa to see the House of Commons. The cub packs from Old Windham and Vittoria were in the Capital during the school winter break. Mr. Al Taber of Simcoe, along with several other adults, was in charge of this group. Several English Catholic teachers, in Ottawa to attend a conference, visited me at my office and saw the House in action. I was also pleasantly surprised to welcome Mrs. Harold Jewitt and her daughter, Dayle.

Legislation Passed in March - Bill C-192 was passed by the House of Commons. This was called

for the Young Offenders Act, which will correct some of the injustices done when our very young people are charged with serious crimes and brought before the courts.

An amendment to the textile act was another item of legislation. The purpose of this bill was to prevent the serious competition from foreign imports with respect to our own textile industry.

Perhaps the item of legislation which will affect most people is Bill C-180, a consumer packaging and labelling act. Among other things a label will now be required to show the identity and principle place of business of the person or company manufacturing the item. It also must show the name of the product in clear letters, the date on which the product was manufactured and packaged, as well as the quantity contained in the package. All these must be

in clear, bold letters. Former Deputy Prime Minister Blasts the Trudeau Government - A speech in the House of Commons by the Hon. Paul Hellyer was the strongest attack I have ever heard on a government by one of its own members. He stated that the government's policies to deal with unemployment and inflation have been "Technically and financially a near total disaster, and morally a total disaster." He told the Commons he was receiving letters from constituents in his Toronto riding of Trinity stating they had lost their homes, appliances, life savings, and their dignity as human beings because of their unemployment due to government policies.

It was a matter of keen interest and satisfaction to hear Mr. Hellyer state that the solution was exactly the suggestions we in the Conservative Party have been advocating for nearly two years, that of tax cuts, reduction in interest rates, and a massive increase in funds for home building. He even went so far as to advocate wage and price controls for large corporations and their powerful unions. He went on to state that he was facing the worst situation in his riding in all his 20 years in public life. When Mr. Hellyer finished his speech the Trudeau Government stood completely indicted and he sat down to prolonged applause from all opposition parties.

Your MP Was Active in Commons Debates - In a debate to increase customs facilities, I argued for the retention of a customs clearing station at Booth's Harbour, St. Williams, on a seasonal basis. The Hon. Herb Gray, Minister of National Revenue, also participated in the debate and indicated a willingness to accept reasonable proposals.

I also had the opportunity to put forth some workable proposals for the control of pollution in the Great Lakes, with special regard to Lake Erie. This occurred during a debate on the Government Organizational Bill, dealing with a section on the environment.

Leaven For The Loaf - Mrs. Wilbert Howard was hostess for the Easter meeting of the United Church Women.

Mrs. Carl Hall gave the study chapter, Cain is Bitter, which was a story of the Education in Trinidad. Roll call was answered with a homemade Easter card.

It was decided to have a rummage sale in the spring. Mount Zion, Rockford, Salem and Tyrrell will sponsor a foster child for a year.

A card was signed by those present to go to a member in hospital. The Easter cards will also be sent.

The May meeting will be a work meeting for the supply work and will be at the home of Mrs. Bud Priest. Members are asked to bring old sheets or material suitable for bandages or dressings, old white or light colored, men's shirts, plastic bottles and used stamps.

After giving what he considered a stirring, fact-filled campaign speech, the politician looked out at his audience and confidently asked, "Now, are there any questions?" "Yes," came a voice from the rear, "Who else is running?"

Sincerely, Bill Knowles.

Continued From Page 1 weakened.

Mr. Gordon, 50, is known in the steel industry internationally as an advocate of advanced steel technology. He has been active in both the American Iron and Steel Institute as well as the International Iron and Steel Institute.

He contended the current softness of the steel market is because the market was running in excess in the buildup of Japan and West Germany in the 1960s.

Mr. Gordon said that the demand for steel internationally has also
