

# BILL HENDERSON

**Chevrolet Oldsmobile LIMITED**

## JARVIS 587-2245

### 1. The cars are starting to roll.

The production lines are back in business producing the finest new Chevrolets and Oldsmobiles ever. All great reasons why you should see your Chevrolet-Oldsmobile dealer today.

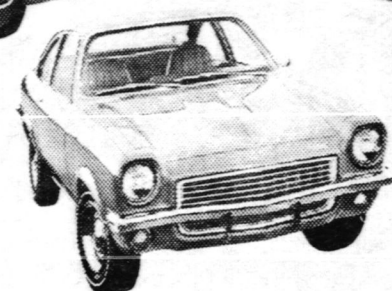

### 2. Chevrolet Caprice.

Looks like a six or seven thousand dollar luxury car, yet priced like a Chevrolet. Power front disc brakes, power ventilation system, and 400-cu.-in. V8, standard.

### 3. Chevy Vega.

The new little car that does everything well. Rides well, handles well, sits well, wears well. Hatchback Coupe, Sedan, Kammback Wagon, and a Panel Express truck. All great!

### 4. Chevy Nova.

Larger, more responsive six cylinder engine, standard. Nova also seats six, comfortably. Nova — the not-too-big, not-too-small car from Chevrolet.

### 5. Order now. Get earliest possible delivery.

Now that the new Chevrolets and Oldsmobiles are starting to roll, get your new car rolling! Your Chevrolet-Oldsmobile dealer is taking orders today. The sooner you order your new car, the sooner you get delivery.

### 6. Top dollar for your present car!

Right now your Chevrolet-Oldsmobile dealer is offering you big money for your used car. Because he hasn't had too many new cars to sell, he's short on used cars. He wants and needs your used car now. And that means big savings to you.

### 7. Monte Carlo.

The unpretentious luxury car at a Chevrolet price. 116-inch wheelbase. A very personal size. With seats like fine furniture. And the kind of ride that only a test drive can show you.

### 8. Camaro.

Extra-long doors for ease of entry and exit. New high-back bucket seats. Standard 307-cu.-in. V8. Standard front disc brakes, too. Camaro — the Super Hugger.

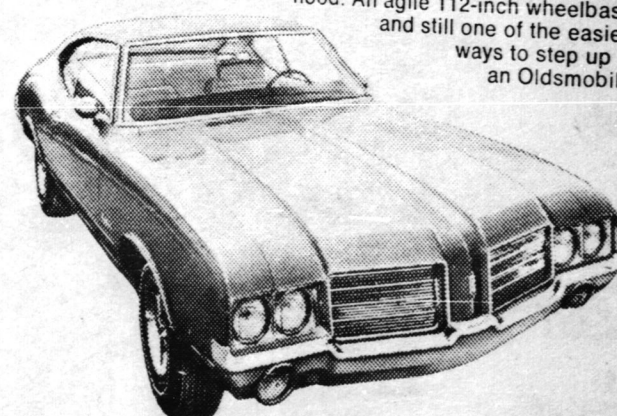

### 9. Chevelle.

Canada's very popular midsize car. With new single-unit Power-Beam headlights, crisp, clean restyled bumper and grille design. Chevelle — youthful. Economical.

### 10. Olds Delta 88.

With Oldsmobile's exclusive new G-Ride system that virtually eliminates vibrations, bottoming and jolts. Big Rocket V8, power steering and power front disc brakes are all standard.

### 11. Olds Cutlass S.

Bold fastback design. Bold new colors. Louvered hood. An agile 112-inch wheelbase, and still one of the easiest ways to step up to an Oldsmobile.

Like we said: The cars are rolling in. You get top trade-in value. And earliest possible delivery when you order early. The new Chevrolets and Oldsmobiles are the best value yet. It all adds up to...

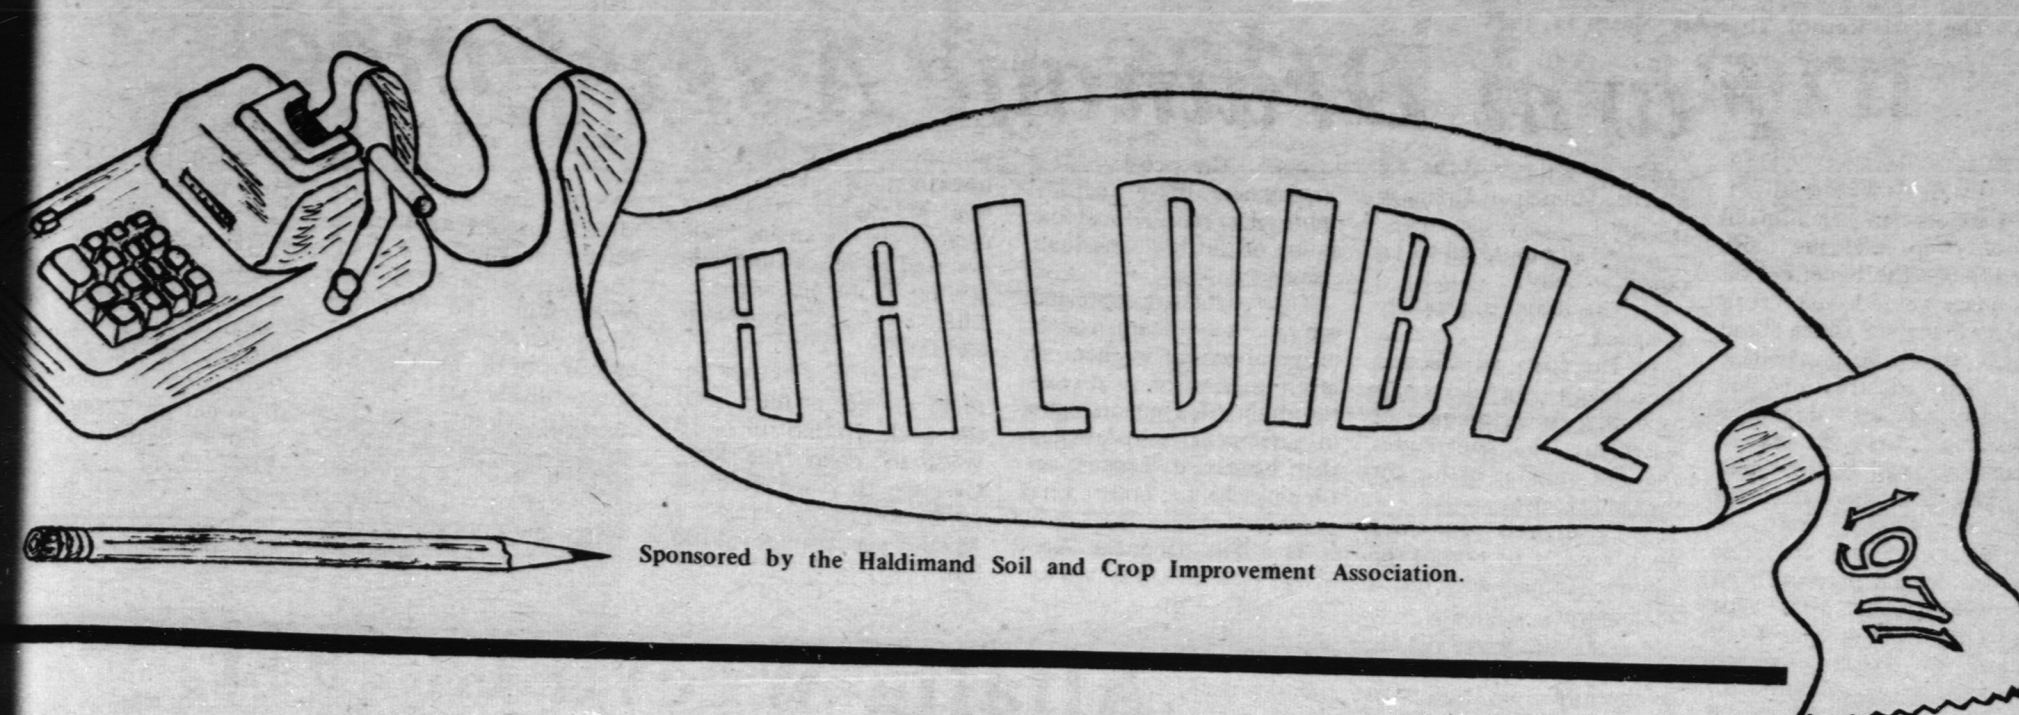

### 12. A Great Deal!

**Your Chevrolet-Oldsmobile Dealer has a lot of catching up to do. See him today.**

## Haldimand Corn And Forage Show 1971

Full program has been scheduled for the corn and forage show at Kohler on March 17 and 18.

Here is a list of the speakers:

On the morning March 17, 9 to 10.30 a.m., speakers will be received: Chairman Peter. Roof will introduce topic of costs of crop production. D. L. Machiaw, area coordinator, will be guest speaker. At noon lunch will be served.

In the afternoon, man Maurice Yager will introduce the program. The remainder of the President Roy Hagen will make his comments at 1.15 p.m.; Judge

Howard Hendry will give his comments at 1.15 ending at 1.30.

Starting at 1.30 will be a study on practical aspects of pollution control, by E. M. Wrubleski, an agricultural engineering specialist.

G. H. Henry, starting at 2.30 p.m., will introduce speakers on recommendations for 1971 field crops. These will be Harold Clapp, a dairy specialist, Ralph Macartney, beef specialists and Garnet Norrish, swine specialist. After this coffee will be served.

No program is scheduled for the morning of March 18. The afternoon program will be introduced by Chairman Don Hunter at 1 p.m.

The topic at 1.15 will be chemicals under the headings: what to use and what's new?

Speakers will be Alex Chisholm, of the technical department of Niagara Chemicals. His topic will be controlling alfalfa weevil with Furadan and the effect on seed production. Ralph Troup, technical sales department of Dupont of Canada, will talk about the annual weed and grass control in soybeans and Doug Boyd, technical service department of Niagara Chemicals, on control of insects and diseases in corn.

Crop project reports will be made by G. H. Henry, crop and soils specialist. Awards presentations will be made at 3 p.m.

### 1970 Highlights

## Haldimand Soil & Crop Improvement Association

A provincial drainage field day last July 15 on the farm of Ruigrok Brothers, Canboro, was probably one of the major 1970 activities.

Demonstrations that day have brought what should be long lasting results to many county farms. As many as three different

drainage contractors were operating in the county following the field day.

During the year an attempt was made to keep Soil and Crop Improvement members up to date with the progress of the alfalfa weevil and its control. Field meetings were held at the farms of Bryce Moerschfelder and Bruce Mehlenbacher to show the weevil in action and its control.

The annual Corn Night held in April at Cowan Farm Supply, Dunnville, drew the usual crowd of over 100. This event is the kick-off for the 150 bushel corn competition which drew 47 entries in 1970. Winner for 1970 was Leo Elgersma, Cayuga, with 164.6 bushels of corn per acre. Competition awards were presented at a fall Corn Night at Dunnville.

Don K. Campbell, Dunnville, was winner of the high yield competitions in wheat and soybeans with yields of 75.3 and 60.9 bushels respectively. The barley competition was won by Wayne Burgess, Hagersville, with a yield of 96.5 bushels. Awards for these competitions were presented at the annual meeting held at Kohler in December.

One other new activity undertaken last year was a crop twilight meeting held at the farm of Roy Hagen. Jarvis. Roy is the 1971 president of the association. He extends an invitation to all Haldimand farmers to join in the activities of the association starting with the Corn and Forage Show at Kohler, March 17 and 18.

## Choose Resistant Hybrids — Combat Stalk Rots

by K. Bereza

which occurred in the corn in lodging which was attributed to

corn borer was in fact due to stalk rots. These diseases are caused primarily by Gibberella and Diplodia species of fungi which are present on crop residue and in the soil.

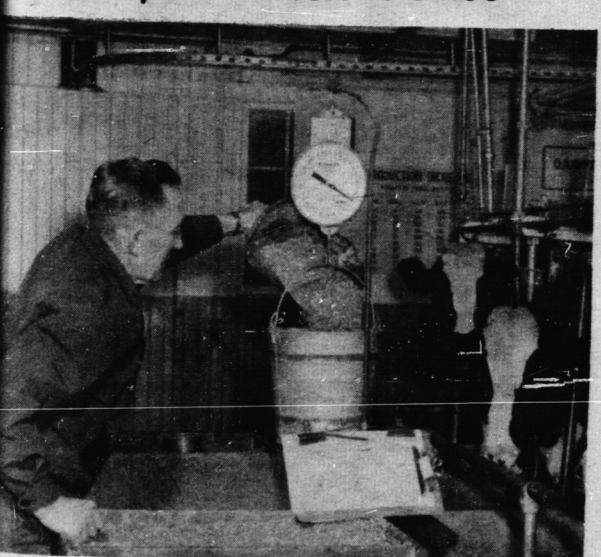

Use of hybrids showing most resistance to stalk breakage is a definite asset. The full season, late maturing hybrids retain sugar content longest and therefore better resist the advance to rot producing organisms. Corn should also be harvested as soon as possible after maturity to minimize lodging.

Corn growers can do nothing about weather conditions, however, something can be done about the other stress factors. Fertility requirements should be balanced so as not to accelerate plant maturity. Row widths less than 36 inches and plant populations greater than 21,000 probably cause plant stress.

Infection occurs while the seed is germinating, sometimes causing seedling blight, but the main injury shows as root, crown and stalk rot which becomes noticeable on the mature plants about harvest time.

of the best little investments: a milk scale. Here a farmer feeds his cows according to their production. (AF Photo)

Harold Bentley

milk scale is not only tax deductible but can save a lot more money in the economic feeding of dairy cows.

With feeding according to the cow's production level the difference in return of milk over feed costs will be larger through the use of the scale in weighing milk and feed.

The investment should be recovered in one week or less in a 20 cow herd. Total that saving up over 52 weeks.

### 4-H Agriculture Clubs Organize March 24 At R.Y.C., Kohler

The 1971 4-H program is just around the corner. The 4-H Club Leaders' Association have extended an invitation to community minded individuals who are interested in helping our young folk. If you feel you are willing to help out with 4-H this year, give us a call at the Agricultural Office. We'll pass your name on to the 4-H Club Leaders Association. Phone 772-3381 Cayuga.

## Directors 1971

There's a crop Improvement Director near you. John Albin, Caledonia is past president, Roy Hagen, Jarvis, is 1971 president, while Edwin Harvey, Lowbanks, and Maurice Yager, Selkirk, are vice-presidents. K. E. Best, Cayuga, serves as secretary-treasurer.

Grant Richardson of Dunnville was recently elected Director to the Ontario Soil and Crop

Improvement Association serving the counties of Haldimand, Norfolk and Brant.

Directors by Townships are:

Oneida — Rodney Fox and Don Hunter.  
Seneca — Peter Funke and Ross Godfrey.  
North Cayuga — Fred Topp, B. A. Mehlenbacher, Peter Oosterhoff and Don Nie.

Rainham — Maurice Yager and Fay Schumacher.  
Walpole — Philip Hare, David Genery, Roy Hagen, and Otto Crone.

Dunn — Grant Richardson and Jack Schilstra.  
Canboro — Jack Sutor and Sidney Zeldenrust.  
Sherbrooke — Edwin Harvey.  
Moulton — Wayne Ettinger and Glenn McCombs.
