pollution of the airways. This pile of trash was burning Tuesday on the south Highway 3 near Renton. Old tires, old wood and other materials were the fuel flames and smoke. (Staff Photo)

HALDIMAND-NORFOLK STUDY Phase Two Started

A start on the Haldimand-Norfolk study will be made it was announced June 16, a meeting will be held at Simcoe at the Elgin Ave. Public School. N. H. Richardson, Ontario Planner for the area, will conduct the meetings and seek citizen opinions on what is needed for the area.

The first is scheduled for June 15 at 2.30 p.m. and Waterford at the Council chambers at 8 p.m.

A brochure, put out by the Ontario Department of Municipal Affairs, has been distributed throughout the area in order for people to gain as much background on the problems as possible. Eric Grove, assistant planner said it was hoped that most people will study these and have good suggestions to offer at the meetings.

THE WTCAA SEEK ANSWERS

Walpole Township Citizens Association of property owners would like to know now just what the situation is regarding industry, and industrial development in Walpole Township.

President Howard Nicklin told the Record: "Assuming we can get an answer — the Association members would like a definite answer as to whether the present zoning by-laws will be changed regarding sanitation and pollution problems. There are alternatives, such as holding tanks, electric toilets and layered type tile beds for septic systems.

"We realize every township must have by-laws for the protection of the citizens and instituted by the Ontario Municipal Board so township councils must enforce these by-laws. When the citizens of the township are in disagreement with the by-laws, they think they should be able — in a democratic manner — to approach the OMB through the township council with Association representatives to present recommendations for amendments to, or recinding some of the existing by-laws.

"The Association realizes these by-laws were instituted for a proper and orderly development in the township of Walpole, however Dr. D. Marshall on behalf of the Association feels that a property owner prior to the enactment in 1967 of the zoning by-law must be exempt from many of the by-law restrictions.

Garden Tractor Valued At \$1,178 Taken

JARVIS — A garden tractor valued at \$1,178 is missing from Doughty and Williamson's Ltd. Police reported to work May 27. Const. W. L. Bessey of Cayuga OPP is investigating.

The safe disposal of sewage is a health problem and should be looked after by health units in the province. Dr. Washburn has eased some of the sewage disposal rules and now says although sewage beds are the preferable choice in home waste disposal, that he would permit some holding tanks in cases where field beds are not an ideal solution, providing property owners installing a holding tank can produce a contract as proof they have arranged regular emptying of tanks by a cleaning company," he said.

Tempers Short At WTCAA

JARVIS — An angry and impatient number of Walpole ratepayers forced an early adjournment of a meeting to discuss the township's zoning by-laws Thursday.

Tempers were short as Eric Grove, an Ontario planning expert tried to outline long range plans for the area.

A member of the audience told him "To either sit down or get to the point as he hadn't come to discuss the history or the future of the township."

Some 200 property and cottage owners attended the meeting seeking answers to a township restriction by-law that doesn't allow them to improve their cottages unless they have 20,000 square feet of space or allow them to use their summer

IMAND-NORFOLK STUDY

Injured were Nicholas Laforme, of R.R. 5 Hagersville, Clarence O'Reilly and Marlene O'Reilly of Jarvis. They were treated for cuts and bruises.

Police said that Mr. Laforme was the driver of one car and Mr. O'Reilly the driver of the other when their cars collided on Con. 11 of Walpole.

Damage was \$500 to each car.

Const. T. Monforton of Cayuga OPP investigated the crash reported at 8.45 p.m.

"We are pleased with the headway we have made toward the reasonable solutions of problems in our township.

Mr. Nicklin along with a select few members of the Association will accept the invitation extended by Reeve Gordon Miller and Deputy Reeve Bruce Meehan at last Thursday night's meeting in Jarvis to meet with them at a mutually convenient time to discuss further approaches and solutions to better our entire township," he said.
