by Helen Hobbs  
The Anglican Church Women held their monthly meeting on Wed., June 2 at the home of Myrtle Armstrong (Mrs. Douglas). Adah Parsons (Mrs. Charles) gave the secretary's report. There will be a meeting held at St. John the Divine, Cayuga on June 8 in the Parish Hall consisting of president's and secretaries of Haldimand Auxiliaries to advance new ideas for Dearnery Meeting which takes place in Dunnville in the fall. (Any interested auxiliary members may attend.) Mrs. Sumner and Mrs. Charles Parsons provided lunch. Ina Dyte (Mrs. Earle) gave the treasurer's report, and called the roll. There were 13 members present.

The opportunity sale went well. The overflow went to the Amity in Hamilton. This chore was handled by Grace Parsons (Mrs. Harvey). It was suggested we have the bakeless sale announced again in church, as the receipts were down. The social services report given by Elsie Reece (Mrs. Harold). There was a grateful thank you from Mrs. Princess Shipway. We all signed a card for Mrs. Lydia Thompson, who is presently ill. There was a card sent to Mrs. Mel Tye (who was recently in a car accident).

The president read some extracts from the bulletin. We learned that in 1971, the Anglican Church of Canada,

will depend on the Anglican Church Women for the amount of \$100,000 towards the overseas work of the church. The Canadian Medical Association has co-operated with the special project, "operation eyeglasses," and has sent a Doctor to the Island of Grand Turk to prescribe correct glasses.

Rev. L. G. Stairs said there is a drug available for the treatment of leprosy that is so cheap it is unbelievable. In 34 countries for a period of one year it would cost less than one Canadian dollar.

Rev. Stairs from Brantford is area secretary of the Leper Mission, an international and inter-denominational organization. He was introduced by Mrs. B. Munro.

Previous to the showing of the film, "Making Men Whole," which showed the treatments and operations the lepers require. Rev. Stairs gave a most interesting address.

He mentioned 95 percent of all cases would respond to the comparatively new drug, DDS. Further, he stated, a great door is open to us in these days, when drug therapy is available, also in corrective surgery.

Thursday June 17 the Anglican Church Women will hold their Diocesan General meeting at St. Catharines. On June 20 there will be a barbecue after Sunday School. Lunch was then served, a social half hour was enjoyed. Adah Parsons extended the courtesies on behalf of the group.

The combined Units of the afternoon and evening, United Church Women, held a cafeteria pot-luck supper, on Tuesday evening, June 1, in the CE Wing of the church.

Guests from the women's groups of the Presbyterian, Roman Catholic, Springvale United, Baptist, and Anglican, also attended the bounteous supper, and interesting program.

Mrs. William Mitchell, president, welcomed those present, and Mrs. John Van Loon led in a lively sing-song.

Ladies who conducted the worship service were, Mrs. Gerald Hyde and Mrs. Cecil Swing, with Mrs. Don Smith at the piano.

On display at the closing of the meeting were various handicraft articles, made by lepers as therapy, from Hong Kong, India and Korea.

## TORIAL COMMENT

### A False Standard

The world's tall men frequently complain about the hips imposed on them by their size. Beds are too short for them, today's low-slung cars are difficult to get out of and lack adequate headroom, clothes that difficult to obtain. But they appear to have one major advantage over shorter fellow men.

Deland P. Deck, director of labor relations for the City of Pittsburgh, says men more than six feet in make more money than those of less than six feet in first jobs.

Men over six feet make about 10 percent more than under six feet on the first job," he said. And again appeared to be increasing.

Deck said a 1967 survey of Pitt business school graduates found the starting salary for men over six feet higher by four percent while a similar survey of graduates found the difference was 10 percent.

Deck isn't too happy about these findings. He adds that most firms hiring graduates are more interested in how high the applicant stands than what his intelligence quotient is. Brains don't count, in his view.

"I am talking about guys who are being recruited for positions because they are presumably bright, of a brain and the brain has been trained. Yet they are examining the brain, they are just hiring on the length of the spine."

Perhaps judging the suitability of a man for a job by height instead of his intelligence is just another one of the distorted values which prevail today.

Automobiles are sold on the basis of their looks rather than on their mechanical qualities; books and records are sold on the basis of style rather than on their content.

Even sport seems to rely on appearance instead of skill as a crowd-pleasing gimmick. All in all is in tune with the tamer of the times - an abandonment of traditional and tested values in favor of appearances, replacement of solid virtues by things shoddy.

Eventually, it is hoped, the pendulum will swing and we will once again put some reliance on ability and performance. Until that time comes, presumably will have to put up with the mediocre.

The Ontario Provincial Police are, for the most part, an exceptionally fine group, and the Cayuga Detachment particularly so. The officer in question may have had a bad day but there is no excuse for discourtesy and delaying action in time of an emergency.

Teenagers in rural Haldimand county use barbiturates, alcohol and tobacco, more than teenagers in Metropolitan Toronto, the Addiction Research Foundation said in a recent report. But the reverse is true for illicit drugs such as marijuana, LSD and opiates.

20 YEARS AGO

Mrs. R. A. Miller, RR 5, Simcoe was re-elected president for the third consecutive year of the West Haldimand Womens Institute at the annual meeting, held as an all-day session in the Wesley United Church, Jarvis, last Thursday.

\*\*\*  
The lack of accommodation for high school students in the West Haldimand High School Area and the increasing need for more accommodation in succeeding years is a problem that has reached the point where action must soon be taken. The Board, meeting at Caledonia on Monday night, fully discussed the question and steps were taken to finalize the contentious subject.

\*\*\*  
A woman's greatest charms are the softness of her voice, the gentleness of her presence and the generosity of her smile, particularly her smile. These are the ageless qualities which the wardrobe can't discredit or the mirror steal away.

- Macdonald Hastings on a BBC Broadcast.

30 YEARS AGO

One of the most spectacular parades ever witnessed in Jarvis, thrilled many hundreds of people on Tuesday at noon, when the cavalcade of floats in connection with the 1941 Victory Loan Drive passed through Jarvis.

Forty-nine army vehicles, decorated in a sequence depicting the war-effort, comprised the parade. The vehicles were escorted by a band of 40 pieces from Manning Depot, RCAF Toronto, as well as several motorcycles, gun-carriers, and mechanized anti-air craft guns.

\*\*\*  
Flatter-heeled shoes, worn at all kinds plus the outdoor scenes, at which they are expected to be seen, are unquestionably on the increase this season. This observation began with Easter day parades in New York and other large cities, when town shoes, keyed to regulation spring town clothes, were seen in impressive numbers, and with flatter heels. Practically everybody wears the very flat-heeled moccasin shoes for country wear, and for town more and more are wearing dress shoes with flat heels.
