

THIS IS IT!...

SPECTACULAR

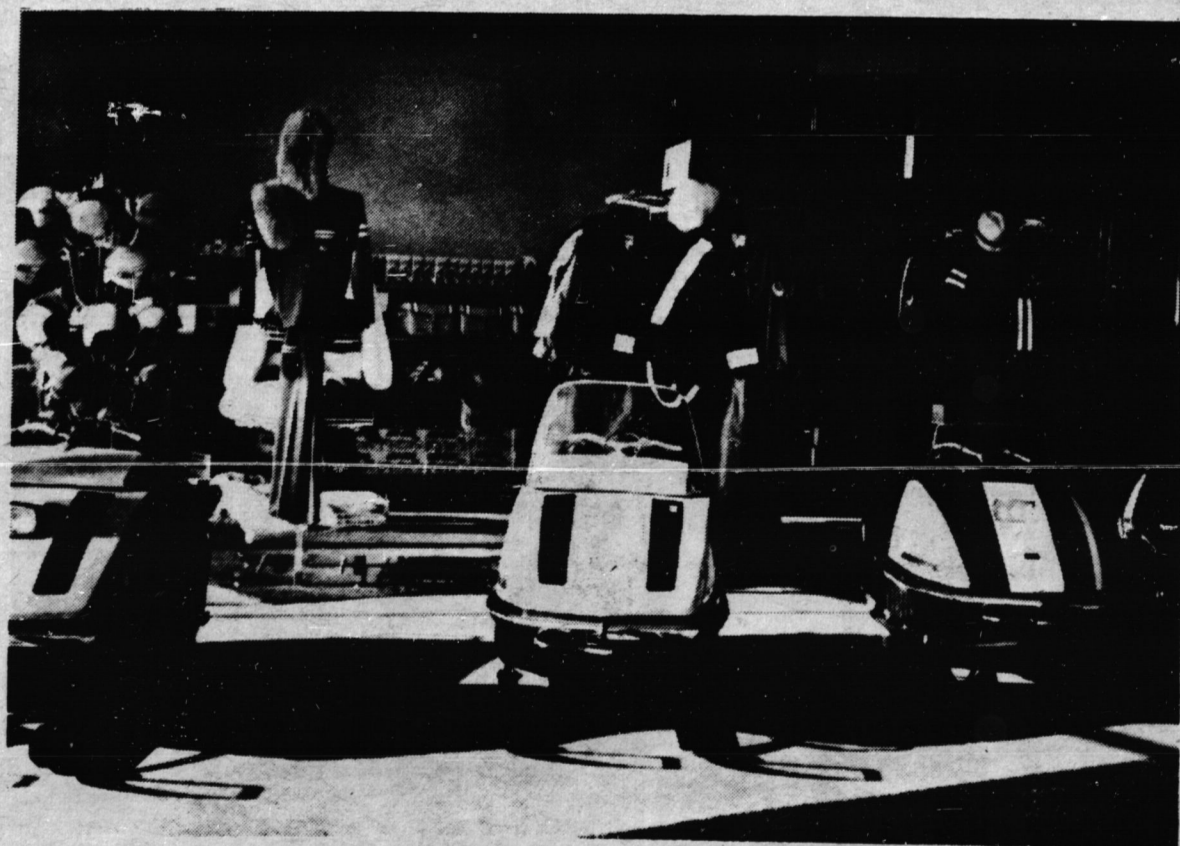

here are the muscle machines

This is the series that stands out from the crowd... away from the pack. T'NT, built to take anything that comes along. These are the muscle machines, aerodynamically designed to give you the tops in performance with the best in appearance. Rough, tough pace-setters on the track and trail-blazers over the hills. They're built for power... all the power you can use. Move yourself up to the styling and power of T'NT and move right on out.
