## Rubber Tires Could Be Farmer's Best Friend

GUELPH - Old rubber tires could become a farmer's best friend. Prof. B. J. Teskey of the University of Guelph, has found that one of the components of rubber tires makes an excellent mulch.

Prof. Teskey, a fruit tree specialist with the Department of Horticultural Science, began a co-operative program with a tire company two years ago. The company wanted a

satisfactory means of disposal for mountains of old, bare, and apparently useless tires. Professor Teskey was interested in providing for the needs of fruit trees.

He had discovered that shredded nylon cord from rubber tires makes an excellent mulch for fruit trees. Mulches are important. Besides conserving
