THE WH RECORD

Serving West Haldimand

Vol. 93 No. 5

Thursday, February 4, 1971

10c a copy

Hospital Annex Proposed For Area

HAGERSVILLE — A mini-hospital has been recommended for the area served by the West Haldimand General Hospital to relieve the strain on active treatment beds.

The long range report considering facilities needed up to 1990 sees OHSC approval to include self-care beds up to the time of discharge of a patient.

The report released Jan. 27 suggests a multi-purpose centre attached or near the existing 80 bed hospital to provide convalescent care at lesser expense and at the same time releasing beds in the main hospital.

The report stated a particular need in this area is low-cost nursing home accommodations for patients waiting or recovering from out-patient procedures as well as others.

The centre would provide doctor's offices and motel-type accommodations.

These possibilities were outlined in the report: — 1971-75: Instead of adding new hospital beds the new concept of the mini-hospital would provide the care centre needed.

— 1975-80: Any expansion of the hospital be secondary to a program of establishing a health care program especially if home care becomes insurable so that hospital chronic beds may be released.

— 1980-90: Claimed that despite the proposed industrial development at Anticoke the WHGH role in the community would remain unchanged. This means it would remain a district hospital providing limited care.

In the meantime medical and service organizations have already swung into action to establish new home care programs in the county.

The county branch of the Victorian Order of Nurses is expected to be operational by April and the Haldimand-Norfolk Health Unit is investigating possibilities for a comprehensive home care program.

Rev. Douglas Muir of Aledonia Grace United Church, chairman of a Haldimand steering committee, formed Jan. 20, said the Brantford VON Branch has offered services to fill the gap until the county has established its own case load.

Grant Conditional Wrecking Yard Licence

CAYUGA — A wrecking yard licence application from a local operator was approved with conditions

after a two-hour debate at council Monday. Reeve Ted Powell told council the licence has come

up for consideration for the last four or five years and the yard's proprietor, Roy Mathes, hasn't complied with the village bylaw.

"Each year we have been told that he would do so but we have found that nothing has been done."

To comply with the bylaw Mr. Mathes is required to construct a high fence to hide wrecked cars that are towed to his yard. The licence has to be renewed each year.

Coun. Robert Dell, who was on a committee with Phillip Neary to investigate the condition of the yard told council the man's "livelihood" depended on the operation and he would be the last to turn down the licence application.

"We were told by Mr. Mathes that he would erect the fence as soon as the weather is warm enough to do the work."

"I have taken the man's word and I won't vote to shut him down," he said.

Coun. Charles Baird said that he had been on council and heard the arguments for each year's application for a licence renewal and Mr. Mathes had yet to comply with the bylaw.

Reeve Powell suggested the council grant a conditional licence. We could okay the licence until the end of August so that Mr. Mathes will have the time and weather conditions to comply with the bylaw.

"This has come up every year in the winter months when an excuse not to do the necessary work to comply with the bylaw is valid."

Coun. Dell suggested that many of the village's bylaws were not being enforced.

"If we are going to enforce one we have got to enforce them all," he said.

Coun. Mrs. Gwen Smith said if we are going to enforce all the bylaws we need someone to do it.

Council passed the compromise resolution to allow a conditional licence unanimously.

In other business council decided after a debate about a building permit for the Cayuga Secondary School addition that it would let the matter go for one month.

It was conceded council had constructed buildings of its own without charging a building permit fee.

However, since the school is a district school the permit fee of \$420 possibly shouldn't be waived.

The matter came up when Cecil Race, building inspector, asked for direction in the matter.

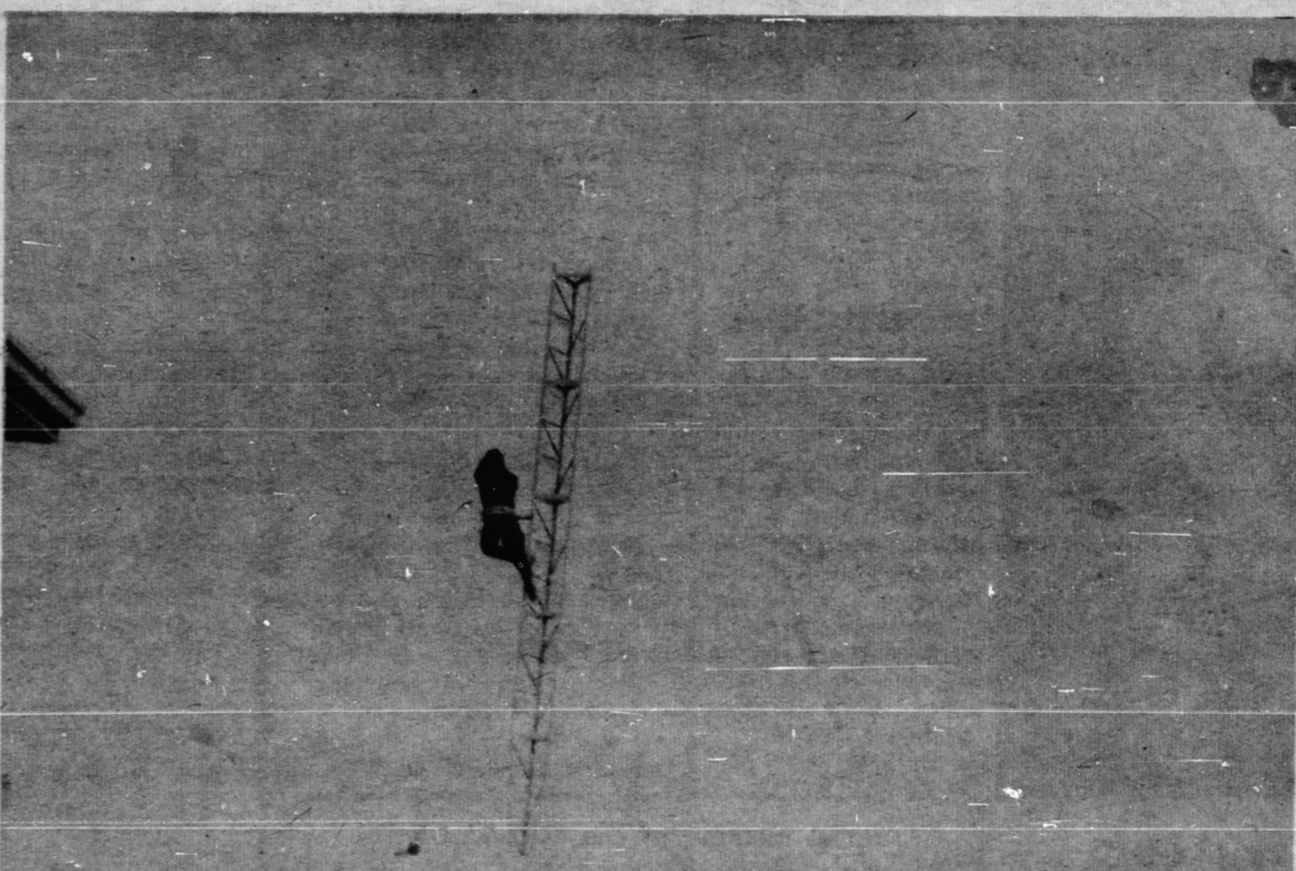

Council also: — Gave the Cayuga Planning Board a grant of \$125.

— Learned there were 75 serviced residential building lots available in the village.

— Passed a road improvement bylaw of \$9,600 for road improvement and maintenance.

Parkview Public School of Hagersville Grade four and five students paid a visit to The Record last week. The 28 students were accompanied by their teacher Miss Sylvia Winger and a visiting teacher Mrs. Dave Webb. The students wanted to see first hand the offsetting process used by the Record. Mrs. Barbara Thompson, a Record staffer, explained how the automatic IBM typesetter works. (Staff Photo)

Workmen in Jarvis constructed a Canadian National Telecommunications tower last Friday in zero temperatures and winds up to 25 m.p.h. The tower was moving at the top as workmen added each section from a half to a foot and a half. The tower was 150-feet high when completed. (Staff Photo)

Appoint New Jail Superintendents

SIMCOE — Christopher Wearing has been appointed superintendent of Simcoe Jail Minister of Reform Allan Grossman announced recently.

Mr. Wearing will fill the post left vacant when former superintendent James R. Phillips resigned to take a position as community consultant for the Addiction Research Foundation in Norfolk.

He was appointed superintendent of the jail in 1968.

Mr. Wearing joined the correctional department in 1965 as a correctional officer at Guelph Reformatory.

He served as a supervisor at Haileybury jail, the Burtch Industrial Farm and in advisory capacities in several other jails. Prior to his transfer to Simcoe he was superintendent of Brantford jail since 1965.

Mr. Phillips is a lifetime resident of the Delhi area. His new duties will include developing a program of educational and

rehabilitative services designed to reduce the incidence of drug abuse.

The foundation began working in Norfolk in 1968 when Bert Beaumont, veteran social worker, conducted the first survey of drug and alcohol abuse.

A Hagersville man, Maynard C. Miller, has been appointed to take the post as superintendent of the Brantford jail.

He joined the services of the correctional department in 1952.

Weekly Weather

Mixed but warmer weather is the regional outlook for the next few days of the Simcoe Weather Bureau.

Temperatures will range in daytime from high 20s to 30 and lows from the teens to the low 20s.

Snow is expected Friday and flurries Saturday and Sunday, said the forecaster.
