A most successful Holstein Club sale makes a clean sweep for October events in Haldimand. Caledonia Fair was the best ever, Haldimand entries and committees excelled in their performance at the International Plowing Match. And the high Holstein sale average and top price of \$3,500 put the county on the map.

A new home-study course in dairy animal health is now available from the University of Guelph. It is

designed specifically for dairy farmers, A. I. technicians, or others employed in allied industries.

Three veterinarians from the Ontario Veterinary College have developed a course that allows the farmer to practice a better preventative medicine program for his herd, in co-operation with his veterinarian. The symptoms and causes of diseases affecting dairy animals from birth to death are outlined in detail. Management and medicinal correctional procedures are included, but the emphasis is placed on practicing preventive medicine.

The course will include eight assignments, which will be corrected and

returned with comments to the students. It costs \$30, including texts.

Federation News

by Otto Crone
Haldimand is bursting with pride. For many months the folks of this county boasted that we would have the biggest and best plowing match ever. With the weatherman smiling kindly on us, the enthusiasm, hard work and friendliness of the people the boast became a reality.

Everywhere there were crowds of people and they came in droves to the Federation of Agriculture display. The men, came, the ladies came, the children, grandparents and all the kin folk. They came not only from Ontario but from all across Canada. There were even a few callers from the U.S. and several European countries. Our display showed the true federated structure of the organization through the cooperation of individuals, U.C.O., CIAG Insurance, the Farm Machinery Agency and commodity organizations.

On hand to greet the people and answer questions were the County Executive committee, representatives

from neighboring counties, O.F.A. staff and O.F.A. President, Gordon Hill.

Information leaflets were distributed and coffee was served to everyone by the ladies to show our appreciation for their interest.

The general feeling of the people indicates satisfaction for what has been accomplished for farmer's benefit and the encouragement we received was gratifying. The Ontario Plowmen's Association awards banquet was a huge success. Our congratulations to Miss Janice Fox as our new Queen of the Furrow for Ontario.

POTENTIAL PATIENTS
HAMILTON, (CP) - A Hamilton doctor says more than 40,000 city residents suffer from or will develop respiratory diseases. "They're all potential patients," says Dr. Michael Newhouse, who is appealing to the public to take part in a simple but important test that helps detect lung disorders.

Hagersville Winter Carnival Plans Underway

The Jarvis Record Thursday, October 28, 1971 - 7

Red Liners Car Wash

Even though the day was most cloudy, there was much eagerness and enthusiasm among the Car Club Members to make the day a brilliant success.

The club held its winter car wash and wax at the Hagersville Market Square on Oct. 17.

Many local residents took advantage of the opportunity to have their cars prepared for the winter months, said Secretary Dave Mitchell.

Some of the cars done by the group were, Const. David McGregor's, Keith and Brian McBurney, Reeve Jack Kincaid, and William Mattice.

With a total of 26 cars completed, the receipts totalled well over \$100, which was certainly a reward to the tired group of club members.

The Red Liners plan to use the proceeds towards improvements to the building which they have rented.

"All members wish to thank everyone who supported them in any way. Too, they feel that enthusiasm such as they received will help all young men in the Club, achieve a better understanding in a community such as ours," Dave Mitchell said.
