

Haldimand Division Of OSSTF Speaks Up

On the instruction of the Executive Council, the President, F. Schlichtherle, and the District Public Relations Officer, J. Anderson, the following statement is presented to air the views of the Haldimand Division of the Ontario Secondary School Teachers' Federation, concerning the recent Board Budget proposal.

We, the teachers of Haldimand, find that we cannot accept the statement, as published in the Hamilton Spectator of March 18, 1971, that the Haldimand Board's proposed budget cuts will not detract from the present quality of education. It is obvious that with the elimination of certain courses that are now being offered and the considerable increase in class size that the present level of education cannot be maintained.

The question might be asked: should we consider as acceptable the elimination of such "frills" as a driver education course, drastic reductions in night school programs,

sorely-needed developmental reading courses, and any other subject options which, because they were not chosen by a definite number of students, simply will not be offered, regardless of their value? Also with the anticipated increase in the secondary school enrolment, and a reduction in total staff, most class sizes will increase.

The teachers' concern with the proposed budget is two fold. We are involved as taxpayers, but, far more important, we are concerned with the day-to-day learning situation. As teachers we will continue to give to the students the highest possible quality of teaching within our capacity. But it would be folly to think that, in the face of the new budget, standards comparable to previous years can be maintained. Thus, rather than saying, "Secondary schools are taking it on the chin" it would be more accurate to say that secondary school students are taking it on the chin.
